Oral Forms of Nigerian Autobiography and Life Stories Adetayo Alabi, 2021-08-19 *Oral Forms of Nigerian Autobiography and Life Stories* discusses the oral life stories and poems that Africans particularly the Yoruba people have told about the self and community over hundreds of years. Disproving the Eurocentric argument that Africans didn't produce stories about themselves the author showcases a vibrant literary tradition of oral autobiographies in Africa and the diaspora. The oral autobiographies studied in this book show that stories and poems about individuals and their communities have always existed in various African societies and they were used to record, teach and document history, culture, tradition, identity and resistance. Genres covered in the book include the panegyric, witches and wizards narratives, the epithalamium tradition, the hunter's chant and *Udje* of the Urhobo. Providing an important showcase for oral narrative traditions this book will be of interest to students, scholars and researchers in African and African studies, literature and autobiographical studies.
