Mid Century American Poets:

Mid-century American Poets John Ciardi, 1952 **The Unheeded Voices** Hugh Don Thames, 1965 **Midcentury Suspension** Claire Seiler, 2020-08-11 How did literary artists confront the middle of a century already defined by two global wars and newly faced with a nuclear future Midcentury Suspension argues that a sense of suspension a feeling of being between beginnings and endings recent horrors and opaque horizons shaped transatlantic literary forms and cultural expression in this singular moment Rooted in extensive archival research in literary print and public cultures of the Anglophone North Atlantic Claire Seiler's account of midcentury suspension ranges across key works of the late 1940s and early 1950s by authors such as W H Auden Samuel Beckett Elizabeth Bishop Elizabeth Bowen Ralph Ellison and Frank O'Hara Seiler reveals how these writers cultivated modes of suspension that spoke to the felt texture of life at midcentury Running counter to the tendency to frame midcentury literature in the terms of modernism or of our contemporary Midcentury Suspension reorients twentieth century literary study around the epoch's fraught middle **The Cambridge Companion to American Poets** Mark Richardson, 2015-10-15 This Companion brings together essays on some fifty four American poets from Anne Bradstreet to contemporary performance poetry This book also examines such movements in American poetry as modernism the Harlem or New Negro Renaissance confessional poetry the Black Mountain School the New York School the Beats and L A N G U A G E poetry **Interviews and Conversations with 20th-century Authors Writing in English** Stan A. Vrana, 1982 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com The New American Poetry John R. Woznicki, 2013-12-24 The New American Poetry Fifty Years Later is a collection of critical essays on Donald Allen's 1960 seminal anthology The New American Poetry an anthology that Marjorie Perloff once called the fountainhead of radical American poetics The New American Poetry is referred to in every literary history of post World War II American poetry Allen's anthology has reached its fiftieth anniversary providing a unique time for reflection and reevaluation of this preeminent collection As we know Allen's anthology was groundbreaking it was the first to distribute widely the poetry and theoretical positions of poets such as Charles Olson Allen Ginsberg and the Beats and it was the first to categorize these poets by the schools Black Mountain New York School San Francisco Renaissance and the Beats by which they are known today Over the course of fifty years this categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume

however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years

Robert Lowell's Imitations and the Cold War Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's *Imitations and the Cold War* argues that Lowell's imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused solely on *Imitations* 1961 Lowell's book length collection of translational adaptations by demonstrating how imitation shadows Lowell's work from his earliest collections *Land of Unlikeness* 1944 and *Lord Weary's Castle* 1946 through his celebrated mid career collections *Life Studies* 1959 and *For the Union Dead* 1964 and to later works such as *Near the Ocean* 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle's anthology *Poets on Street Corners* 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell's compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell's restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment's dualities porosities leakages and contaminants are most clearly displayed Lowell's imitations simultaneously challenge and develop our understanding of confession's presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood

The Columbia Granger's Guide to Poetry Anthologies William A. Katz, Linda Sternberg Katz, Esther Crain, 1994 Reference guide to poetry anthologies with descriptions and evaluations of each anthology

Obsessive Images Joseph Warren Beach, 1960 *Obsessive Images* was first published in 1960 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions As Mark Schorer comments this is the last unfinished work of a distinguished well loved critic poet and professor After the death of Joseph Warren Beach his colleague and friend William Van O Connor professor of English at the University of Minnesota prepared the unfinished manuscript of this work for publication and wrote the foreword The work is primarily a study of certain words phrases and images that turn up with unusual frequency in modern American poetry especially that of the decades of the 1930's and 1940's and which are used in unusual senses to carry special symbolisms or to imply peculiar philosophical attitudes Since the

study is concerned with such recurring images and themes many poets of distinction in whose work they are not to be found are left out but Professor Beach also discusses the significance of the absence of these poets Students and critics will gain insight through this work into the characteristic attitudes of a generation of poets The book is moreover a delight to read reflecting as it does Mr Beach s own love for the study of poetry As Professor O Connor points out the tone is much more personal than that of Mr Beach s other books

Experiencing Creativity Robert N. Wilson,2021-12-16 First published in 1986 neither the creative process nor the art object singly or together has been often in the forefront of sociological attention The

author suggests that we may safely assume that art is multidetermined and that an adequate explanation of creativity will draw upon the conceptual and evidential resources of psychology sociology and anthropology This is a study building on Harry Murray s classic *Explorations in Personality* of the 1930s **X-Ray Vision** Richard B. Gunderman,2013-02-14 X ray Vision weaves together some of the most fascinating images and accounts in science and medicine It is the first book to combine stories from the history of medical imaging the remarkable ways in which it illuminates our lives and the world in which we live and the lives of real patients whose medical care it has enriched Cold War Poetry Edward Brunner,2001 Mainstream American poetry of the 1950s has long been dismissed as deliberately indifferent to its cultural circumstances In this penetrating study Edward Brunner breaks the placid surface of the hollow decade to reveal a poetry sharply responsive to issues of its time Cold War Poetry considers the fifties poem as part of a dual cultural project as proof of the competency of the newly professionalized poet and as a user friendly way of initiating a newly educated upwardly mobile postwar audience into high culture Brunner revisits Richard Wilbur Randall Jarrell and other acknowledged leaders of the period as well as neglected writers such as Rosalie Moore V R Lang Katherine Hoskins Melvin B Tolson and Hyam Plutzik He also examines the one sided authority of the male dominated book review process the ostracizing of female and minority poets poetic fads such as the ubiquitous sestina and the power of the classroom anthology to establish criteria for reading Attributing the gradual change in poetic style during the 1950s to the slow collapse of the authority of the state Brunner shows how a secretive anxious poetics developed in the shadow of a disabled government He recontextualizes the much maligned domestic verse of the 1950s reading its shift toward the private sphere and the recurrent image of the child as a reflection of the powerlessness of the post nuclear citizen Through a close examination of poetry written about the Bomb he delineates how poets registered their growing sense of cosmic disorder in coded language resorting to subterfuge to continue their critique in the face of sanctions levied against those who questioned government policies Brilliantly decoding the politics embedded in the poetry of an ostensibly apolitical time Cold War Poetry provides a powerful rereading of a pivotal decade
