**Translation and Localization Project Management** Keiran J. Dunne,Elena S. Dunne,2011 Over the past three decades translation has evolved from a profession practiced largely by individuals to a cottage industry model and finally to a formally recognized industrial sector that is project based heavily outsourced and that encompasses a wide range of services in addition to translation As projects have grown in size scope and complexity and as project teams have become increasingly distributed across geographies time zones languages and cultures formalized project management has emerged as both a business requirement and a critical success factor for language service providers In recognition of these developments this volume examines the application of project management concepts tools and techniques to translation and localization projects The contributors are seasoned practitioners and scholars who offer insights into the central role of project management in the language industry today and discuss best practice approaches to the adaptation of generic project management knowledge skills tools and techniques for translation and localization projects

**Production Phase-Out** Regina Wagner,2017-08-03 Product development and ramp up is a well researched challenge for industry However how to end the production of a product is a blind spot for industry and science although practitioners are calling for scientific support This book sheds light on the topic of production phase out by offering measures that can turn a process that is perceived as uninspiring to a success pillar for companies The book reveals cross industry insights on the relatively new topic of phase out The interview findings are mirrored with the Phase Out Process Model which describes activities and tasks to be performed during a phase out As an instrument to support the implementation of the process model the Phase Out Production Planning and Control was developed as an add on to standard production IT support It enables companies to better forecast spare parts needs and expected remaining stock costs at the proposed end of production Through a qualitative and a conceptual research phase the findings of this dissertation show that there is a high potential of improving phase out in the industry This manuscript provides theoretical and managerial implications to pave the way towards enhancing phase outs This potential can be raised by implementing the proposed formalization structures and mathematical models based on empirical and conceptual research This book therefore helps to promote the effective implementation of a formalized phase out in company s management practice to make their business more efficient

*Information Systems* Tsiakis, Theodosios, 2015-10-21 Information technology has helped to facilitate the development of various marketing techniques thus enabling a more efficient distribution of the data that are essential to business success. These advances have equipped managers with superior tools to interpret available consumer and product data and use this information as part of their strategic planning. Trends and Innovations in Marketing Information Systems features the latest prevailing technological functions and procedures necessary to promote new developments in promotional tools and methods. Bringing together extensive discussions on the role of digital tools in customer relationship management, social media, and market performance, this book is an essential reference source for business professionals, managers, and researchers interested in the use of current technology to improve marketing practice.

*International Marketing* Daniel W. Baack, Eric G. Harris, Donald Baack, 2012-02-09 International Marketing presents an innovative integrated approach to the course in which marketing concepts are explored in depth within the international context. Daniel W. Baack, Eric Harris, and Donald Baack identify five key factors that impact any international marketing venture: culture, language, political/legal systems, economic systems, and technological/operational differences, and discuss them in relation to the core marketing concepts of markets, products, pricing, distribution, place, and promotion. Uniquely, the book provides discussions of sustainability and bottom of the pyramid concepts within each chapter and is richly illustrated with examples from both multinational companies as well as smaller local concerns. Setting the path for the future direction of this course, the authors provide instructors and students with the first truly international marketing textbook.

Handbook of Marketing Decision Models Berend Wierenga, 2008-09-05 Marketing models is a core component of the marketing discipline. The recent developments in marketing models have been incredibly fast with information technology, e.g., the Internet, online marketing, e-commerce, and customer relationship management (CRM) creating radical changes in the way companies interact with their customers. This has created completely new breeds of marketing models, but major progress has also taken place in existing types of marketing models. Handbook of Marketing Decision Models presents the state of the art in marketing decision models. The book deals with new modeling areas such as customer relationship management, customer value, and online marketing, as well as recent developments in other advertising, sales, promotions, sales management, and competition. New developments in consumer decision models, models for return on marketing, marketing management support systems, and in special techniques such as time series and neural nets.
