Maxwell,2013-11-11 The Brave New World of Sex We ve seen in less than a generation a swift revolution in human sexual behavior attitude and consequences so dramatic that some people are left in a state of stunned dismay and the public at large in aimless confusion Much of the trend if you can call a revolu tion a trend is fueled by or at least made possible by technological innovations dating back to the middle of the twentieth century The birth control pill opened the gate to promiscuity with little fear of pregnancy marriage became an annoyance divorce be came an opportunity two working parents became a necessity and teenage sex became nearly as socially acceptable as holding hands or going to the movies The copulation explosion resulted in a spiraling epidemic of children giving birth to children many of them on welfare Girls seeking relief through abortions were sometimes forced to have their unwanted offspring despite the inevitability of some of them living in poverty and a desperate dead end environment of squalor and crime Some misguidedly wanted babies and ended up the same way To top it all discipline 2 *A Sexual Odyssey* became a lost art leaving schools and neighborhoods infested with gun toting knife wielding teenage delinquents even in middle class areas who engaged in contests fo see who could get the most girls knocked up The chaotic state of fornication mating and birthing may be a throwback to the past

Free and Natural Sarah Schrank,2019-06-14 From Naked Juice to nude yoga contemporary society is steeped in language that draws a connection from nudity to nature wellness and liberation This branding promotes a free and natural lifestyle to mostly white and middle class Americans intent on protecting their own bodies and those of society at large from overwork environmental toxins illness conformity to body standards and the hyper sexualization of the consumer economy How did the naked body come to be associated with naturalness and how has this notion influenced American culture Free and Natural explores the cultural history of nudity and its impact on ideas about the body and the environment from the early twentieth century to the present Sarah Schrank traces the history of nudity especially public nudity across the unusual eras and locations where it thrived including the California desert Depression era collectives and 1950s suburban nudist communities as well as the more predictable beaches and resorts She also highlights the many tensions it produced For example the blurry line between wholesome nudity and sexuality became impossible to sustain when confronted by the cultural challenges of the sexual revolution Many longtime free and natural lifestyle enthusiasts fatigued by decades of legal battles retreated to private homes and resorts while the politics of gay rights sexual liberation environmentalism and racial equality of the 1970s inspired a new generation of radical advocates of public nudity By the dawn of the twenty first century Schrank demonstrates a free and natural lifestyle that started with antimaterialist back to the land rural retreats had evolved into a billion dollar wellness marketplace where Naked sells endless products promising natural health sexual fulfilment organic food and hip authenticity Free and Natural provides an in depth account of how our bodies have become tethered so

closely to modern ideas about nature and identity and yet have been consistently subjected to the excesses of capitalism
