Race, Resistance, and the Boy Scout Movement in British Colonial Africa Timothy H. Parsons, 2004-11-01 Conceived by General Sir Robert Baden Powell as a way to reduce class tensions in Edwardian Britain scouting evolved into an international youth movement It offered a vision of romantic outdoor life as a cure for disruption caused by industrialization and urbanization Scouting's global spread was due to its success in attaching itself to institutions of authority As a result scouting has become embroiled in controversies in the civil rights struggle in the American South in nationalist resistance movements in India and in the contemporary American debate over gay rights In **Race Resistance, and the Boy Scout Movement in British Colonial Africa** Timothy Parsons uses scouting as an analytical tool to explore the tensions in colonial society Introduced by British officials to strengthen their rule the movement targeted the students juvenile delinquents and urban migrants who threatened the social stability of the regime Yet Africans themselves used scouting to claim the rights of full imperial citizenship They invoked the Fourth Scout Law which declared that a scout was a brother to every other scout to challenge racial discrimination Parsons shows that African scouting was both an instrument of colonial authority and a subversive challenge to the legitimacy of the British Empire His study of African scouting demonstrates the implications and far reaching consequences of colonial authority in all its guises

The Invention and Decline of Israeliness Baruch Kimmerling, 2001-12-11 This thought provoking book the first of its kind in the English language reexamines the fifty year old nation of Israel in terms of its origins as a haven for a persecuted people and its evolution into a multi cultural society Arguing that the mono cultural regime built during the 1950s is over Baruch Kimmerling suggests that the Israeli state has divided into seven major cultures These seven groups he contends have been challenging one other for control over resource distribution and the identity of the polity Kimmerling one of the most prominent social scientists and political analysts of Israel today relies on a large body of sociological work on the state civil society and ethnicity to present an overview of the construction and deconstruction of the secular Zionist national identity He shows how Israeliness is becoming a prefix for other identities as well as a legal and political concept of citizen rights granted by the state though not necessarily equally to different segments of society

cial position In this context a stable position is interpreted as having obtained a stable position within the labour market Across Europe it has also become commonly acknowledged that policies have to do something for young people as they represent the future of present societies In fact among politicians and policy administrators there is a broadly shared myth that it is enough doing anything for young people The thematic network Misleading Trajectories which is documented in the following chapters was concerned with examining these myths and highlighting the traps of social exclusion that are inherent in policies focusing on youth transitions school vocational training careers advice social security labour market programmes The network was funded by the European Commission under the 4th Framework Programme for Research Technology and Demonstration under the strand Targeted Socio Economic Research from 1998 to 2001 It involved teams from eight countries which were Denmark Germany Ireland Italy the Netherlands Portugal Spain and the United Kingdom The network began from the observation that many policies on the local regional national and European level that are intended to lead young adults towards gainful employment adult status and social integration are in fact misleading
