Rogues Covenant:

Rogues' Covenant Sylvia Thorpe, 1957 **Leading Rogue State** Judith R. Blau, David L. Brunsma, Alberto Moncada, Catherine Zimmer, 2015-12-03 Most Americans would be surprised to learn that their government has declined to join most other nations in UN treaties addressing inadequate housing poverty children's rights health care racial discrimination and migrant workers Yet this book documents how the U S has for decades declined to ratify widely accepted treaties on these and many other basic human rights Providing the first comprehensive topical survey the contributors build a case and specific agendas for the nation to change course and join the world community as a protector of human rights

Rogue States Noam Chomsky, 2015-08-03 The bestselling author and activist has delivered another impressive argument that the U S flouts international law when it finds it convenient to do so Publishers Weekly In this still timely classic Noam Chomsky argues that the real rogue states are the United States and its allies Chomsky turns his penetrating gaze toward US involvement in the Middle East Southeast Asia the Caribbean and Latin America to trace the enduring combined effects of military domination and economic imperialism on these regions Noam Chomsky is like a medic attempting to cure a national epidemic of selective amnesia Rogue States is a timely guide to the tactics that the powerful employ to keep power concentrated and people compliant Chomsky's work is crucial at a time when our empire perpetually disguises its pursuit of power under the banners of aid humanitarian intervention and globalization Americans have to begin deciphering the rhetoric Chomsky's a good place to start The Village Voice World famous MIT linguist Chomsky has long kept up a second career as a cogent voice of the hard left excoriating American imperialism critiquing blinkered journalists and attacking global economic injustice Publishers Weekly Nothing escapes Chomsky's attention Rogue States is wonderfully lucid PeaceWork Praise for Noam Chomsky Chomsky is a global phenomenon perhaps the most widely read voice on foreign policy on the planet The New York Times Book Review The conscience of the American people New Statesman One of the radical heroes of our age a towering intellect powerful always provocative The Guardian The English Rogue Richard Head, 1671

Introducing Covenant Theology Michael Horton, 2009-04 Unwinds the intricacies of covenant theology making the complex surprisingly simple and accessible to every reader **Rogue Clerics** Anson Shupe, 2017-09-08 During the past several years the mass media in the United States has been awash with reports of priestly pedophilia ecclesiastical cover up and clerical intimidation or financial settlements intended to silence victims Based on journalistic accounts or scholarly research it might be assumed that this is a recent phenomenon Journalist reports began only within the past few years Similarly most sociologists of religion and particularly specialists in deviance and criminology did not reflect awareness of clerical misbehavior in their work Despite this Anson Shupe shows that clergy deviance whether it is sexual or otherwise is not merely a recent problem It is as old as the church itself and is inevitably bound to recur due to the nature of religious groups This comprehensive analysis offers the first up to date analysis of sexual economic and authoritative clergy

malfeasance across faiths and denominational authority structures Drawing on examples taken from antiquity up until the present day and using reports by historians theologians church spokespersons therapists social scientists and journalists Shupe critically evaluates clergy deviant behavior dividing it into various types He also makes use of the therapeutic literature addressing victimization at the level of the individual church and community at large In this way he compares the response of the clergy to victims attempts to mobilize movements calling for church reform Perhaps most controversial this book considers the possible relationship of homosexuality in the clergy to the occurrences of scandals in all religious traditions across the board As an overview of clergy misconduct this book is singular There is simply no other comprehensive serious examination of this subject Written by a sociologist for a wide range of readers its multi disciplinary nature vivid examples and wealth of research will make the volume of interest to sociologists of religion and crime historians and theologians as well as a general public *Hudibras ... of his New Light church in Ohio was spontaneous physical movement and exhortations After Shaker missionaries arrived McNemar converted and soon played a prominent role in expanding and raising public awareness of their religion by founding Shaker communities in the Midwest becoming the first Shaker published author and the most prolific composer of Shaker hymns Split between two opposing religious traditions an evangelical movement attracting tens of thousands and Shakerism which drew only hundreds to its villages Richard McNemar s life poses a challenge for any biographer Christian Goodwillie s mastery of the archival records surrounding McNemar and the Shakers allows him to tell McNemar s story in a way that fully captures the complexity of the man and the scope of his enduring legacy in American religious history
