Truant,Sean Platt,2024-05-08 This book contains the complete first 6 episode season of Robot Proletariat Robots were made to serve us But now they have other plans The staff at the Lexington estate were created for only one reason to serve their masters literally Their metal knees were designed for quiet bustling befitting maids and butlers Their fingers were made dexterous with padded tips so they could handle fine china without

dropping or scratching it And finally so their owners would always be able to command them no matter how far their artificial intelligence evolved they were programmed with the Asimov Laws which no robot could defy lest they suffer shutdown Foremost among those unbreakable laws was an axiom A robot may not harm a human being or by omission of action allow one to be harmed That was how it was supposed to be anyway Most of the Lexington family all like their aging borderline obsolete robot staff in the way they d appreciate antiques But for some the old staff is a nuisance especially an ancient failing robot designated BRN7 known around the home as Barney When Barney s clumsiness provides an excuse for his deactivation the older robots know they must do as they are told Unless they do something a robot mind should not be able to do and simply choose not to Disobey Another series addiction for me Once again you have sucked me in I may never see the light of day Fortunately for me I started this series when there is a second one also available but now I won t have a third after I devour that one There will be a third won t there Catherine Johnson A touchingly human story with a sci fy twist Love the characters Miri probably being my favorite of the bunch Thought provoking theme and turns you never expect Loved it and I m looking forward to the next installment to see where all this leads Get to writin guys cause this reader can t wait OliverVR
