Orientation To Counseling 4th:

Orientation to Counseling J. Vincent Peterson, Bernard Nisenholz, 1987 *A Counseling Primer* Mary H.

Guindon, 2011-01-19 *A Counseling Primer* presents an introduction to the counseling profession that provides students with a foundation for success. This engaging and accessible text covers the core CACREP Standard of Professional Orientation with a comprehensive overview of the field. It anticipates the questions of beginning students with a series of chapters that ask who counselors and clients are, what counseling is, when and where it is practiced, and why counselors choose the profession. Introduces students to the basics of essential attending and listening skills. Challenges readers with case vignettes and discussion questions. Encourages self-reflection and offers skills for observation of others. Supports student learning with extensive pedagogical features and resources. Enhances the reading experience with a robust online instructor's manual. This engaging textbook is full of useful features to enhance the learning experience. Each chapter includes points to ponder, case examples, an in-practice vignette with discussion questions, and a chapter summary. A self-reflection journaling exercise termed the TFAC Chart (Thoughts, Feelings, Actions, Context) reinforces the material from each chapter and facilitates student growth. *A Counseling Primer: An Introduction to the Profession* is accompanied by a rich array of supplementary materials that are made available to qualifying adopters and their students completely free of charge. Our online resources are hosted on the Moodle course management system. Instructor Resources include a sample course syllabus, chapter-by-chapter PowerPoint lecture slides, chapter-by-chapter Instructor Notes including chapter summary, learning objectives, and instructions for suggested in-class activities and assignments. An interactive test bank for each chapter including multiple choice, true or false, and essay question formats. The tests and notes are available for download by instructors in a variety of useful formats to suit your needs. Student Materials include TFAC Thoughts, Feelings, Actions, and Context Journaling forms for self-reflection, class handouts for assigned and optional review activities.

Doing Counseling Jude T. Austin, II, Julius A. Austin, 2023-02-03 This pragmatic book explains the how of integrating counselor training into practice by bridging the gap between educational knowledge, clinical skill, and counselor identity. Drs. Jude and Julius Austin combine their personal and professional experiences with contributions from other skilled clinicians to break down the counseling process and inspire counselor confidence in the ongoing quest to do counseling well. Following an introduction to basic counseling ethics and several types of sessions, each stage of counseling is explored, including pre-session preparation, meeting the client, building the therapeutic relationship, managing and trusting the process, developing a unique personal style, tracking therapeutic progress, ending therapy, and post-session tasks. The discussion then shifts to getting the most from supervision, competent multicultural, anti-racist counseling, and the dos and don'ts of distance counseling. A sole case study is presented throughout the book to illustrate therapeutic techniques, and key takeaways are summarized in an epilogue.
