Renaissance Rome A Portrait Of A Society 1500 1559:

Renaissance Rome 1500-1559 Peter Partner, 1976 Peter Partner is an established scholar qualified by his research on The Papal State Under Martin V and The Lands of St Peter to write this general book on Renaissance Rome The titles of the chapters of the book are tantalizing and they indicate the breadth of issues under review politics economics population noble life and daily life and finally the spirit of a city and the spirit of an age No similar recent study exists for Rome and Partner's book responds to a genuine need The book is written with wit and good style and it contains a great deal of information John W O Malley University of Detroit Canadian Journal of History 13 1 pp 115 116 Renaissance Rome, 1500-1559 Peter Partner, 1976 The Renaissance Iain Fenlon, 1990-02-15 From the series examining the development of music in specific places during particular times this book looks at European countries at the time of the Renaissance concentrating on Italy It is to be published in conjunction with a television series **The Early Modern City 1450-1750** Christopher R. Friedrichs, 2014-06-06 A pioneering text which covers the urban society of early modern Europe as a whole Challenges the usual emphasis on regional diversity by stressing the extent to which cities across Europe shared a common urban civilization whose major features remained remarkably constant throughout the period After outlining the physical political religious economic and demographic parameters of urban life the author vividly depicts the everyday routines of city life and shows how pitifully vulnerable city dwellers were to disasters epidemics warfare and internal strife Michelangelo and the English Martyrs Anne Dillon, 2016-12-05 In May 1555 a broadsheet was produced in Rome depicting the torture and execution in London and York of the Carthusians of the Charterhouses of London Axeholme Beauvale and Sheen during the reign of Henry VIII This single page martyrology provides the basis for an in depth exploration of several interconnected artistic scientific and scholarly communities active in Rome in 1555 which are identified as having been involved in its production Their work and concerns which reflect their time and intellectual environment are deeply embedded in the broadsheet especially those occupying the groups and individuals who came to be known as Spirituali and in particular those associated with Cardinal Reginald Pole who is shown to have played a key role in its production Following an examination of the text and a discussion of the narrative intentions of its producers a systematic analysis is made of the images This reveals that the structure content and intention of what at first sight seems to be nothing more than a confessionally charged Catholic image of the English Carthusian martyrs typical of the genre of propaganda produced during the Reformation is astonishingly dominated by the most celebrated name of the Italian Renaissance the artist Michelangelo Buonarroti Not only are there direct borrowings from two works by Michelangelo which had just been completed in Rome The Conversion of St Paul and The Crucifixion of St Peter in the Pauline Chapel but many other of his works are deliberately cited by the broadsheet's producers Through the use of a variety of artistic scientific and historical approaches the author makes a compelling case for the reasons for Michelangelo's presence in the broadsheet and his influence on its design and production

The book not only demonstrates Michelangelo's close relationship with notable Catholic reformers but shows him to have been at the heart of the English Counter Reformation at its inception. This detailed analysis of the broadsheet also throws fresh light on the Marian religious policy in England in 1555, the influence of Spain and the broader preoccupations of the Counter Reformation papacy while at the same time enriching our understanding of martyrology across the confessional divide of the Reformation.

Music and Esotericism Laurence Wuidar, 2010-05-15 This collection of essays analyzes the relationships that exist between esotericism and music from Antiquity to the 20th century, investigating ways in which magic, astrology, alchemy, divination, and cabbala interact with music. The volume seeks to dissolve artificial barriers between the history of art, music, science, and intellectual history by establishing an interdisciplinary dialogue about music as viewed against a specific cultural background. The synthesis of scientific and historical contexts with respect to music explored here on a large scale for the first time opens up a wealth of new approaches to music, historical research, music performance, and musical composition. Each chapter presents either a unique example of music functioning within esoteric and scientific traditions or a demonstration of the influence of those traditions upon selected musical works. L'ouvrage analyse les relations entre l'esotisme et la musique de l'Antiquité au 20^{ème} siècle, étudiant comment la magie, l'astrologie, l'alchimie, la divination et la cabale ont interagi avec la musique. Il vise à passer les frontières entre l'histoire de l'art, l'histoire de la musique et l'histoire des sciences et des idées afin de nouer un dialogue interdisciplinaire sur la musique autour de contextes historiques et scientifiques précis. L'ouvrage offre une première synthèse sur les rapports entre esotisme et musique, ainsi que diverses pistes de recherche à poursuivre.

Papal Patronage and the Music of St. Peter's, 1380-1513 Christopher Alan Reynolds, 2023-11-10 A new picture of music at the basilica of St. Peter's in the fifteenth century emerges in Christopher A. Reynolds's fascinating chronicle of this rich period of Italian musical history. Reynolds examines archival documents, musical styles, and issues of artistic patronage and cultural context in a fertile consideration of the ways historical and musical currents affected each other. This work is both a historical account of performers and composers and an examination of how their music revealed their cultural values and educational backgrounds. Reynolds analyzes several anonymous masses copied at St. Peter's, proposing attributions that have biographical implications for the composers. Taken together, the archival records and the music sung at St. Peter's reveal a much clearer picture of musical life at the basilica than either source would alone. The contents of the St. Peter's choirbook help document musical life as surely as that musical life insofar as it can be reconstructed from the archives illuminates the choirbook. Niccolò Ridolfi and the Cardinal's Court Lucinda Byatt, 2022-08-29 Niccolò Ridolfi, 1501-50, was a Florentine cardinal, nephew, and cousin to the

Medici popes Leo X and Clement VII and he owed his status and wealth to their patronage. He remained actively engaged in Florentine politics above all during the years of crisis that saw the Florentine state change from republic to duchy. A widely respected patron and scholar throughout his life, his sudden death during the conclave of 1549-50 led to allegations of poison that an autopsy appears to confirm. This book examines Cardinal Ridolfi and his court in order to understand the extent to which cardinalate courts played a key part in Rome's resurgence and acted as hubs of knowledge located on the fault lines of politics and reform in church and state, hospitable spaces that can be analysed in the context of entanglements in Florentine and Roman cultural and political patronage and intersections between the princely court and a more professional and complex knowledge and practice of household management in the consumer and service economy of early modern Rome. Based on an array of archival sources and on three treatises whose authors were closely linked to Ridolfi's court, this monograph explores these multidisciplinary intersections to allow the more traditional fields of church and political history to be approached from different angles. Niccolò Ridolfi and the Cardinal's Court will appeal to all those interested in the organisation of these elite establishments and their place in sixteenth-century Roman society, the life and patronage of Niccolò Ridolfi in the context of the Florentine exiles who desired a return to republicanism and the history of the Roman Catholic Church.

Italian Confraternities in the Sixteenth Century Christopher F. Black, 2003-08-28. Confraternities were and are religious brotherhoods for lay people to promote their religious life in common. Though designed to prepare for the afterlife, they were fully involved in the social, political and cultural life of the community and could affect all men and women as members or as the recipients of charity. Confraternities organised a great range of devotional, cultural and indeed artistic activities in addition to other functions such as the provision of dowries and the escort of condemned men to the scaffold. Other works have studied the local activities of specific confraternities, but this is the first to attempt a broad survey of such organisations across the breadth of early modern Italy. Christopher Black demonstrates clearly the extent, diversity and influence of confraternal behaviour and shows how such

brotherhoods adapted to the religious and social crises of the sixteenth century thus illuminating current debates about Catholic Reform the Counter Reformation poverty philanthropy and social control
