The 'Postmodern Turn' in the Social Sciences Simon Susen,2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century **Resisting Postmodern Architecture** Stylianos Giamarellos,2022-01-10 Since its first appearance in 1981 critical regionalism has enjoyed a celebrated worldwide reception The 1990s increased its pertinence as an architectural theory that defends the cultural identity of a place resisting the homogenising onslaught of globalisation Today its main principles such as acknowledging the climate history materials culture and topography of a specific place are integrated in architects education across the globe But at the same time the richer cross cultural history of critical regionalism has been reduced to schematic juxtapositions of the global with the local Retrieving both the globalising branches and the overlooked cross cultural roots of critical regionalism Resisting Postmodern Architecture resituates critical regionalism within the wider framework of debates around postmodern architecture the diverse contexts from which it emerged and the cultural media complex that conditioned its reception In so doing it explores the intersection of three areas of growing historical and theoretical interest postmodernism critical regionalism and globalisation Based on more than 50 interviews and previously unpublished archival material from six countries the book transgresses existing barriers to integrate sources in other languages into anglophone architectural scholarship In so doing it shows how the periphery was not just a passive recipient but also an active generator of architectural theory and practice Stylianos Giamarellos challenges long held central notions of supposedly international discourses of the recent past and outlines critical regionalism as an unfinished project apposite for the 21st century on the fronts of architectural theory history and historiography

Postmodernism and Public Policy John B. Cobb Jr.,2012-02-01 One of America s preeminent systematic theologians John B Cobb Jr examines a range of social issues in his latest groundbreaking work Postmodernism and Public Policy Cobb uses a naturalistic postmodern perspective to make constructive proposals about a wide range of topics in the public eye Postmodernism and Public Policy shows how a postmodern Christianity can contribute positively to thinking about religious and cultural pluralism and how this can give direction to the educational enterprise It proposes ways of understanding sex gender and race that take diversity seriously without lapsing into a debilitating relativism that inhibits political action Arguing for a shift from individualism to thinking of persons in community it proposes that the world be organized from the bottom up in communities of communities and spells out what this implies for the political and economic orders and the relationship between them Cobb shows that formulations on all these topics can be coherently interconnected and he develops the implications of such thinking for some specific ethical and political issues that now trouble the United States

Technophobia causes us to reflect to stop and ask what for Why are we doing this and could there be negative consequences to our actions Technophobia is not anti technology if we are honest no one is really anti technology that would be a rejection of life itself But neither does technophobia give the green light to all things technical An altogether too common position these days is to accept technology as manna from heaven as if just the very use of it will inherently lead us in the right direction All use is good use Technophobia does not allow us such an easy conscience Modernity at the Beginning of the 21st Century Volker Schmidt,2008-12-11

Modernity is back on sociology s agenda From the beginnings of sociology as an academic discipline questions surrounding the meaning and consequences of modernity have fascinated generations of sociologists The initial interest in the concept was inspired by a sense of a deep rupture and crisis afflicting European society a sense that society was approaching something fundamentally different from the past an entirely new form of societal organization that bore little resemblance to anything known before Where exactly this transformation was headed was by no means clear but around the 18th century a growing number of European intellectuals and scholars realized that the changes that had been in the making since the late 15th century were irreversible and could not be contained in any particular region or confined to particular sectors of society but would ultimately transform all spheres of life Like other thinkers sociologists observed this transformation with awe and their attitude towards it has always been ambivalent The 20th century during which modernity gradually began to break through globally was also a century during which many sociologists became increasingly disillusioned with the promises of the modern project But with the exhaustion of the energies of postmodernism the intellectual movement that wanted to bury modernity the interest in modernity began to resurface again not least because it became increasingly clear that the world is far from approaching a societal condition pointing systematically beyond modernity Instead we are witnessing an intensification of modernization processes around the world But what is modernity anyway The aim of the present volume is to contribute to the ongoing discussion about the meaning of modernity and about the significance of modernization processes in non Western societies As befits a subject matter as controversial and complex at this one the book s chapters offer no conclusive answers to the questions they raise and address The debate about modernity must and will continue and one hopes that it will be conducted in an atmosphere of mutual respect despite sometimes fierce disagreement between the participants For only if we listen to each other can we make genuine intellectual progress *Contemporary Social Theory* Roger Salerno,2020-07-24

Contemporary Social Theory helps students explore describe and discuss how social theory relates to their own experiences popular culture and the world in which they live It advances the view that new theory can be effectively used to assess social and cultural phenomena The text identifies the important intellectual movements categories and paradigms that have occurred in the study of social theory It also looks at issues closely related to contemporary social theory such as the postmodern condition globalization postcolonialism

inequality gender race and human sexuality **Telling the Story** Andrew G. Walker,2004-12-03 There is a story once widely known that tells us who we are where we came from and where we are going This story is told by Christians and it is called the gospel the good news of the kingdom of God as revealed in the birth life death and resurrection of Jesus of Nazareth Today the story has become one story among many Andrew Walker argues for its recovery and a retelling appropriate for our postmodern culture so that it may again become a story to share and a message of hope for the world

New Media, Cultural Studies, and Critical Theory after Postmodernism R. Samuels,2009-12-07 This book argues that we have moved into a new cultural period automodernity which represents a social psychological and technological reaction to postmodernity In fact by showing how individual autonomy is now being generated through technological and cultural automation Samuels posits that we must rethink modernity and postmodernity **Sociology of Development** Mr. Rohit Manglik,2024-03-13 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels
