African American Children and Missionary Nuns and Priests in Mississippi Ethel E.

Young, Jerome Wilson, 2010 This book is about the unique educational experience of an African American segregated Catholic school in Mississippi from 1910-1975. The school was founded and administered by nuns and priests from religious orders founded in Germany. This account focuses on the period between the 1940s to the 1960s which included a description and historical perspective of how despite the American apartheid system in operation in Mississippi at that time one Catholic school with committed teachers and dedicated parents was successful in educating African American children. The story recounted here is not about the despair of growing up in Mississippi but about how a quality educational experience yields great outcomes when the goals of parents, teachers, and the educational programs are intertwined. The significance of this book can be found in the power of integrating sound teaching, high expectations, and strong parental support. Lessons learned from this educational experience have implications for the effective education of today's African American children as well as a model of success for broader and more heterogeneous student populations. **Nuns and Priests** Marian O'Mara, 2002-09

Habits of Sin Ashley Hill, 2000-08-29 In recent years, revelations of childhood sexual abuse by Catholic priests have broken out from behind a well-guarded wall of secrecy. Despite the publicity of hundreds of such cases, one area of healing and investigation remains that of women religious who also are guilty of sexually abusing children and each other. As one pastoral psychotherapist with whom I have had contact put it, this is the next area in which sexual abuse accounting will take place. Indeed, accounts of women in general who sexually abuse children are nearly nonexistent, and research on the topic of nuns and sisters who abuse children presently has not been available. As a published journalist of some twenty-five years, a survivor of such abuse, and the founder of the country's only national support network of survivors of sexual abuse by nuns and sisters, I am in the unique position to write *Habits of Sin: An Expos of Nuns Who Sexually Abuse Children and Each Other*. Although my original intention was to investigate the topic of child sexual abuse by nuns, I learned during my investigative work and research of nearly six years that serious incidents of sexual abuse between nuns, often for power or educational favors, is also common and plays well into the topic of nuns who are sexually abusive in general. Therefore, I expanded my original concept. I have worked with individuals and organizations, all of whom contacted my network from twenty-three states and Ireland, and it was their contributions and interest that made this book possible. While the books *Lead Us Not Into Temptation* and *A Gospel of Shame* concern the issue of priests who molest children, this expos is the first comprehensive volume about nuns and, to some degree, women, and therefore serves as an important and new research tool. This work is filled with information, historical perspectives, and personal accounts to help guide readers who are survivors of such abuse to a place of peace. For those reading this simply out of a desire to learn more about this difficult topic, I believe new insight will be shed. *Predatory Priests, Silenced Victims* Mary Gail Frawley-O'Dea, Virginia Goldner, 2016-05-06 The sexual abuse scandal in the Catholic Church captured headlines and mobilized public outrage in January 2002. But much of the commentary that immediately followed was reductionistic, focusing on single causes of clerical abuse such as mandatory

Cerulo,2008-09-15 People especially Americans are by and large optimists They re much better at imagining best case scenarios I could win the lottery than worst case scenarios A hurricane could destroy my neighborhood This is true not just of their approach to imagining the future but of their memories as well people are better able to describe the best moments of their lives than they are the worst Though there are psychological reasons for this phenomenon Karen A Cerulo in Never Saw It Coming considers instead the role of society in fostering this attitude What kinds of communities develop this pattern of thought which do not and what does that say about human ability to evaluate possible outcomes of decisions and events Cerulo takes readers to diverse realms of experience including intimate family relationships key transitions in our lives the places we work and play and the boardrooms of organizations and bureaucracies Using interviews surveys artistic and fictional accounts media reports historical data and official records she illuminates one of the most common yet least studied of human traits a blatant disregard for worst case scenarios Never Saw It Coming therefore will be crucial to anyone who wants to understand human attempts to picture or plan the future In Never Saw It Coming Karen Cerulo argues that in American society there is a

positive symmetry a tendency to focus on and exaggerate the best the winner the most optimistic outcome and outlook Thus the conceptions of the worst are underdeveloped and elided Naturally as she masterfully outlines there are dramatic consequences to this characterological inability to imagine and prepare for the worst as the failure to heed memos leading up to both the 9 11 and NASA Challenger disasters for instance so painfully reminded us Robin Wagner Pacifici Swarthmore College Katrina 9 11 and the War in Iraq all demonstrate the costliness of failing to anticipate worst case scenarios Never Saw It Coming explains why it is so hard to do so adaptive behavior hard wired into human cognition is complemented and reinforced by cultural practices which are in turn institutionalized in the rules and structures of formal organizations But Karen Cerulo doesn't just diagnose the problem she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well Never Saw It Coming is a powerful contribution to the emerging fields of cognitive and moral sociology Paul DiMaggio Princeton University
