**Zero Tolerance** Andrea Mcardle, Tanya Erzen, 2001-03-01 Amadou Diallo Abner Louima Anthony Baez Patrick Dorismond  
New York City has been rocked in recent years by the fate of these four men at the hands of the police But police brutality in New York City is a multi dimensional phenomenon that refers not only to the hyperviolent response of white male police officers as in these cases but to an entire set of practices that target homeless people vendors and sexual minorities The complexity of the problem requires a commensurate response which Zero Tolerance fulfills with a range of scholarship and activism Offering perspectives from law and society women s studies urban and cultural studies labor history and the visual arts the essays assembled here complement and provide a counterpoint to the work of police scholars on this subject Framed as both a response and a challenge to official claims that intensified law enforcement has produced New York City s declining crime rates Zero Tolerance instead posits a definition of police brutality more encompassing than the use of excessive physical force Further it develops the connections between the most visible and familiar forms of police brutality that have sparked a new era of grassroots community activism and the day to day violence that accompanies the city s campaign to police the quality of life Contributors include Heather Barr Paul G Chevigny Derrick Bell Tanya Erzen Dayo F Gore Amy S Green Paul Hoffman Andrew Hsiao Tamara Jones Joo Hyun Kang Andrea McArdle Bradley McCallum Andrew Ross Eric Tang Jacqueline Tarry Sasha Torres and Jennifer R Wynn      **Deadly Force, Colonialism, and the Rule of Law** Joan

Mars, 2002-08-30 In post colonial countries such as Guyana the legacy of colonialism and its influence on policing and society is of crucial significance in developing an explanation for police violence and police caused homicide Mars applies a contextual approach grounded in the conflict theoretical perspective to explain and understand variations in police violence over time and she extends her study to include the social political and legal structure in which such actions are embedded Her findings support the notion that police violence is a function of decades of coercive state rule under British colonialism as well as the state s legitimization of violence in police work In this first study on police violence and homicide in Guyana Mars presents and analyzes data covering a 14 year period She also provides comparative and descriptive information on the use of excessive and deadly force by the police and in addition discusses laws relating to such incidents Mars finds little support for the community violence hypothesis in reference to Guyana and concludes instead that the level of violence in the community and the everyday dangers of police work does not significantly influence the rates of police caused homicide in that country      **Crime and Society in England, 1750-1900** Clive Emsley, 2018-01-12 Ranging from the middle of the eighteenth through to the end of the nineteenth century Crime and Society in England 1750 1900 explores the developments in policing the courts and the penal system as England became increasingly industrialised and urbanised Through a consideration of the difficulty of defining crime the book presents criminal behaviour as being intrinsically tied to historical

context and uses this theory as the basis for its examination of crime within English society during this period In this fifth edition Professor Emsley explores the most recent research including the increased focus on ethnicity gender and cultural representations of crime allowing students to gain a broader view of modern English society Divided thematically the book's coverage includes the varying perceptions of crime across different social groups crime in the workplace the concepts of a criminal class and professional criminals the developments in the courts the police and the prosecution of criminals Thoroughly updated to address key questions surrounding crime and society in this period and fully equipped with illustrations tables and charts to further highlight important aspects Crime and Society in England 1750-1900 is the ideal introduction for students of modern crime

Crime and Society in England Clive Emsley, 2013-09-13 Acknowledged as one of the best introductions to the history of crime in the eighteenth and nineteenth centuries Crime and Society in England 1750-1900 examines the developments in policing the courts and the penal system as England became increasingly industrialised and urbanised The book challenges the old but still influential idea that crime can be attributed to the behaviour of a criminal class and that changes in the criminal justice system were principally the work of far sighted humanitarian reformers In this fourth edition of his now classic account Professor Emsley draws on new research that has shifted the focus from class to gender from property crime to violent crime and towards media constructions of offenders while still maintaining a balance with influential early work in the area Wide

ranging and accessible the new edition examines the value of criminal statistics the effect that contemporary ideas about class and gender had on perceptions of criminality changes in the patterns of crime developments in policing and the spread of summary punishment the increasing formality of the courts the growth of the prison as the principal form of punishment and debates about the decline in corporal and capital punishments Thoroughly updated throughout the fourth edition also includes for the first time illuminating contemporary illustrations *Catalog of Copyright Entries. **Hitler's Children** Gerhard Rempel, 2015-07-15 Eighty two percent of German boys and girls between the ages of ten and eighteen belonged to Hitlerjugend Hitler Youth or one of its affiliates by the time membership became fully compulsory in 1939 These adolescents were recognized by the SS an exclusive cadre of Nazi zealots as a source of future recruits to its own elite ranks which were made up largely of men under the age of thirty In this book Gerhard Rempel examines the special relationship that developed between these two most youthful and dynamic branches of the National Socialist movement and concludes that the coalition gave nazism much of its passionate energy and contributed greatly to its initial political and military success Rempel center his analysis of the HJ SS relationship on two branches of the Hitler Youth The first of these the Patrol Service was established as a juvenile police

force to pursue ideological and social deviants political opponents and non conformists within the HJ and among German youth at large Under SS influence however membership in the organization became a preliminary apprenticeship for boys who would go on to be agents and soldiers in such SS controlled units as the Gestapo and Death s Head Formations The second the Land Service was created by HJ to encourage a return to farm living But this battle to reverse the flight from the land took on military significance as the SS sought to use the Land Service to create defense peasants who would provide a reliable food supply while defending the Fatherland The transformation of the Patrol and Land services like that of the HJ generally served SS ends at the same time that it secured for the Nazi regime the practical and ideological support of Germany s youth By fostering in the Hitler Youth as national community of the young the SS believed it could convert the popular movement of nazism into a protomilitary program to produce ideologically pure and committed soldiers and leaders who would keep the movement young and vital
