Orphism And The Initiatory Tradition:

Orphism and the Initiatory Tradition Raphael Āśram Vidyā Order, 2021-07-19 In this book Raphael shows that Orphism represents the fountain head of all Western speculative thought With its establishment people began to speak of something divine that was present in human beings and consequently there took root in Europe and therefore in the West the metaphysical vision of Being Raphael offers us an authentic traditional setting of Orphism by indicating the initiatory aspect to be found in the two myths or symbols linked to the figure of Orpheus his death and his descent to the underworld both of which being cathartic portray a true experience The Mysteries established by the divine Orpheus represent various states of being and neophytes should ensure that they are in the right psychological condition Readers who are lovers of Wisdom will be able to fully comprehend the highly cathartic function and relevance of the Orphic message and benefit from drinking at the inexhaustible Fountain offered by the timeless Tradition Raphael is a Master in the Western Metaphysical Tradition He has written several books on the pathway of Non duality Advaita He has also translated a number of key Vedānta texts from the Sanskrit and provided his own commentaries Raphael interprets spiritual practice as a Pathway of Fire which disciples follow in all branches of the Tradition it is the Way of Return All disciples follow their own Path of Fire in accordance with that branch of the Tradition to which they belong According to Raphael what is important is to express through living and being the truth that one has been able to contemplate Thus for all beings their expression of thought and action must be coherent and in agreement with their own specific dharma After more than 60 years of Teaching in both oral and written format Raphael withdrew into mah sam dhi May Raphael's Consciousness an expression of the Unity of Tradition guide and illumine along this Opus all those who donate their mens informis a formal mind to the attainment of the highest known Realisation

Orphism and the Initiatory Tradition Raphael, 2003 The topic of this book traces back in time and beyond time this realization human beings as such need to acknowledge in themselves a double element the one titanic to use Orphic terms and the other divine It is up to one's own consciousness to determine whether one wants to be a single whole with the divine element or with the titanic one

Initiation Into the Philosophy of Plato Raphael, 1999 The philosophy associated with the name of Plato has had an immense influence on European thought and civilization but as the author of this work points out it is a mistake to think of it as Plato's philosophy He was one of the greatest exponents of an ancient philosophical tradition stretching back into the mists of time Raphael draws a brief comparison between him and Shankara the great exponent of Advaita Vedānta in India To Plato philosophy was not simply an academic study it was a life transforming discipline a way of life leading to the realization of man's full potential

Initiation into the Mysteries of the Ancient World Jan N. Bremmer, 2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation

into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the lesser Mysteries which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries

Greek Philosophy and Mystery Cults María José García Blanco, María José Martín-Velasco, 2016-02-29 The contributions to this book offer a broad vision of the relationships that were established between Greek Philosophy and the Mystery Cults The authors centre their attention on such thinkers as Plato Aristotle and the Stoic and the Neoplatonist philosophers who used and in some cases criticised doctrinal elements from Mystery Cults adapting them to their own thinking Thus the volume provides a new approach to some of the most renowned Greek philosophers highlighting the influence that Mystery Cults such as Orphism Dionysianism or the Eleusinian rites had on the formation of fundamental aspects of their thinking Given its interdisciplinary character this book will appeal to a broad academic readership interested in the origin of Hellenic thinking and culture It will be especially useful for those eager for a deeper approach to two fundamental domains that attract the attention of many Antiquity scholars Greek philosophy and religion

Poetry and Poetics in the Presocratic Philosophers Tom Mackenzie, 2021-04-15 The first book length literary critical study of the Presocratic philosopher poets Xenophanes Parmenides and Empedocles Sheds new light on these authors philosophical projects and enriches our appreciation of their works as literary artefacts also arguing that they played an important role in the development of Greek poetics

The Red Book of C.G. Jung Walter Boechat, 2018-05-08 This book focuses on some of the main aspects and importance of The Red Book for the understanding of the work of C G Jung It sheds light on the great mysteries of human nature and the new dimension uncovered by Jung and Freud the universe of the unconscious and the possible ways to approach it

