Rock Music Culture Aesthetics And Sociology:

Rock Music Peter Wicke, 1990-05-25 A stimulating and penetrating study of rock music from rock n roll to the present day

The Rock Canon Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon In essence the canon comprises the works and artists that are widely accepted to be the greatest in their field Yet such an apparently simple construct embodies a complicated web of values and mechanisms Canons are also inherently elitist however Carys Wyn Jones here explores the emerging reflections of values terms and mechanisms from the canons of Western literature and classical music in the reception of rock music Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums Bob Dylan s Highway 61 Revisited The Beach Boys Pet Sounds The Beatles Revolver The Velvet Underground s The Velvet Underground Nico Van Morrison s Astral Weeks Marvin Gaye s What s Going On The Rolling Stones Exile on Main St Patti Smith s Horses The Sex Pistols Never Mind the Bollocks Here s the Sex Pistols and Nirvana s Nevermind Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now negotiate a far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries

Rock Music Mark Spicer, 2017-07-05 This volume gathers together twenty articles from among the best scholarly writing on rock music published in academic journals over the past two decades These diverse essays reflect the wide range of approaches that scholars in various disciplines have applied to the study of rock from those that address mainly the historical sociological cultural and technological factors that gave rise to this music to those that focus primarily on analysis of the music itself This collection of articles some of which are now out of print or otherwise difficult to access provides an overview of the current state of research in the field of rock music and includes an introduction which contributes to the ongoing debate over the distinction or lack thereof between rock and pop
