Harry Fox, Justin Jaron Lewis

Renaissance Man And His Children:

The Renaissance Man and His Children Louis Haas, 1998 Haas delves into account books letters and literature of the Renaissance to examine elite Florentine male attitudes and behaviours regarding birth and infancy and the various rites of passage such as baptism that Renaissance society provided

The life-cycle in Western Europe, c.1300-c.1500 Deborah Youngs, 2020-01-03 This is the first study to examine the entire life cycle in the Middle Ages Drawing on a wide range of secondary and primary material the book explores the timing and experiences of infancy childhood adolescence and youth adulthood old age and finally death It discusses attitudes towards ageing rites of passage age stereotypes in operation and the means by which age was used as a form of social control compelling individuals to work govern marry and pay taxes The wide scope of the study allows contrasts and comparisons to be made across gender social status and geographical location It considers whether men and women experienced the ageing process in the same way and examines the differences that can be discerned between northern and southern Europe The fourteenth and fifteenth centuries suffered famine warfare plague and population collapse This fascinating consideration of the life cycle adds a new dimension to the debate over continuity and change in a period of social and demographic upheaval

The Critical Role of Parenting in Human Development Marianna S. Klebanov, Adam D. Travis, 2014-07-17 This thorough and multidisciplinary overview of childrearing illustrates and stands on two foundational principles that the importance of parenting is immense and that it is undervalued The Critical Role of Parenting in Human Development surprises readers with the realization that the way we were parented in childhood impacts nearly every aspect of our lives Based in part on cutting edge research using MRI and fMRI technologies demonstrating that the brains of those traumatized in childhood are essentially different the book explains that our brain development during our earliest years and in the womb is fundamental to the lives we lead It covers attachment theory the impact of corporal punishment on the brain the effects of emotional abuse and neglect and the widespread nature of Posttraumatic Stress Disorder describing the process that leads to the transmission of parenting patterns through the generations and explaining how resulting personal issues recur throughout the lifespan The Critical Role of Parenting in Human Development also examines laws and policies that impact parenting in our culture making a case for their importance and describes the effect of childrearing on various aspects of human life including relationships crime and violence economics mental and physical health addiction education and career issues among others Interdisciplinary in nature this book is a much needed resource for professionals and students in the psychology psychotherapy social work and related mental health and child welfare fields

Many Pious Women Harry Fox, Justin Jaron Lewis, 2011-10-27 This work is of importance to anyone with an interest in whether women especially Jewish Ashkenazic women had a Renaissance It details the participation in the Querelle des Femmes and Power of Women topos as expressed in this hagiographic work on the lives of biblical women including the apocryphal Judith The Power of Women topos is discussed in the context of the reception of

the Amazon myth in Jewish literature and the domestication of powerful female figures In the Querelle our author pleads with husbands for generosity and respect for their wives piety Whether women living in the Renaissance experienced a renaissance is a debate raging since Joan Kelly raised the possibility that this historic phenomenon essentially did not affect women The question is raised with reference to the women depicted in Many Pious Women These topics find their expression in a richly annotated translation with extensive introductory essays of a unique 16th century manuscript in Western Yiddish Judeo German written in Italy The text will also be useful to scholars of the history of Yiddish and theorists of its development Women everywhere gender and Renaissance scholars Yiddishists and linguists will all welcome this work now available for the very first time in the original text with an English translation

Affectionate Authorities Philip Grace, 2016-03-16 In one of his sermons the medieval preacher Bernardino of Siena listed seven fathers to whom one owed obedience God one's natural father godfather confessor benefactor a government official and any elderly man This book seeks to answer the question of why medieval Europeans saw the need for so many fathers Why was fatherhood so appealing as a metaphor Situated at the intersection of social and cultural history the study draws upon a variety of late medieval and early modern sources including witness depositions personal letters and pedagogical treatises from the city of Basel Switzerland It focuses on how people from different walks of life invoked ideas about fatherhood in the pursuit of various goals not only the ideological agendas of scholarly elites but also the more pragmatic problems of closing a business deal claiming an inheritance or choosing sides in a fistfight before turning to what these ideas reveal about fatherhood on the ground The book argues that it was precisely fatherhood's basis in lived experience that gave it a familiar shape in the several roles that fathers played including provision affection disciplinary authority and education The most potent rhetorical aspect of fatherhood however was not as a static image or shape but rather the possibility of invoking connections between one role and another The most potent connection between roles was the idea that fathers were affectionate authorities combining power over subordinates with desire for their well being Tracing the connections and contradictions of these identities this study provides a nuanced view of concepts of fatherhood on the eve of the Reformation

