Listening | Virginia Woolf à l'ère de l'écoute Adèle Cassigneul,Anne-Marie Smith-Di Biasio,2025-04-24 Listening was the spirit of the age as the invention of psychoanalysis and of radio marked the turn of the twentieth century Virginia Woolf and

the Age of Listening brings together contributions which tune into that acoustic quality at once present in Woolf's time in her texts and in the readings which here echo those very listening techniques. Indeed, the listening mind as a reading surface for the receptivity and reconstruction of sound waves embodies a shift which informs the thinking of many chapters in this volume. In their attention to listeners in the text and to those who make up the work of reception in both English and French, these readings consider Woolf's oeuvre as an echo chamber reverberating with intertextual echoes in a multi-layered representational network. They form a constellation of answers to the call of the Age of Listening.
