Roles And Responsibilities In The Primary School Changing Demands Changing Practices:

Roles and Responsibilities in the Primary School Rosemary Webb, Graham Vulliamy, 1996 Based on qualitative research in 50 schools throughout England and Wales this book portrays teachers work as it is experienced in the post ERA context of multiple innovations It examines the impact of the National Curriculum and assessment on classroom practice and curriculum organization

Changing Teaching And Learning In The Primary School Webb, Rosemary, 2006-09-01 Assessing the effects of New Labour s education policies on primary schools this book discusses the impact of policies on primary school practices as well as looking at the views and experiences of primary school teachers and pupils

Cross-Curricular Primary Practice Dr Rosemary Webb, Rosemary Webb, 2002-11-01 This text discusses the theory and practice of several important areas of cross curricular work in primary schools It uses the National Curriculum Council s categories of themes skills and dimensions to examine what is involved in such practice and to consider its current status in schools and future possibilities Providing practical suggestions for more well established areas such as environmental studies it also examines topical but under represented themes skills and dimensions such as media education pupil self assessment and discipline The authors argue that cross curricular practice both contributes to National Curriculum requirements and gives these requirements overall coherence Cross curricular practice also enables children to develop the knowledge skills and concepts that are of value in coping with and enjoying the complexities of the 21st century Suggestions are provided on how to provide leadership and stimulate staff interest in these areas by reviewing existing policies teaching and resources

Policy and Practice in Primary Education Robin Alexander, 2012-11-12 Detailed accounts of two influential initiatives of the 1990s whose educational and political lessons remain highly relevant systemic and pedagogic reform in one of Britain s largest cities and the controversial three wise men government enquiry into primary teaching to which it led Alexander s controversial and widely read report on primary education in Leeds has now been revised as a major study of policy initiatives in primary education and their impact on practice The book examines an ambitious programme of local reform aimed at improving teaching and learning in the primary schools of one of Britain s largest cities It addresses important questions about children s needs the curriculum classroom practice and school management When first published Robin Alexander s report was hailed as seminal and the most important document since Plowden but it was also quoted and misquoted in support of widely opposed political and media agendas This new edition retains Part I from the first edition detailing the impact of Leeds LEA s programme for educational reform However it also provides a totally new and greatly extended Part II which gives an insider s account of the sequel to the Leeds report the government s 1992 three wise men report There is also a new introduction

Roles and Responsibilities in the Primary School Rosemary Webb, Graham Vulliamy, 1996 Based on qualitative research in 50 schools throughout England and Wales this book portrays teachers work as it is experienced in the post ERA context of multiple innovations It examines the impact of the National Curriculum and

assessment on classroom practice and curriculum organization Policy and Practice in Primary Education Robin J. Alexander, 1997 This second edition provides an insider's account of the Three Wise Men episode Researching Primary Education: Methods and Issues Rosemary Webb, 2013-09-13 This book increases understanding of and provides inspiration for the conduct of research in primary elementary education It discusses and evaluates the selection and development of research methods used for their own innovative projects They explore the relationship between their choice of research methods the frameworks for analysis used and research findings In so doing they address the topical and controversial issues posed by these methods and alternative data gathering techniques These include the case for the use of random controlled trials to inform policy making and improve classroom practice the role of mixed methods to investigate the social aspects of inclusion children as researchers researching their peers the relationship between research and teacher development an analysis of the portrayal of teachers and education in the regional and national news the contribution of qualitative research in cross national projects In research on teaching and learning in primary schools accessing the views and experiences of children is crucial Consequently the possibilities and limitations of data collection techniques for collecting the views of children are central and concerns about validity and ethics posed by the power relationships between researchers and research participants are examined This book was based on a special issue of Educational 3 13 International Journal of Primary Elementary and Early Years Education **Emerging Thought and Research on Student, Teacher, and Administrator Stress and Coping** Gordon S. Gates, Mimi Wolverton, Walter H. Gmelch, 2007-07-01 This collection of chapters presents research focused on emerging strategies paradigms and theories on the sources experiences and consequences of stress coping and prevention pertaining to students teachers and administrators Studies analyze data collected through action research program evaluation surveys qualitative interviewing auto ethnography and mixed methods gathered from students and educators in the United States Italy Holland Turkey and Australia **Reinventing Schools, Reforming Teaching** John Bangs, John Macbeath, Maurice Galton, 2010-09-15 This book considers the impact of educational policies on those who have to translate political priorities into the day to day work of schools and classrooms Researching the Art of Teaching Peter Woods, 2013-09-27 This book is a follow up to Inside Schools It reviews the position of ethnography in educational research in the light of current issues and of the author's own research over the past ten years Starting from an analysis of teaching as science and as art Peter Woods goes on to review the general interactionist framework in which his own work is situated and how this relates to postmodernist trends in qualitative research The approach is illustrated through reference to the author's own personal history and research career and his recent research on creative teaching critical events and his teachers reactions to school inspections How to represent such research is a central feature and includes a consideration of the tools used in that task and how they relate to the ethnographer's self whatever forms of representation are selected however the audience's own concerns will guide them in their interpretation of the work Prominent themes

include the person of the ethnographer in research the art of teaching and new ways of representing it while not forgetting the science of teaching and of research research for educational use and the uses of educational research collaborative work between researchers and teachers The issues covered include such matters as research purposes research design research careers access data collection data analysis truth criteria the relationship between theory and research methods writing up and dissemination

