The Rocky Mountain West in 1867 Simonin, 1830-1886 Louis Laurent, Parading Through History Frederick E. Hoxie, 1995 Exploring the links between the nineteenth century nomadic life of the Crow Indians and their modern existence this book demonstrates that dislocation and conquest by outsiders drew the Crows together by testing their ability to adapt their traditions to new conditions Le Grand-Ouest Des États-Unis. Uniting the Tribes Frank Rzeczkowski, 2012-05-17 Native American reservations on the Northern Plains were designed like islands intended to prevent contact or communication between various Native peoples For this reason they seem unlikely sources for a sense of pan Indian community in the late nineteenth and early twentieth centuries But as Frank Rzeczkowski shows the flexible nature of tribalism as it already existed on the Plains subverted these goals and enabled the emergence of a collective Indian identity even amidst the restrictiveness of reservation life Rather than dividing people tribalism on the Northern Plains actually served to bring Indians of diverse origins together Tracing the development of pan Indian identity among once warring peoples Rzeczkowski seeks to shift scholars attention from cities and boarding schools to the reservations themselves Mining letters oral histories and official documents including the testimony of native leaders like Plenty Coups and Young Man Afraid of His Horses he examines Indian communities on the Northern Plains from 1800 to 1925 Focusing on the Crow he unravels the intricate connections that linked them to neighboring peoples and examines how they reshaped their understandings of themselves and each other in response to the steady encroachment of American colonialism Rzeczkowski examines Crow interactions with the Blackfeet and Lakota prior to the 1880s then reveals the continued vitality of intertribal contact and the covert and sometimes overt political dimensions of visiting between Crows and others during the reservation era He finds the community that existed on the Crow Reservation at the beginning of the twentieth century to be more deeply diverse and heterogeneous than those often described in tribal histories a multiethnic community including not just Crows of mixed descent who preserved their ties with other tribes but also other Indians who found at Crow a comfortable environment or a place of refuge This inclusiveness prevailed until tribal leaders and OIA officials tightened the rules on who could live at or be considered Crow Reflecting the latest trends in scholarship on Native Americans Rzeczkowski brings nuance to the concept of tribalism as long understood by scholars showing that this fluidity among the tribes continued into the early years of the reservation system Uniting the Tribes is a groundbreaking work that will change the way we understand tribal development early reservation life and pan Indian identity **Checklist of United**

States Public Documents 1789-1909, Congressional United States. Superintendent of Documents,1962 **The Girl in the Middle** Martha A. Sandweiss,2025-04-15 A haunting image of an unnamed Native child and a recovered story of the American West In 1868 celebrated Civil War photographer Alexander Gardner traveled to Fort Laramie to document the federal government's treaty negotiations with the Lakota and other tribes of the northern plains Gardner known for his iconic portrait of Abraham Lincoln and his visceral pictures of the Confederate dead at Antietam posed six federal peace commissioners with a young Native girl wrapped in a blanket The hand labeled prints carefully name each of the men but the girl is never identified As *The Girl in the Middle* goes in search of her it draws readers into the entangled lives of the photographer and his subjects Martha A Sandweiss paints a riveting portrait of the turbulent age of Reconstruction and westward expansion She follows Gardner from his birthplace in Scotland to the American frontier as his dreams of a utopian future across the Atlantic fall to pieces She recounts the lives of William S Harney a slave owning Union general who earned the Lakota name Woman Killer and Samuel F Tappan an abolitionist who led the investigation into the Sand Creek massacre And she identifies Sophie Mousseau the girl in Gardner's photograph whose life swerved in unexpected directions as American settlers pushed into Indian Country and the federal government confined Native peoples to reservations Spinning a spellbinding historical tale from a single enigmatic image *The Girl in the Middle* reveals how the American nation grappled with what kind of country it would be as it expanded westward in the aftermath of the Civil War **Army Architecture in the West** Alison K. Hoagland,2004 By examining the three exemplary Wyoming forts of Laramie Bridger and D A Russell the author explains how widely varying architectural designs rather than standardized plans were used to construct western American forts *The Rise of the Centennial State* Eugene H. Athearn,1995 William

Tecumseh Sherman is known primarily for having cut a swath of destruction through Georgia and the Carolinas during the Civil War. As commander of the Division of the Missouri from 1865 to 1869 and General of the Army of the United States under President Grant from 1869 to 1883 Sherman facilitated expansion and settlement in the West while suppressing the raids of the Cheyenne, Arapahoe, Kiowa, Comanche and Crow Indians.
