Behr,Dale G. Jungst,2014-05-10 Fundamentals of Elementary Mathematics provides an understanding of the fundamental aspects of elementary mathematics This book presents the relevance of the mathematical concepts which are also demonstrated in numerous exercises Organized into 10 chapters this book begins with an overview of the study of logic to understand the nature of mathematics This text then discusses mathematics as a system of structure or as a collection of substructures Other chapters consider the four essential components in a mathematical or logical system or structure namely undefined terms defined terms postulates and theorems This book discusses as well several principles used in numeration systems and provides examples of some numeration systems that are in use to illustrate these principles The final chapter deals with the classification of certain mathematical systems as groups fields or rings to demonstrate some abstract mathematics This book

is a valuable resource for students and teachers in elementary mathematics      **All Things Being Equal** John Mighton, 2021-01-05 NATIONAL BESTSELLER From the award winning founder of JUMP Math All Things Being Equal is a proven guide to succeeding in math and a passionate argument for why this success can and must be available to the majority instead of the privileged few For two decades John Mighton has developed strategies for fostering intellectual potential in all children through learning math Math Mighton says provides us with mental tools of incredible power When we learn math we learn to see patterns to think logically and systematically to draw analogies to perceive risk to understand cause and effect among many other critical skills Yet we tolerate and in fact expect a vast performance gap in math among students and live in a world where many adults aren't equipped with these crucial tools This learning gap is unnecessary dangerous and tragic he cautions and it has led us to a problem of intellectual poverty which is apparent everywhere in fake news political turmoil floundering economies even in erroneous medical diagnoses In All Things Being Equal Mighton argues that math study is an ideal starting point to break down social inequality and empower individuals to build a smarter kinder more equitable world Bringing together the latest cognitive research and incremental learning strategies Mighton goes deep into the classroom and beyond to offer a hopeful and urgent vision for a numerate society      **Basic Electronics: No distinctive title**, 1979      Ballistic Research Laboratories Report Ordnance Corps (Army), 1961      **Finite Precision Number Systems and Arithmetic** Peter Kornerup, David W.