Plato Prehistorian Mary Settegast, 2022-10-04 In his Timaeus and Critias dialogues Plato wrote of two ancient civilizations that flourished more than 9 000 years before his time Socrates accepted the account as true and modern archaeological techniques may yet prove him right In Plato Prehistorian Mary Settegast takes us from the cave paintings of Lascaux to the shrines of atalhyk demonstrating correspondences both to Plato's tale and to the mystery religions of antiquity She then traces the mid seventh millennium impulse that revitalized the spiritual life of atalhyk and spread agriculture from Iran to the Greek Peninsula at precisely the time given by Aristotle for the legendary Persian prophet Zarathustra for whom the

cultivation of the earth was a religious imperative This new edition of Mary Settegast's ground breaking synthesis of classical and archaeological scholarship features an appendix by Alistair Coombs on the recent excavations at G bekli Tepe in southeastern Turkey which have upended the conventional view of the rise of civilization Religious and Philosophical Conversion in the Ancient Mediterranean Traditions ,2022-03-07 The interest in interdisciplinary research on the experience of religious conversion or spiritual transformation grows progressively In light of this burgeoning area of study this volume explores conversion or converting experience in the ancient Mediterranean with attention to early Judaism early Christianity and philosophy in the Roman empire The contributions include both historical and philological reconstructions relying on source material and utilizing interdisciplinary approaches Similarly the authors analyze the literary use of the motif of conversion the topic of philosophical conversion as well as ritual social and embodied aspects of spiritual transformation

Baptism and Resurrection Alexander J. M. Wedderburn,2011-01-01 The assumption that Romans 6 and 1 Corinthians 15 reflects a borrowing of ideas from Graeco Roman mystery initiations is not the likeliest explanation of these texts nor does justice either to recent studies of the mysteries nor to the difficulty in reinterpreting resurrection to refer to a spiritual state which the baptized enjoyed in the present Spiritual phenomena may have shown early Christians in the Graeco Roman world that they had life but not resurrection Dying with Christ has other roots than the mysteries and the latter should not be interpreted in the light of Paul but dying and coming to life again is a theme common to a great many rites of passage

The Global Mystical Tradition Bruce Stephen Naschak,2023-01-09 Mysticism is an element of religion or spirituality which emphasizes direct apprehension of the divine whether the divine is understood from a theistic or non theistic perspective The author argues that such mystical experiences can be gained through the practice of specialized techniques of spiritual transformation techniques which have been passed down through the ages by Traditions of Masters or Holy Traditions These esoteric traditions are made up of masters and students who share secret doctrines and rituals and they can be found in cultures from the Upper Paleolithic Period through the present The Global Mystical Tradition studies these traditions their mystical experiences and practices from a global syncretistic perspective noting similarities and in some cases interaction between the Holy Traditions of different cultures **Traditional Forms and Cosmic Cycles** René

Guénon,2003 Ren Gu non 1886 1951 is undoubtedly one of the luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of recent philosophies His oeuvre of 26 volumes is providential for the modern seeker pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents at the same time it directs the reader to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Traditional Forms and Cosmic Cycles is a wide ranging collection of articles that could just as

well have been called Fragments of an Unknown History Although they must remain fragments as Gu non did not return to many of these themes again it would have been regrettable to leave such fascinating articles buried in old journals and so this posthumous collection is now offered to Anglophone readers for the first time The book opens with the key article The Doctrine of Cosmic Cycles followed by two pieces on Atlantis and Hyperborea Two sections follow concerned respectively with the Hebrew Tradition and the Egyptian Tradition The former comprises five articles concerned primarily with the Kabbalah and the Science of Numbers and the latter includes three articles on Hermes and the Hermetic Tradition Book reviews are inserted at relevant points To lend the collection coherence no other spiritual Traditions are here represented A list of the Collected Writings of Ren Gu non has been provided for those who wish to investigate Gu non s metaphysical expositions on such topics as Christianity Islam the Greco Latin Traditions Celtism etc

The Origins of the Western Legal Tradition Ellen Goodman,1995 Ellen Goodman uses extensive extracts from original writings to highlight the main themes of the Western legal tradition The strength of the book is its clear focus on the heart of the tradition constitutionalism representative institutions and rule by law Goodman links Christianity to its origins in Greek philosophy and Judaism She delves into the position of the Roman Church as the tenuous Dark Ages conduit Feudalism lives and dies and the common law and parliament emerge The author accurately and vividly charts the main currents avoiding both the shoals and the myriad tributaries and so enables readers to have a clearer and deeper understanding of our present legal system

St. Paul and Paganism Thomas Wilkie Wilson,1927

The Bacchic Gold Tablets and Poetic Tradition Mark McClay,2023-05-25 The Bacchic gold tablets are a remarkable collection of objects from the Ancient Greek world inscribed with short verse texts and buried in graves of mystery initiates they express extraordinary hopes for post mortem salvation Past approaches to these objects have sought to reconstruct their underlying belief system This book is the first to examine them primarily within the context of early Greek poetry and performance culture The patterns of thought and expression in the tablets find instructive poetic antecedents and analogies including in non canonical and inscribed genres that are not included in conventional descriptions of the poetic tradition Applying a range of analytical approaches from the fields of epigraphy anthropology and religious studies this book ultimately uses the tablets to cast more familiar literature in a new light

