## **Role Of The G8 In International Peace And Security:**

**The Role of the G8 in International Peace and Security** Risto Penttilä, 2013 This Adelphi Paper is the first concise yet comprehensive analysis of the role of the G8 in international peace and security. It argues that the G7+8 has a long and impressive history in the field of international security. The G7+8 has for example spearheaded the introduction of low politics and soft security to the top table of great power diplomacy and integrated Japan and later Russia into the realm of Western security discussions. In questions of war and peace the G8 does not command the legitimacy of the UN Security Council but for the international community is a more acceptable vehicle than unilateral action. As such the G8 can be seen as a not worthy second best option after the UN Security Council. This Paper further argues that China should be admitted into the G8 first as an observer and later as a member. There is also a strong argument for the European Union to have one seat at the G8 even if such a change does not seem realistic today. The G8 bears great resemblance to the 19th century Concert of Europe. Whether it will assume a similar role in the 21st century depends in the final analysis on whether the United States welcomes such a role for the G8.

**The Role of the G8 in International Peace and Security** Risto E. J. Penttilä, 2003 This is the first concise yet comprehensive analysis of the role of the G8 in international peace and security, arguing that the G8 is well placed to play an increasingly important role. The book features a section on the policy of each G8 nation and chapters on China and the EU, meaning that it will interest foreign policy experts in all ten areas. *China, Japan and Regional Leadership in East Asia* Christopher M. Dent, 2010-01-01 *China, Japan and Regional Leadership in East Asia* is a compilation which provides a necessary and welcome update to the Asian regionalism debates of the last decade, bringing together notable experts in Asian area studies and comparative foreign policy to provide many new insights, essential reading both for practitioners of Asian studies and those concerned with the role of comparative regionalism in modern international relations. Marc Lanteigne *East Asia: An International Quarterly* this book is strongly recommended reading for everyone interested in Japan, China, relations, leadership and East Asia. It proves that looking at complex issues from a variety of angles does bring a much deeper understanding. I thoroughly enjoyed it. Marie S. Derberg *Journal of Japanese Studies* This book addresses one of the most intriguing but also under researched issues of the future of the Asian strategic landscape: who will lead the region and replace US leadership? Japan and China and what kind of leadership do we have to expect? The authors come to the conclusion that it is a matrix or combination of leadership options rather than a single leadership type, depending on issue domains, governance structure and geospatial scales. The conclusions by Christopher Dent admirably draw the theoretical and empirical issues together. Reinhard Drifte *Pacific Affairs* This book considers themes, evidence and ideas relating to the prospects for regional leadership in East Asia, with particular reference to China and Japan, assuming regional leader/actor roles. Key issues discussed by the list of distinguished contributors include the extent to which there is an East Asian region to lead, China-Japan relations, different aspects of Japan and China's positions in the East Asia region, how the seemingly

inexorable rise of China is being addressed within the region how China and Japan have explored paths of regional leadership through certain regional and multilateral organisations and frameworks the position of certain intermediary powers i e the United States and Korea with regards to regional leadership diplomacy in East Asia Invaluably the concluding chapter brings together the main findings of the book and presents new analytical approaches for studying the nature of and prospects for leadership in East Asia China Japan and Regional Leadership in East Asia will be essential reading for upper level undergraduate and postgraduate students and researchers of international relations regional studies international political economy and economics as well as Asian and development studies      **Global Security Watch—China** Richard

Wallace,2015-04-17 This book seeks to understand the obligation of the international community to implement the principles of the Responsibility to Protect R2P With a focus on the humanitarian crisis in Syria the volume examines what formal responsibility and actual capability international institutions have to protect and prevent civilians from systematic mass atrocities and presents an analysis of several prominent international organizations IOs Each chapter focuses on a specific organization and explores their formal responsibilities and how these pertain to the obligations of the R2P Existing capabilities and actual abilities to address the challenges of R2P are analysed by looking at these issues before during and after the occurrence of the humanitarian crisis in Syria With the UN not fully engaged in the Syrian conflict the systematic

human rights abuses have engendered greater attention on other organizations This volume argues that if the UN Security Council's inactions result in an abdication of responsibilities under the UN Charter there should not only be a discussion of how the UN must alter its approach but also an examination of whether there are alternative R2P paths for other MNOs to take in the name of international peace and human security This book will be of much interest to students of R2P

**The role of the FCO in UK government** Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2011-05-12 The Foreign Affairs Committee believes the Foreign and Commonwealth Office FCO will not be back at the centre of Government and able to lead UK foreign policy in line with the Foreign Secretary's ambitions unless it can provide deep foreign policy expertise and judgement to underpin and implement Government decision making The FCO must have the resources and skills required to fulfil this role especially specialist geographical expertise and knowledge of foreign languages The FCO has a vital role to play for the Government namely the timely provision of world class foreign policy information analysis judgement and execution Finances people and buildings must be well managed but managerial requirements must not divert time and focus disproportionately from the FCO's core foreign policy functions Given the resource constraints facing the FCO however there is doubt whether the department can achieve the Government's ambitions for enhanced commercial work while maintaining its core foreign policy functions at the required standard The committee regards the FCO's network of overseas posts as integral to the department's ability to discharge its functions and recommends that the FCO should seek to maintain a global UK presence The committee also called confusing the fact that under the current Government the FCO has three sets of priorities the Foreign Secretary's the Cabinet Office's Business Plan for the department and the 2010 Strategic Defence and Security Review *Justice, Home Affairs and Security.
