Origins Of The Czech National Renaissance:

Origins of the Czech National Renaissance Hugh LeCaine Agnew, 1994-06-15 With the fall of socialism in Europe the former East bloc nations experienced a rebirth of nationalism as they struggled to make the difficult transition to a market based economy and self governance The dissolution of Czechoslovakia in particular underscored the power of ethnic identity and ancestral loyalties Hugh Agnew develops the argument that Czechoslovakia s celebrated national revival of the mid eighteenth century has its intellectual roots in the Enlightenment and defined the nation s character and future development He describes how intellectuals in eighteenth century Bohemia and Moravia the patriotic intelligentsia used their discovery of pre seventeenth century history and literature to revive the antiquated Czech vernacular and cultivate a popular ethnic consciousness Agnew also traces the significance of the intellectual influences of the wider Slavic world whereby Czech intellectuals redefined their ethnic and cultural heritage *Origins of the Czech National Renaissance* contributes to a renewed interpretation of a crucial period in Czech history *A History of the Czech Lands* Jaroslav Pánek, Oldřich Tůma, 2018 Born January 1 1993 after it split with Slovakia the Czech Republic is one of the youngest members of the European Union Despite its youth as a nation this land and the areas just outside its modern borders boasts an ancient and intricate past With *A History of the Czech Lands* editors Jaroslav Pánek and Oldřich Tůma along with several scholars from the Academy of Sciences of the Czech Republic and Charles University provide one of the most complete historical accounts of this region to date Pánek and Tůma s history begins in the Neolithic era and follows the development of the state as it transformed into the Kingdom of Bohemia during the ninth century into Czechoslovakia after World War I and finally into the Czech Republic Such a tumultuous political past arises in part from a fascinating native people and *A History of the Czech Lands* profiles the Czechs in great detail delving into past and present traditions and explaining how generation after generation adapted to a perpetually changing government and economy In addition Pánek and Tůma examine the many minorities that now call these lands home Jews Slovaks Poles Germans Ukrainians and others and how each group s migration to the region has contributed to life in the Czech Republic today The first study in English with this scope and ambition *A History of the Czech Lands* is essential for scholars of Slavic Central and East European studies and a must read for those who trace their ancestry to these lands **Women as Essential Citizens in the Czech National Movement** Dáša Francíková, 2017-05-31

This study uses the Czech national movement in the Austrian Empire between the late 1820s and the late 1850s to examine the complex set of social physical physiological and moral requirements through which women became crucial social and political actors responsible for the existence of modern national communities Situated within the larger frameworks of public and private spheres contemporary Czech discussions of the positionality of women and an understanding of the categories of gender and woman as fluid concepts this book analyzes how Czech nationalists in relation to and in comparison with other nineteenth century nationalist movements proposed that women become the central agents of the process to guarantee the

continuity of the nation The Thirty Years' War and German Memory in the Nineteenth Century Kevin Cramer,2007-07-01 The nineteenth century witnessed the birth of German nationalism and the unification of Germany as a powerful nation state In this era the reading public's obsession with the most destructive and divisive war in its history the Thirty Years War resurrected old animosities and sparked a violent century long debate over the origins and aftermath of the war The core of this bitter argument was a clash between Protestant and Catholic historians over the cultural criteria determining authentic German identity and the territorial and political form of the future German nation This groundbreaking study of modern Germany's morbid fascination with the war explores the ideological uses of history writing commemoration and collective remembrance to show how the passionate argument over the meaning of the Thirty Years War shaped Germans conception of their nation The first book in the extensive literature on German history writing to examine how modern German historians reinterpreted a specific event to define national identity and legitimate political and ideological agendas The Thirty Years War and German Memory in the Nineteenth Century is a bold intellectual history of the confluence of history writing religion culture and politics in nineteenth century Germany **The Czechs and the Lands of the Bohemian Crown** Hugh Agnew,2013-09-01 In this chronicle of a fascinating people Hugh Agnew offers a single volume survey of Czech history providing an introduction to its major themes and contours Agnew presents a detailed chronology of the region from prehistory and the first Slavs to the Czech Republic's entrance into the European Union Taking into account both Western and Marxist insights as well as the input of the newest generation of Czech historians he furnishes a comprehensive fusion of three different aspects of Czech history a political diplomatic view a social economic view and a cultural intellectual view

Manufacturing a Past for the Present ,2014-11-06 In search of specific national traditions nineteenth century artists and scholars did not shy of manipulating texts and objects or even outright manufacturing them The essays edited by J nos M Bak Patrick J Geary and G bor Klaniczay explore the various artifacts from outright forgeries to fruits of poetic phantasy while also discussing the volatile notion of authenticity and the multiple claims for it in the age Contributors include Pavl na Rychterov P ter D vidh zi Pertti Anttonen L szl Sz r nyi J nos M Bak N ra Berend Benedek L ng Igor P Medvedev Dan D Y Shapira J nos Gy rgy Szil gyi Cristina La Rocca Giedr Mick nait Johan Hegardt and S ndor Radn ti *Battle for the Castle* Andrea Orzoff,2009-07-21 Battle for Castle examines the conscious creation and dissemination of Czechoslovakia's reputation as Eastern Europe's native democracy by its country's leaders **The Czechs and the Lands of the Bohemian Crown** Hugh LeCaine Agnew,2004 In this first up to date single volume history of the Czechs Agnew provides an introduction to the major themes and contours of Czech history for the general reader from prehistory and the first Slavs to the Czech Republic's entry into the European Union **Cultural Heritage of East Central Europe** Wojciech Roszkowski,2015-01-02 The concept of culture is a relatively modern invention It stems from the Latin term cultura meaning cultivation Cicero was the first to use this word in a non agricultural context In his Tusculanae Disputationes he reflected on the cultivation of the soul

cultura animi Later this term was rarely used in this sense but as of the 17th century more and more authors considered culture an intellectual and not an agricultural phenomenon Samuel Pufendorf 1632 1694 described culture as a vehicle overcoming natural barbarism He was followed by German philosophers of culture Johann Gottfried Herder 1744 1803 argued that human creativity was as important as human rationality and called attention to national cultures The works of German romantic philosophers were mainly focused on the specificity of the German culture a factor that was to unite divided German statehoods At the same time however Herder and his followers noticed other national cultures including first of all those of East and Central Europe It is therefore noteworthy that the early philosophical reflection on culture was closely connected with the specific traditions of East and Central Europeans **Elusive Equality** Melissa

Feinberg, 2006-04-30 When Czechoslovakia became independent in 1918 Czechs embraced democracy which they saw as particularly suited to their national interests Politicians enthusiastically supported a constitution that proclaimed all citizens women as well as men legally equal But they soon found themselves split over how to implement this pledge Some believed democracy required extensive egalitarian legislation Others contended that any commitment to equality had to bow before other social interests such as preserving the traditional family On the eve of World War II Czech leaders jettisoned the young republic for an authoritarian democracy that firmly placed their nation and not the individual citizen at the center of politics In 1948 they turned to a Communist led people's democracy which also devalued individual rights By examining specific policy issues including marriage and family law civil service regulations citizenship law and abortion statutes *Elusive Equality* demonstrates the relationship between Czechs' ideas about gender roles and their attitudes toward democracy Gradually many Czechs became convinced that protecting a traditionally gendered family ideal was more important to their national survival than adhering to constitutionally prescribed standards of equal citizenship Through extensive original research Melissa Feinberg assembles a compelling account of how early Czech progress in women's rights tied to democratic reforms eventually lost momentum in the face of political transformations and the separation of state and domestic issues Moreover Feinberg presents a prism through which our understanding of twentieth century democracy is deepened and a cautionary tale for all those who want to make democratic governments work *Imagology* Manfred Beller, Joseph Theodoor Leerssen, 2007 How do national stereotypes emerge To which extent are they determined by historical or ideological circumstances or else by cultural literary or discursive conventions This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors Its three parts offer 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading *Imagology* is intended both for students and for

senior scholars facilitating not only a first acquaintance with the historical development typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing

From Peoples Into Nations John Connelly, 2022-01-25 This book is a history of East Central Europe since the late eighteenth century the region of Europe between German central Europe and Russia in the East Connelly argues the region for which it is frequently hard to define exact boundaries and which is sometimes treated country by country in a way seemingly separate from the broader trends of European history was one of shared experience despite most of the peoples being divided by linguistic geographic and political barriers Beginning in the 1780s an unwitting Habsburg monarch Joseph II decreed that his subjects would use only German as he hoped to mold a common nationality using German over the disparate subjects Instead he unleashed the energies and struggle for the emergence of new nations that pitted small peoples armed with an idea against empires The author argues that the underlying national self assertion which emerged under imperial rule in the eighteenth and nineteenth centuries shows deep connections to subsequent histories to the creation of nation states of the regions after World War I the failure of democratic rule in these states during the interwar years the submersion of the region under Nazi then Soviet rule after 1939 and to the reinvention of sovereign states and then the break up of two of them after 1989 The book interconnects major themes and country histories for first time chronicling this diverse region over many generations from the time of Joseph through democratic and socialist revolutions genocide and Stalinism through civil society movements struggling for liberal democracy into our own day when illiberal politicians come to power by exploiting very old fears

Nationalism and Revolution in Europe, 1763-1848 Dean Kostantaras, 2025-10-01 Nationalism and Revolution in Europe 1763 1848 addresses enduring historiographical problems concerning the appearance of the first national movements in Europe and their role in the crises associated with the Age of Revolution Considerable detail is supplied to the picture of Enlightenment era intellectual and cultural pursuits in which the nation was featured as both an object of theoretical interest and site of practice In doing so the work provides a major corrective to depictions of the period characteristic of earlier ventures including those by authors as notable as Hobsbawm Gellner and Anderson while offering an advance in narrative coherence by portraying how developments in the sphere of ideas influenced the terms of political debate in France and elsewhere in the years preceding the upheavals of 1789 1815 Subsequent chapters explore the composite nature of the revolutions which followed and the challenges of determining the relative capacity of the three chief sources of contemporary unrest constitutional national and social to inspire extra legal challenges to the Restoration status quo

