DNA of the Gods Chris H. Hardy, 2014-03-21 An in depth study of humanity s Anunnaki origins and the Anunnaki battle for an intelligent versus enslaved humanity Explains the genetic engineering of humanity by an Anunnaki scientist Ninmah

Shows how the concepts of sin and the inferiority of women arose from Enlil's will to keep humanity underdeveloped clashing with Enki's and Ninmah's plan to make us equal in intelligence Reveals how humanity's long history of conflict was shaped by the battle between Enki and his brother Enlil Further developing the revolutionary work of Zecharia Sitchin Chris Hardy shows that the gods of ancient myth visitors from the planet Nibiru created us using their own divine DNA first through DNA extraction from their own ribs marrow and later by direct relations with early human females Drawing upon multiple sacred texts Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah with the help of Enki and Hermes She reveals how Ninmah's first female human creation Tiamat Eve contained more alien DNA than the earlier male one Adamu and how the biblical Noah represents the perfection of her work Examining the war between Anunnaki brothers Enki and Enlil Hardy reveals how the concepts of sin and the inferiority of women were born out of Enlil's attempts to enslave and then wipe out humanity repeatedly thwarted by Enki and Ninmah The author further explains how the sacred sexuality taught to humans still seen in Tantric practice became suppressed millennia later by the patriarchal concept of original sin and how innocent Eve took the blame for the expulsion from Eden and fall from Grace Showing that the god who created us was not the same god who expelled us from Eden Hardy explains that there will be no apocalypse because the Good Evil duality has never truly existed it has been only enemy gods fighting and implicating humanity in the wake of their own competition for power With a full psychological understanding of how the ancient gods have shaped humanity's ongoing history of conflict we can move beyond the framework of my Good versus your Evil imposed by Enlil and begin to steer our own planetary destiny

The Flaming Sword, 1924 *Rhythm* Lexi Eikelboom, 2018-08-17 *Rhythm* A Theological Category argues that as a pervasive dimension of human existence with theological implications rhythm ought to be considered a category of theological significance Philosophers and theologians have drawn on the category of rhythm patterned movements of repetition and variation to describe reality however the ways in which rhythm is used and understood differ based on a variety of metaphysical commitments with varying theological implications Lexi Eikelboom brings those implications into the open through using resources from phenomenology prosody and the social sciences to analyse and evaluate uses of rhythm in metaphysical and theological accounts of reality The analysis relies on a distinction from prosody between a synchronic approach to rhythm which observes the whole at once and considers how various dimensions of a rhythm hold together harmoniously and a diachronic approach which focuses on the ways in which time unfolds as the subject experiences it Based on an engagement with the twentieth century Jesuit theologian Erich Przywara alongside thinkers as diverse as Augustine and the contemporary philosopher Giorgio Agamben Eikelboom proposes an approach to rhythm that serves the concerns of theological conversation It then demonstrates the difference that including rhythm in such theological conversation makes to how we think about questions such as what is creation and what is the nature of the God creature relationship from the perspective of rhythm As a theoretical category capable of expressing metaphysical commitments yet shaped by the cultural rhythms in which those expressing such commitments are embedded rhythm is particularly significant for theology as a phenomenon through which culture and embodied experience influence doctrine

The God Effect is Real Sujith Ittan, 2025-07-14 Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to

question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem
