Petrie, 2020-12-28 From 1985 to 2001 the collaborative research initiative known as the Bannu Archaeological Project conducted archaeological explorations and excavations in the Bannu region in what was then the North West Frontier Province NWFP of Pakistan now Khyber Pakhtunkhwa This Project involves scholars from the Pakistan Heritage Society the British Museum the Institute of Archaeology UCL Bryn Mawr College and the University of Cambridge This is the third in a series of volumes that present the final reports of the exploration and excavations carried out by the Bannu Archaeological

Project This volume presents the first synthesis of the archaeology of the historic periods in the Bannu region spanning the period when the first large scale empires expanded to the borders of South Asia up until the arrival of Islam in the subcontinent at the end of the first and beginning of the second millennium BC The Bannu region provides specific insight into early imperialism in South Asia as throughout this protracted period it was able to maintain a distinctive regional identity in the face of recurring phases of imperial expansion and integration **Means of Exchange** Dagfinn

Skre,2008-12-31 This second volume based on the excavations of the Viking town Kaupang 2000 2003 presents find types used in economic transactions coins hacksilver ingots weights and balances Changes in type and volume of economic transactions at Kaupang and in Scandinavia are discussed and the economic mentality of Viking crafts and tradesmen is explored Earlier the study of Viking silver currency was based mainly on hoards containing coins and hacksilver In this volume the combined study of the find types mentioned as well as the sophisticated chronology of settlements finds from sites like Kaupang gives a completely new insight into economy and exchange In the early 9th century silver and goods seem to have come to Kaupang mainly from the Carolingian world Silver weighed with locally produced lead weights was used as currency on a limited scale The old e unit was easily convertible to Carolingian units After the mid 9th century this early system was altered The increased availability of silver caused by the import of Islamic coins as well as the introduction in most of Scandinavia in the 860s 870s of standardized weights of probable Islamic origin paved the way from then on for an increasing use of silver as payment These studies demonstrate that sites like Kaupang led the way in economic development in Scandinavia The urban environment promoted an economic mentality which contributed significantly to the fundamental transformation of Scandinavian culture and society which culminated in the region s integration in Christian Europe in the High Middle Ages **All the King's Horses** Paula K. Lazrus,Alex Barker,2012-06-27 This volume from the SAA Press

examines the impact of looting and the use of artifacts of unknown provenance in the humanities and social sciences ranging from the impact of amnesty laws for reporting stolen cultural property to the use of Google Earth to assess the scale of illicit excavations and from the impact of poorly sourced artifacts on early Mycenaean and Minoan studies to the structure of the growing commercial trade in ancient coins **After Alexander** John Tidmarsh,2024-05-01 After Alexander The Hellenistic and Early Roman Periods at Pella in Jordan details the excavation of Hellenistic and Early Roman period horizons carried out at Pella in Jordan by the University of Sydney since 1979 It deals with both the stratigraphy of the Hellenistic and Early Roman levels at Pella and catalogues the pottery recovered from them Short summaries of relevant work by the College of Wooster are also included After a brief introduction to the site and history of excavations a detailed description of the Hellenistic and Early Roman levels on the main mound of Khirbet Fahl on nearby Tell Husn and in select hinterland locations then follows The heart of the study centres on a detailed catalogue of the corpus of some 900 individual Hellenistic Early Roman pottery fragments accompanied by outline drawings for each fragment and a smaller number of images of the more

important pieces Discussion of the relevance and importance of the material remains to the history and archaeology of the Hellenistic and Early Roman periods at Pella and more broadly to Jordan and the southern Levant concludes the study

Index of Conference Proceedings British Library. Document Supply Centre, 1997 *Archaeology and Religion in Early Northwest India* Daniel Michon, 2015-08-12 This book explores the ways in which past cultures have been used to shape colonial and postcolonial cultural identities It provides a theoretical framework to understand these processes and offers illustrative case studies in which the agency of ancient peoples rather than the desires of antiquarians and archaeologists is brought to the fore *Bibliotheca Celtica*, 1970 **The Molyvoti, Thrace, Archaeological Project 1** Nathan T.

Arrington, Thomas F. Tartaron, Marina Tasaklaki, Domna Terzopoulou, 2024-08-15 This publication is the first of four volumes that will present the final results of the 2013-2015 seasons of MTAP a Greek American synergasia project This first volume presents the history and finds from the archaeological site often referred to as Ancient Stryme which ancient sources identified as an emporion trading post and polis settled by Thasians The volume provides a new chronology for the site including its 4th century BCE reoccupation after destruction possibly associated with Philip of Macedon and traces diachronic change through the Early Byzantine period A significant discovery is a complete Classical house at the site one of the few from Aegean Thrace which features informative architecture and domestic assemblages Intensive urban survey clarifies the city's 4th century walls and harbors and expands our understanding of the scale and function of coastal settlements In the surrounding chora the area's first geomorphological study evaluates landscape use and the changing

coastline Contributions from over 20 authors discuss the excavation survey geomorphology and finds from MTAP shedding new light on Greek Thracian interaction settlement trade and the environment from prehistory through the Early Byzantine period in an understudied region of the Aegean *Roman and Medieval Exeter and their Hinterlands* Stephen Rippon, Neil Holbrook, 2021-03-23 This first volume presenting research carried out through the Exeter A Place in Time project provides a synthesis of the development of Exeter within its local regional national and international hinterlands Exeter began life in c AD 55 as one of the most important legionary bases within early Roman Britain and for two brief periods in the early and late 60s AD Exeter was a critical centre of Roman power within the new province When the legion moved to Wales the fortress was converted into the civitas capital for the Dumnonii Its development as a town was however relatively slow reflecting the gradual pace at which the region as a whole adapted to being part of the Roman world The only evidence we have for occupation within Exeter between the 5th and 8th centuries is for a church in what was later to become the Cathedral Close In the late 9th century however Exeter became a defended burh and this was followed by the revival of urban life Exeter s wealth was in part derived from its central role in the south west s tin industry and by the late 10th century Exeter was the fifth most productive mint in England Exeter s importance continued to grow as it became an episcopal and royal centre and excavations within Exeter have revealed important material culture assemblages that reflect its role as an international port