Comparing their efforts to promote a unified vision of national culture in their respective countries Bar illuminates the complexities of historical writing in the region in the nineteenth century Drawing on previously untranslated documents Bar reconstructs the scholars shared intellectual background and their nationalistic aims arguing that historians on the European periphery made significant contributions to historical writing and had far more in common with their Western and Central European contemporaries than has been previously assumed **Cold War Books in the 'Other' Europe and What Came**

After Jiřina Šmejkalová,2010-11-19 Drawing on analyses of the socio cultural context of East and Central Europe with a special focus on the Czech cultural dynamics of the Cold War and its aftermath this book offers a study of the making and breaking of the centrally controlled system of book production and reception It explores the social material and symbolic reproduction of the printed text in both official and alternative spheres and patterns of dissemination and reading Building on archival research statistical data media analyses and in depth interviews with the participants of the post 1989 de centralization and privatization of the book world it revisits the established notions of censorship and revolution in order to uncover people s performances that contributed to both the reproduction and erosion of the old regime Creating the

Other Nancy M. Wingfield,2004-09-01 The historic myths of a people nation usually play an important role in the creation and consolidation of the basic concepts from which the self image of that nation derives These concepts include not only images of the nation itself but also images of other peoples Although the construction of ethnic stereotypes during the long nineteenth century initially had other functions than simply the homogenization of the particular culture and the exclusion of others from the public sphere the evaluation of peoples according to criteria that included level of civilization yielded rankings of ethnic groups within the Habsburg Monarchy That provided the basis for later more divisive ethnic characterizations of exclusive nationalism as addressed in this volume that examines the roots and results of ethnic nationalist and racial conflict in the region from a variety of historical and theoretical perspectives Conquests and

Cultures Thomas Sowell,2021-08-10 This book is the culmination of 15 years of research and travels that have taken the author completely around the world twice as well as on other travels in the Mediterranean the Baltic and around the Pacific rim Its purpose has been to try to understand the role of cultural differences within nations and between nations today and over centuries of history in shaping the economic and social fates of peoples and of whole civilizations Focusing on four major cultural areas that of the British the Africans including the African diaspora the Slavs of Eastern Europe and the indigenous peoples of the Western Hemisphere Conquests and Cultures reveals patterns that encompass not only these peoples but others and help explain the role of cultural evolution in economic social and political development **In Search**

of European Liberalisms Michael Freeden,Javier Fernández-Sebastián,Jörn Leonhard,2019-08-01 Since the Enlightenment liberalism as a concept has been foundational for European identity and politics even as it has been increasingly interrogated and contested This comprehensive study takes a fresh look at the diverse understandings and interpretations of the idea of

liberalism in Europe encompassing not just the familiar movements doctrines and political parties that fall under the heading of liberal but also the intertwined historical currents of thought behind them Here we find not an abstract universalized liberalism but a complex and overlapping configuration of liberalisms tied to diverse linguistic temporal and political contexts

Budweisers into Czechs and Germans Jeremy King, 2018-06-05 This history of a single town in Bohemia casts new light on nationalism in Central Europe between the Springtime of Nations in 1848 and the Cold War Jeremy King tells the story of both German and Czech speaking Budweis Budjovice which belonged to the Habsburg Monarchy until 1918 and then to Czechoslovakia Hitler's Third Reich and Czechoslovakia again Residents at first simply Budweisers or Habsburg subjects with mostly local loyalties gradually became Czechs or Germans Who became Czech though and who German What did it mean to be one or the other In answering these questions King shows how an epochal region wide contest for power found expression in Budweis Budjovice not only through elections but through clubs schools boycotts breweries a remarkable constitutional experiment a couple of riots and much more In tracing the nationalization of politics from small and sometimes comic beginnings to the genocide and mass expulsions of the 1940s he also rejects traditional interpretive frameworks Writing not a national history but a history of nationhood both Czech and German King recovers a nonnational dimension to the past Embodied locally by Budweisers and more generally by the Habsburg state that dimension has long been blocked from view by a national rhetoric of race and ethnicity King's Czech Habsburg German narrative in addition to capturing the dynamism and complexity of Bohemian politics participates in broader scholarly discussions concerning the nature of nationalism

Whose Love of Which Country? Balázs Trencsényi, Márton Zászkaliczky, 2010 The volume stemming from the long term cooperation of scholars working on East Central European intellectual history discusses the patterns of patriotic and national identification in the light of the multiplicity of levels of ethnic cultural and political allegiances characterizing this region in the early modern period