A History of Religious Ideas Volume 1 Mircea Eliade,2014-02-14 Everyone who cares about the human adventure will find new information and new angles of vision Martin E Marty The New York Times Book Review This extraordinary work delves into the subject of religion in the prehistoric and ancient worlds humankind s earliest quests for meaning From Neanderthal burials to the mythology of the Iron Age to the religions of Mesopotamia Egypt Greece Israel India and beyond it offers both an appreciation of the wide ranging diversity of religious expression and a consideration of the fundamental unity of religious phenomena Will arouse the interest of all historians of western religion since it includes chapters on the religions of Canaan and Israel However the book must be read cover to cover if one wants to grasp the significance of its gigantic historical scope Church History

The Path of Initiation J. S. Gordon, 2013-07-04 Details the process of spiritual initiation from aspirant to the highest Adept. Explains the characteristics of each stage of initiation including the associated psychological issues that need to be faced to move to the next stage. Explores the long history of the Mystery traditions from ancient Egypt, Babylonia and India to the modern Theosophy of Blavatsky and Bailey. Reveals how the Brotherhood of Spiritual Adepts is increasing global tensions to prepare humanity for the Age of Aquarius and spiritual revelation. As the precessional cycle transits from Pisces to Aquarius, great shifts in spiritual evolution are on the horizon, not for all of humanity as many in the New Age movement have generously hypothesized, but for those who have undertaken the necessary spiritual preparation and initiatory work. Drawing from his deep immersion in the Mystery traditions of both East and West, author J. S. Gordon investigates the initiatic path from ancient times to modern day, detailing the step by step process of initiation and the sequence from spiritual aspirant to the highest Adeptship. He explains the natural logic and characteristics of each stage of initiation including the associated problems and psychological issues that need to be faced in order to move forward to the next stage. He shows how humanity is naturally inclined to spiritual evolution and the development of higher consciousness. We are part of the overall evolutionary process of Nature, a system guided by the most highly evolved Adepts and extending beyond Earth to the entire kosmos. Exploring the long history of the Mystery schools beginning with ancient Egypt, Babylonia and India, Gordon examines the sacred metaphors and allegories of esoteric philosophy, metaphysics, occult science and the Science of the Seven Rays as well as the Adept inspired theosophical works of H. P. Blavatsky and A. A. Bailey. He looks at the Adept Hierarchy of the Great White Himalayan Brotherhood and considers in detail two much discussed mysteries: The Jesus as Christ mystery and the Maitreya Buddha mystery. Revealing how advancement, spiritual, scientific and cultural, erupts out of tension, he explains how the Adepts have been increasing local and global tensions to prepare humanity for the Age of Aquarius, thereby creating the ideal preconditions for spiritual evolution and an eventual restoration of the Mysteries in our own modern era.

Traditional and Cosmic Gods in Later Plato and the Early Academy Vilius Bartninkas, 2023-04-13 This book sheds new light on Plato's cosmology in relation to Greek religion by examining the contested distinction between the traditional and cosmic gods. A close reading of the later dialogues shows that the two families of gods are routinely deployed to organise and structure Plato's accounts of the origins of the universe and of humanity and its social institutions and to illuminate the moral and political ideals of philosophical utopias. Vilius Bartninkas argues that the presence of the two kinds of gods creates a dynamic yet productive tension in Plato's thinking, which is unmistakable and which is not resolved until the works of his students. Thus the book closes by exploring

how the cosmological and religious ideas of Plato's later dialogues resurfaced in the Early Academy and how the debates initiated there ultimately led to the collapse of this theological distinction Pythagoras' Archives Jean-François Wiser, 2024-03-27 The quest for truth is a passionate adventure while philosophy is a total commitment Such are the values that marked the exceptional destiny of Pythagoras whose genius was equalled only by the mystery that still surrounds him This is an atypical book that completely renews the approach to an enigma dating back twenty five centuries Thoroughly documented but resolutely freed from the conventions and stereotypes of a certain critical tradition coming from Aristotle it aims to unveil new perspectives on the Pythagorean question which should at last enable everyone to penetrate the intimacy of the Master of Samos thought with a chance to rediscover the path to a lost wisdom
