**Carole King's Tapestry** Loren Glass, 2021-03-11 Carole King's Tapestry is both an anthemic embodiment of second wave feminism and an apotheosis of the Laurel Canyon singer songwriter sound and scene And these two elements of the album's historic significance are closely related insofar as the professional autonomy of the singer songwriter is an expression of the freedom and independence women of King's generation sought as the turbulent sixties came to a close Aligning King's own development from girl to woman with the larger shift in the music industry from teen oriented singles by girl groups to albums by adult oriented singer songwriters this volume situates Tapestry both within King's original vision as the third in a trilogy preceded by *Now That Everything's Been Said* and *Writer* and as a watershed in musical and cultural history challenging the male dominance of the music and entertainment industries and laying the groundwork for female dominated genres such as women's music and Riot Grrrl punk *Sinatra! The Song Is You* Will Friedwald, Tony Bennett, 2018-05-01 Frank Sinatra was the greatest entertainer of his age invigorating American popular song with innovative phrasing and a mastery of drama and emotion Drawing upon interviews with hundreds of his collaborators as well as with The Voice himself this book chronicles critiques and celebrates his five decade career Will Friedwald examines and evaluates all the classic and less familiar songs with the same astute witty perceptions that earned him acclaim for his other books about jazz and pop singing Now completely revised and updated and including an authoritative discography and rare photos of recording sessions and performances *Sinatra The Song Is You* is an invaluable resource for enthusiasts and an unparalleled guide through Sinatra's vast musical legacy Frank Leslie's Illustrated Newspaper, 1906 Frank Leslie's Illustrated Newspaper John Albert Sleicher, 1899 **New York Herald Tribune Book Review**, 1958 *The Musical, Second Edition* Kurt Gänzl, Jamie Findlay, 2022-01-01 The Musical Second Edition introduces students and general readers to the entire scope of the history of musical theater from eighteenth century ballad operas to nineteenth century operettas to the Golden Age of Broadway to today In this comprehensive history master theater historian Kurt Gänzl draws on his vast knowledge of the productions the actors the music and dance and the reception of the central repertory of the musical theater Focus boxes on key shows are included in every chapter along with a chronology of the major musical productions described in the text Production photographs from around the world enhance the descriptions of the costumes and staging This book is an ideal introduction for college level courses on the History of Musical Theater and will also appeal to the general theatergoer who wants to learn more about how today's musical developed from its earliest roots **Dynamics, Polarity and Quantification** Makoto Kanazawa, Christopher J. Piñón, 1994 The topics of the papers in this collection run the gamut from empirical coverage of polarity item systems in a variety of languages to results in metatheoretical reasoning about quantifier reducibility A recurrent theme throughout is the improvement or replacement of notions of quantificational scope in linguistic analysis by formally sophisticated analyses of the properties of quantifiers and their dynamic

interpretations The authors have written to admirable standards of formalisation and clarity of exposition and their results deserve thoughtful consideration and incorporation into linguistic semantics The Piano Quarterly ,1958 Casting the Art of Rhetoric with Theater and Drama Adrienne E. Hacker Daniels,2025-06-12 Casting the Art of Rhetoric with Theater and Drama Taking Center Stage explores rhetoric and theater as they relate to one another developing the understanding of rhetoric as theory and praxis This book addresses rhetorical themes and cultural resonances as well as the oft overlooked symbiosis of rhetoric and theater Rather than addressing audiences as either observers of rhetorical artifacts or theatrical performance this work demonstrates the intersection of the two which strengthens theatrical events and their cultural significance Overall the volume showcases the many ways in which an understanding of the relationship between rhetorical and poetic theories can benefit dramatic convention and the breaking thereof **The Cambridge Guide to Theatre** Martin Banham,1995-09-21 Provides information on the history and present practice of theater in the world *Round in Circles* Barry Kester,2024-10-15 Round In Circles The Story of Rodgers Hammerstein s Carousel is intended not only for those who share the author s love of the Golden Age Broadway musicals but also for students of the genre who want to learn about the trials and tribulations encountered in producing a musical at that time when Rodgers and Hammerstein were transforming such shows into the unique American art form we continue to enjoy today The book covers the history of Carousel from its beginning as Liliom a 1909 play by Hungarian author Ferenc Molnar to its latest 2021 London revival At first Rodgers and Hammerstein dismissed the idea of turning Liliom into a musical How they were persuaded to change their minds and the struggles the duo experienced in adapting the dark fantastical play is a key part of the story told by author Barry Kester But the book also shines the spotlight onto Rodgers and Hammerstein themselves looking at their lives their working methods and their relationship which was not always as harmonious as one might have thought Although Carousel was created by Rodgers and Hammerstein it would not have happened without the help of some extraordinary people both backstage and onstage and the book pays due tribute to them all Many of Carousel s songs have become well loved standards none more so than You ll Never Walk Alone and not just because of its association with football A chapter is devoted to this remarkable anthem Carousel s story did not end with its 1945 Broadway opening After an initial London run and a nationwide tour in the States there was a film version The author relates the many problems that were encountered on that production The book examines what many would agree to be the finest production of Carousel to date staged at the National Theatre in 1992 directed by Nicholas Hytner and concludes with a look at some of the more recent revivals and the show s place in the musical theatre canon today Barry Kester lives in Pinner and has loved musical theatre all his life After retirement in 2010 he set out to write a detailed history of his favourite musical Round in Circles The Story of Rodgers Hammerstein s Carousel is his first book *Music in American Life* Jacqueline Edmondson,2013-10-03 A fascinating exploration of the relationship between American culture and music as defined by musicians scholars and critics from around the world Music has been the

