1

Supply of Nurses

CNOs must work to show how fulfilling nursing careers can be, and foster creative partnerships with academic programs and institutions that can help produce more nurses.

2

Stabilization of Support Roles

As nursing becomes more and more taxing, it's crucial to have a support team around nurses.

3

Innovation

CNOs are responsible for correctly implementing new technologies, such as virtual care, wearables, and smart room technology, into their programs and strategies.

4

Frontline Nursing Leaders

Retention is difficult in nursing, and it's crucial that frontline nursing leaders be present long-term for their units to help promote teamwork and to maintain a strong workplace culture.

5

Burnout

CNOs should be open and talk about burnout, and validate that it is a real issue. Conduct wellbeing check-ins, provide support, and celebrate wins when they occur.