Improving Children's Learning Joan Dean,2003-09-02 How can teachers improve what they do in the primary classroom Which teaching methods will help you and your pupils to perform effectively These are the questions that every teacher will be asking him or herself in today s climate of targets and tables Much research over recent years has focused on the role of the teacher and how effective classroom practice is achieved The book discusses many areas of topical importance including teaching methods motivating learners and matching work to children how to structure children s learning classroom control and organisation teaching literacy teaching children with special education needs working with parents It also looks at the increasing role of the teacher as a researcher and how collaborative practices are providing a way for teachers to appraise both their own progress and that of their colleagues This book should be of particular interest to the classroom teacher who is looking for ways to develop his or her teaching but has limited time to explore the research It sets out to translate the findings of research into practical terms which teachers can easily use

Primary Mathematics and the Developing Professional Alison Millett,Margaret Brown,Mike Askew,2007-07-11 Abstract This introduction sets the scene for the remainder of the book by considering first the international context of widespread concern about the improvement of numeracy skills This is related to reform movements in the United Kingdom the United States and other countries aimed at modernising primary elementary school mathematics curricula A detailed account is given of the National Numeracy Strategy in England a systemic government imposed response to concern about standards implemented in 1999 2000 This includes a discussion of the alternative meanings of numeracy An earlier initiative sponsored by a United Kingdom charitable trust reacting to concern about primary numeracy was the Leverhulme Numeracy Research Programme This large scale longitudinal study and linked set of case study projects focusing on reasons for low attainment took place during 1997 2002 This book and each other in the same series is based on results of that research The timescale fortuitously enabled the research team to also report on some effects of the systemic reform in the National Numeracy Strategy

1 THE INTERNATIONAL CONTEXT In many countries there are recurring periods of national concern about the low standards of calculation skills shown by children in primary elementary schools Recently these concerns have become more urgent and more political with the publication of

international comparisons of mathematical achievement first at secondary and more recently at primary level e.g Lapointe Mead Mullis et al 1997 *The Cambridge Primary Review Research Surveys* Robin Alexander,Christine Doddington,John Gray,Linda Hargreaves,Ruth Kershner,2012-08-06 The Cambridge Primary Review Research Surveys is the outcome of the Cambridge Primary Review England's biggest enquiry into primary education for over forty years Fully independent of government it was launched in 2006 to investigate the condition and future of primary education at a time of change and uncertainty and after two decades of almost uninterrupted reform Ranging over ten broad themes and drawing on a vast array of evidence the Review published thirty one interim reports including twenty eight surveys of published research provoking media headlines and public debate before presenting its final report and recommendations This book brings together the twenty eight research surveys specially commissioned from sixty five leading academics in the areas under scrutiny and now revised and updated to create what is probably the most comprehensive overview and evaluation of research in primary education yet published A particular feature is the prominence given to international and comparative perspectives With an introduction from Robin Alexander the Review's director the book is divided into eight sections covering children's lives and voices school home and community children's development learning diversity and needs aims values and contexts for primary education the structure and content of primary education outcomes standards and assessment in primary education teaching in primary schools structures and processes teaching in primary schools training development and workforce reform policy frameworks governance funding reform and quality assurance The Cambridge Primary Review Research Surveys is an essential reference tool for professionals researchers students and policy makers working in the fields of early years primary and secondary education **Changing Schools, Changing Practices** Dr. Manfred Lang (Dipl.-Psychologe),1999 **Managing People in Education** Tony Bush,David Middlewood,1997-02-28 Aims to enhance management practice in education by presenting research findings and theory from a wide range of contributors Skills and Enterprise Update This is indeed a book which could be useful to a much larger readership than the normal closed circle of those working in education Managing Schools Today The book presents relevant research and theory in order to enhance management practice in education The editors intention is to articulate good practice on the basis of evidence in educational settings The ideas presented here are derived from international research and practice and apply to all phases of education with the emphasis on applying research findings to improve practice in schools and colleges *Radical Reforms* Christopher Chapman,Helen Gunter,2008-12-09 Focusing on education as a major area of public policy this book explores a decade of rapid and intensive modernization and draws out the lessons for those concerned with developing education systems across the globe *What Teachers Do* Andrew Pollard,Patricia Broadfoot,Elizabeth McNess,Marilyn Osborn,Pat Triggs,2001-01-01 A comprehensive analysis of the work of teachers as it impinges on children colleagues other professionals managers parents the community and educational policy In the process it relates theoretical perspectives to 15 detailed case

studies Key Concepts for Understanding Curriculum Colin Marsh, 2009-05-07 Now fully updated this revised and enlarged fourth edition provides not only a solid grounding in curriculum matters but also covers the latest trends and issues affecting the field Researching School Experience Martyn Hammersley, 1999 This book brings together material from wide range of studies mainly qualitative in character concerned with exploring what actually goes on in learning situations and explores the perspectives of teachers and students