**Time and Space in the Internet Age** Stephen Kern, 2024-08-01. This book analyzes how new technologies transformed life and thought between two periods: 1880-1920 and 1980-2020, with a focus on temporal experiences of past, present, future, and the spatial experiences of form, distance, and direction. The signature contrast is between experiences of time and space transformed by the telephone in the earlier period and the Internet in the later period, along with other sharp contrasts: the sinking of the *Lusitania* in 1915 and the attack on the World Trade Center on 9/11; World War I and the Gulf Wars; gravity bombs and smart bombs; the pandemics of 1918 and 2020; assembly lines and flexible production; Farmer's Almanacs and computer-based weather predictions; cash transactions and one-click ordering; decolonization and globalization; internationalism and planetarity. The book also makes three interpretive arguments: the Epistemological Argument covers how greater knowledge introduced uncertainties; the

Ethical Argument tracks how new technologies prompted ethical judgments about their value and the Re hierarchizing Argument tracks the erosion of spatial hierarchies most notably in religion society and politics with the increasing progress of secularization social mobility and democratization Time and Space in the Internet Age is a thought provoking study for academics and general readers interested in the history of technology and science *Hi Fi/stereo Review* ,1961 **Notes** Music Library Association,1951 **The Richard Rodgers Reader** Geoffrey Block,2006 Richard Rodgers was one of America s most prolific and best loved composers A world without My Funny Valentine The Lady is a Tramp Blue Moon and Bewitched to name just a few of the songs he wrote with Lorenz Hart is scarcely imaginable and the musicals he wrote with his second collaborator Oscar Hammerstein Oklahoma Carousel South Pacific The King and I and The Sound of Music continue to enchant and entertain audiences Arranged in four sections Rodgers and Hart 1929 1943 Rodgers and Hammerstein 1943 1960 Rodgers After Hammerstein 1960 1979 and The Composer Speaks 1939 1971 The Richard Rodgers Reader offers a cornucopia of informative perceptive and stylish biographical and critical overviews It also contains a selection of Rodgers s letters to his wife Dorothy in the 1920s the 1938 Time magazine cover story and New Yorker profiles in 1938 and 1961 and essays and reviews by such noted critics as Brooks Atkinson Eric Bentley Leonard Bernstein Lehman Engel Walter Kerr Ken Mandelbaum Ethan Mordden George Jean Nathan and Alec Wilder The volume features personal accounts by Richard Adler Agnes de Mille Joshua Logan Mary Martin and Diahann Carroll The collection concludes with complete selections from more than thirty years of Rodgers s own writings on topics ranging from the creative process the state of the Broadway theater even Rodgers s bout with cancer and a generous sample from the candid and previously unpublished Columbia University interviews For anyone wishing to explore more fully the life and work of a composer whose songs and musicals have assumed a permanent and prominent place in American popular culture The Richard Rodgers Reader will offer endless delights *The Sound of Music FAQ* Barry Monush,2015-02-01 The Sound of Music FAQ is a comprehensive encyclopedia like reference to the world s most popular movie musical Rather than focusing on the often told stories of this classic movie this book looks at the 1965 Oscar winner in relation to its source including the true von Trapp family story and the Broadway musical from which it was derived The Sound of Music FAQ explores such facts and trivia as the movie s phenomenal original run in cinemas during which it dominated the box office for a staggering amount of time and became the highest grossing movie of the 1960s and of all time its long and varied life on home video and primetime television the bestselling soundtrack and many other related recordings information behind the stunning Austrian locations the critical feedback the many stage revivals and the continuing references homages reunions and tributes related to it over the many decades since its release *The Letters of Oscar Hammerstein II* Oscar Hammerstein (II),Mark Eden Horowitz,2022 Oscar Hammerstein II is arguably the greatest innovator in the history of American musical theater This rich collection of his letters not only sheds light on the Golden Age of Broadway theater and its major figures but also reveals a
