

Nurse Patient Communication

Lisa Kennedy Sheldon

Nurse Patient Communication:

Nurse-patient Communication Garland K. Lewis, 1969 Communication for Nurses: Talking with Patients Lisa Kennedy Sheldon, 2008-12-17 Communication for Nurses offers direct effective techniques that are delivered in a concise user friendly format that enables readers to develop a professional communication style Topics include nursing communication and developmental theories issues of cultural diversity and patient rights concepts and interviewing techniques are presented for starting and developing the nurse patient relationship communicating with specific groups including patients of different ages patients with physical impairments and patients in crisis The Second Edition has been completely revised and updated with new enhanced sections on emotional work in nursing working with unmotivated patients and communicating with colleagues In addition Web sites have been included throughout to provide additional learning resources *Patient-Provider Communications: Caring to Listen* Valerie A. Hart, 2009-09-25 Patient Provider Communications Caring to Listen offers specific patient communication for advanced practice nurses Role plays for different clinical situations with varying patient populations provide a bridge for implementing communication strategies in the clinical setting Each chapter gives a brief synopsis of current communication theories that relate to the topic and which drive communication strategies with patients Communication and Journaling exercises are included at the end of each chapter Accompanied by PowerPoint Slides 2010 320 pages Improving Nurse-patient Communication Using the Teach-back Method Sheila R. Smallwood, 2018 Effective nursing communication considers health literacy the person's ability to understand and make health decisions based on the information given Health professionals often overestimate the health literacy of patients thereby affecting patient outcomes In a hospital environment patients rate the ability of the nurse to explain things in a way patients understand by completing the Hospital Consumer Assessment of Healthcare Providers and Systems HCAHPS after discharge The HCAHPS results are converted to a score which is used in a formula to determine hospital reimbursement the lower the score the lower the reimbursement The purpose of this project was to improve nurse communication skills and facilitate patient understanding of care A literature review revealed the teach back method as a best practice strategy Teach back is a communication technique designed to improve patient understanding about what was said by healthcare providers Teach back is a way of presenting information then asking patients to repeat what was said in their own words An education module designed to improve nurse communication skills was implemented on a 14 bed hospitalist medical unit for the registered nurse staff N 13 The education included content on health literacy and the teach back method of communication Nursing staff was surveyed before 61 5% response rate and six weeks following 50% response rate the educational offering using the Health Professionals Communication Skills Scale HP CSS an 18 item tool measuring empathy informative communication respect and social skills In addition patient responses to the HCAHPS question the nurse explained things in a way you could understand were compared before and after the educational offering

Overall the post survey responses were lower than the pre survey responses in each domain indicating a decreased perception of communication by the nursing staff The aggregate mean score for informative communication decreased from 5.01 to 4.83 p 0.37 and social skills decreased from 3.85 to 3.75 p 0.87 on the post survey with significant aggregate mean score decreases for respect 5.46 to 4.76 p

Nurse-patient Communication Robert C. Hanson, Lyle Saunders, 1967

Communication for Nurses: Talking with Patients Lisa Kennedy Sheldon, Janice Foust, 2013-08-09 Communication for Nurses Talking with Patients Third Edition is a comprehensive text that prepares Nursing students for a career in healthcare This must have text is suitable for students and professionals alike as it providing the reader with the tools necessary to develop a professional communication style Important Notice The digital edition of this book is missing some of the images or content found in the physical edition

Communication Skills in Nursing Practice Lucy Webb, 2019-11-25

Written specifically for student nurses developing their communication and interpersonal skills in any field of nursing The book addresses all the competencies for communication skills outlined in the 2018 NMC standards and features insightful contributions from experienced nurses and healthcare leaders across different clinical fields As communication and interpersonal skills have become essential to modern nursing this book will focus on demonstrating how the theory behind these skills can be successfully applied in practice Helping students to become confident assured communicators when interacting with patients whilst on placement and into their post registration nursing career The new edition includes the following updates A new chapter on person centred care and intercultural communication Further content on modern forms of communication such as social media and other new technologies A new theme Emotional intelligence integrated throughout the book

Exploring Therapeutic Nurse-patient Communication Pierina Rossini, 2021 Effective nurse patient communication also described as therapeutic communication is essential for providing high quality nursing care It increases patient satisfaction and health decreases patient anxiety and disease symptoms and increases patient cooperation and compliance to treatment Some therapeutic communication techniques include attentive listening empathy silence focusing open ended questions clarification exploring clarifying and summarizing Unfortunately there are barriers to therapeutic communication that have been identified Research regarding nurse patient therapeutic communication consisting of secondary qualitative descriptive data points to several barriers to therapeutic communication Some of the barriers to therapeutic communication include nurse patient gender difference patient physical discomfort nurse patient language culture and religion differences and a nurse s workload which includes both the number of tasks the nurse must complete during a shift and the number of patients the nurse has been assigned to care for during the shift Through analysis of the findings nurse workload can be identified as one of the more pressing barriers to therapeutic communication as it affects the nurse s time and energy during the shift and may decrease the effort to improve communication For this reason a proposed solution in response to the barriers to therapeutic communication is to improve nurse workload

Communication for Nurses Mr. Rohit Manglik,2024-07-30 Enhances verbal non verbal and written communication skills tailored to nursing professionals focusing on patient interaction team coordination and therapeutic conversations

Communication for Nurses: Talking with Patients Lisa Kennedy Sheldon,2009-10-07 Communication for Nurses offers valuable techniques delivered in a concise user friendly format that encourages reader s development of a personal professional communication style Topics include effective communication in difficult situations the nurse patient relationship working with different patient groups and families and communicating with other healthcare providers Book Jacket

Nurse-Client Communication: A Life Span Approach Deborah Antai-Otong,2006-05-04 Communication for Nurses Pamela McHugh Schuster,2010-02-24 This exceptional book for nurses and nursing students guides the development of the comprehensive professional communication skills to prevent errors that result in patient injuries and death With a patient safety focus thorough coverage of communication and extensive interactive ancillaries it demonstrates how communication is tied to desired clinical outcomes **Nurse-Patient Communication** Ann L. Jessop,1979-10

Nurse-patient Communication Martha C. Nelson,2017 Effective communication between nurses and patients constitutes a challenge for nurses In particular the establishment of common ground during their interactions with patients is essential to avoid misunderstanding and misinterpretations McCabe 2004 Common ground has been studied in other disciplines including psychology linguistics and medicine Koschman Stalnaker 2002 Lang McCord Harvill Van Nuland Van Den Noortgate Degryse Goedhuys 2007 There is limited information in the literature about the establishment of common ground in the nurse patient interaction Kristjanson Chalmers 1990 This small qualitative study explored how bedside nurses establish common ground with their patients Thirty bedside nurses were interviewed Their answers revealed that they view common grounds in terms of a personal relationship based on a process that occurs during their communication with patients They described this as a human connection *Communication for Nurses: Talking with Patients* Lisa Kennedy

Sheldon,2008-12-17 Nurse-patient Communication Cynthia Clare Pierpont Barrere,1999 **The Discourse of Nurse-Patient Interactions** Shelley Staples,2015-12-15 The Discourse of Nurse Patient Interactions Contrasting the communicative styles of U S and international nurses is the first book to quantitatively examine a wide range of linguistic features in a corpus of interactions between nurses and standardized patients The main goal of this book is to compare the discourse of U S L1 English speaking and international L2 English speaking nurses The research design relies on a mixed method approach including both quantitative and qualitative discourse analysis of lexico grammatical interactional prosodic fluency and non verbal features assessments of interactional effectiveness and qualitative interviews with nurses The book offers a detailed description of the situational characteristics of the interactions and compares the discourse of nurses and patients in order to contextualize differences in the communicative styles of the two nurse groups The results provide new insight into the way that sociocultural and linguistic aspects of nurse discourse contribute to the delivery of patient centered

care *Nurse-patient Communication* Ann L. Jessop, 19?? **Nurse-patient Communication** Robert C. Hanson, Marion Hotopp, Lyle Saunders, 1964 **Psychiatric Nursing** Mary Ann Boyd, 2008 The AJN Book of the Year award winning textbook *Psychiatric Nursing Contemporary Practice* is now in its thoroughly revised updated Fourth Edition Based on the biopsychosocial model of psychiatric nursing this text provides thorough coverage of mental health promotion assessment and interventions in adults families children adolescents and older adults Features include psychoeducation checklists therapeutic dialogues NCLEX notes vignettes of famous people with mental disorders and illustrations showing the interrelationship of the biologic psychologic and social domains of mental health and illness This edition reintroduces the important chapter on sleep disorders and includes a new chapter on forensic psychiatry A bound in CD ROM and companion Website offer numerous student and instructor resources including Clinical Simulations and questions about movies involving mental disorders