Gender and Early Modern Constructions of Childhood Naomi J. Miller, Naomi Yavneh, 2016-12-05 Drawing on art history literary studies and social history the essays in this volume explore a range of intersections between gender and constructions of childhood in the 15th 16th and 17th centuries in Italy England France and Spain The essays are grouped around the themes of celebration and loss education and social training growing up and growing old Contributors grapple with ways in which constructions of childhood were inflected by considerations of gender throughout the early modern world In so doing they examine representations of children and childhood in a range of sources from the period from paintings and poetry to legal records and personal correspondence The volume sheds light on some of the ways in which in the relations between Renaissance children and their parents and peers gender mattered Gender and Early Modern Constructions of Childhood enriches our

understanding of individual children and the nature of familial relations in the early modern period as well as of the relevance of gender to constructions of self and society *The Digital Child* Daniel Dervin, 2017-10-18 Nothing is more synonymous with the twenty first century than the image of a child on his or her smart phone tablet video game console television and or laptop But with all this external stimulation has childhood development been helped or hindered Daniel Dervin is concerned that today s childhood has become unmoored from its Rousseauist Wordsworthian anchors in nature He considers childrens development to be inextricably linked with inwardness a psychological concept referring to the awareness of ones self as derived from the world and the internalization of such reflections Inwardness is the enabling space that allows ones thoughts experiences and emotions to be processed It is an important adaptive marker of human evolution In *The Digital Child* Dervin traces the evolution of how we have perceived childhood in the West and thus what we have meant by inwardness from pre history to today He identifies six transformational stages tribal pedagogical religious humanist rational and citizen leading up to a new stage the digital child This stage has emerged from current unprecedented and pervasive technological culture Dervin delves deeply into each stage that precedes today s studying myths literary texts the visual arts cultural histories media reports and the traditions of parenting pediatrics and pedagogy Weaving together approaches from biology culture and psychology Dervin revisits who we once were as a species in order to enable us to grasp who we are becoming and where we might be heading for better or worse **Mona Lisa** Dianne Hales, 2014-08-05 The book rests on the premise that the woman in the painting *Mona Lisa* is indeed the person identified in its earliest description Lisa Gherardini 1479 1542 wife of the Florence merchant Francesco del Giocondo Dianne Hales has followed facts from the Florence State Archives to the squalid street where *Mona Lisa* was born to the ruins of the convent where she died

Reformation Christianity Peter Matheson, 2010-03-01 Perhaps no period in Christian history experienced such social tumult and upheaval as the Reformation as it quickly became apparent that social and political issues finding deep resonance with the common people were deeply entwined with religious ones raised by the Reformers Led by eminent Reformation historian Peter Matheson this volume of *A People s History of Christianity* explores such topics as child bearing a good death rural and village piety and more Includes 50 illustrations maps and an 8 page color gallery **A Companion to Paul in the Reformation** R. Ward Holder, 2009-04-24 The reception and interpretation of the writings of St Paul in the early modern period forms the subject of this volume from late medieval Paulinism and the beginnings of humanist biblical scholarship and interpretation through the ways that theologians of various confessions considered Paul Beyond the ways that theological voices construed Paul several articles examine how Pauline texts impacted other areas of early modern life such as political thought the regulation of family life and the care of the poor Throughout the volume makes clear the importance of Paul for all of the confessions and denies the confessionalism of previous historiography The chapters written by experts in the field offer a critical overview of current research and introduce the major themes in Pauline interpretation in the Reformation and

how they are being interpreted at the start of the 21st century Honorable Mention Roland H Bainton Book Prize 2010
