Family-Centred Perinatal Care Beverley Chalmers, 2017-04-03 Since childbirth became a medicalized and usually hospitalized event a century ago women s and families psychosocial needs have been relegated to a somewhat peripheral role within the clinically focussed hierarchy of medical care This text reinstates psychosocial issues as a primary focus of care together with clinical excellence Family centred care is a familiar phrase in today s maternity services with professional guidelines and hospital policies including the term in their care protocols however few definitions and no specific standards for family centred care exist While all caregivers and care services are likely to define their care as sensitive to women s needs and family centred the actual implementation of a family centred approach despite it being a current fashion in care is still inadequate This book clearly defines family centred perinatal care and outlines how truly family centred care can and should be implemented and how and where this has been done **Catalog** National Medical Audiovisual Center, 1981
