Power And Parenting A Hermeneutic Of The Human Condition:

Power and Parenting Kieran Bonner,1998 The power to act is two sided in that it refers to the parent s ability to initiate having children or responding to their actions and to the ability to suffer consequences irreversibility and unpredictability The book argues that the best way of responding to these essential limits is for the parent to develop the interrelation between wisdom ethicality and self mastery that is practical wisdom *Power and Parenting* K. Bonner,1998-09-14 The power to act is two sided in that it refers to the parent s ability to initiate having children or responding to their actions and to the ability to suffer consequences irreversibility and unpredictability The book argues that the best way of responding to these essential limits is for the parent to develop the interrelation between wisdom ethicality and self mastery that is practical wisdom

Place, Space and Hermeneutics Bruce B. Janz,2017-03-29 This book analyzes the hermeneutics of place raising questions about central issues such as textuality dialogue and play It discusses the central figures in the development of hermeneutics and place and surveys disciplines and areas in which a hermeneutic approach to place has been fruitful It covers the range of philosophical hermeneutic theory both within philosophy itself as well as from other disciplines In doing so the volume reflects the state of theorization on these issues and also looks forward to the implications and opportunities that exist Philosophical hermeneutics has fundamentally altered philosophy s approach to place Issues such as how we dwell in place how place is imagined created preserved and lost and how philosophy itself exists in place have become central While there is much research applying hermeneutics to place there is little which both reflects on that heritage and critically analyzes a hermeneutic approach to place This book fills that void by offering a sustained analysis of the central elements major figures and disciplinary applications of hermeneutics and place *The Dying Body as a Lived Experience* Alan Blum,2016-10-04 The anxiety over death persists in everyday life though often denied or repressed lingering as an unconscious worry or intuition that typically seems to compromise one s feelings of well being and experience in a range of areas coming out often as malaise depression and anger in much conduct If one accepts the cliché that life is preparation for death we must accept that the lived experience of the dying body is not highlighted merely in obvious cases of deterioration such as in the ageing or diseased body but in everyday life as a normal phenomenon This book proposes that sensitivity to this dimension can empower us to develop creative relationships to the vulnerability of others and to ourselves as well Part One lays the groundwork for a study of the ways the aura and fear of death recurs as a constant premonition in life and how people try to deal with this uneasiness Part Two then goes on to apply this focus to particular concerns and problems such as dementia depression aging retirement and a range of anxieties frustrations and aggressions *The Dying Body as Lived Experience* will be of interest to a wide interdisciplinary audience in the health sciences in the sociology of health and illness philosophy bioethics and in the expanding field of medical humanities *Social Suffering and Political Confession* Feiyu Sun,2013 The volume examines one significant political phenomenon Suku in revolutionary China through a

matrix of western social theory Freud Marcuse Arendt and Ricoeur Suku is the practice of confessing individual suffering in a political context and in a collective public forum By interpreting Suku from the joint perspectives of political identity and subjective psychological identity the book presents a new paradigm for discussing social suffering and collective confession in a context of revolutionary change in China s modern history P 4 of cover

The Ethics of Care Alan Blum, Stuart Murray, 2016-07-28 Beginning with a focus on the ethical foundations of caregiving in health and expanding towards problems of ethics and justice implicated in a range of issues this book develops and expands the notion of care itself and its connection to practice Organised around the themes of culture as a restraint on caregiving in different social contexts and situations innovative methods in healthcare and the way in which culture works to position care as part of a rhetorical approach to dependency responsibility and justice The Ethics of Care presents case studies examining institutional responses to end of life issues the notion of informed consent biomedicine indigenous rights and postcolonialism in care and theoretical approaches to the concept of care Offering discussions from a variety of disciplinary approaches including sociology communication and social theory as well as hermeneutics phenomenology and deconstruction this book will appeal to scholars across the social sciences with interests in healthcare medicine justice and the question of how we think about care as a notion and social form and how this is related to practice

The Reflexive Initiative Stanley Raffel, Barry Sandywell, 2016-03-31 The Reflexive Initiative is an authoritative intervention in the practice and tradition of reflexive social theory It demonstrates the importance of the reflexive imperative not only in the investigation of everyday life but across a wide range of human sciences and philosophical perspectives Forty years after the publication of On the Beginning of Social Inquiry the chapters in this collection range from re appraisals of earlier essays on topics such as reunions rethinking art and expats to contributions emphasising the opening of radical dialogues with other reflexive traditions and perspectives These include psychoanalysis Lacan Hegel Rene Girard Daseinanalysis dialectical method critical feminism and the dialogical tradition In this dialogical spirit the book contributes to the continuing project of analytic theorizing associated with the work of Alan Blum and Peter McHugh and the recent turn to more existential topics and politically engaged forms of reflexive research It will be of particular use to students working in interpretive traditions of sociology Critical theory Postmodern thought and debates associated with reflexivity and dialectics in other disciplines and research programmes

Acts of Citizenship Engin F. Isin, Greg M. Nielsen, 2013-04-04 This book introduces the concept of act of citizenship and in doing so re orients the study of what it means to be a citizen Isin and Nielsen show that an act of citizenship is the event through which subjects constitute themselves as citizens They claim that such an act involves both responsibility and answerability but is ultimately irreducible to either This study of citizenship is truly interdisciplinary drawing not only on new developments in politics sociology geography and anthropology but also on psychoanalysis philosophy and history Ranging from Antigone and Socrates in the ancient world to checkpoints euthanasia and flash mobs in the modern one the acts and

chapters here build up a dynamic and wide ranging picture Acts of Citizenship provides important new insights for all those concerned with the relationship between individuals groups and politics Urban Enigmas Johanne Sloan,2007-02-12 The practice of comparison is implicit in every act of imagining representing and studying urban experience Urban Enigmas contributes to recent interdisciplinary interest in cities by introducing comparison as a key methodology for urban cultural analysis *Circulation and the City* Alexandra Boutros,Will Straw,2010-02-21 A series of rich case studies examine a range of topics including neighbourhood gentrification subway busking yard sales electronic waste and language refining the touchstone principle of circulation for the study of urban culture both materially and theoretically Contributors employ a variety of disciplinary approaches to create a richly varied picture of the multiple trajectories and effects of movement in the city An engaging work that considers city planning urban culture and social behaviour *Circulation and the City* adds a new dimension that revitalizes the ways we have commonly looked at and thought about the city *Ready or Not* Kay S. Hymowitz,2008-06-30 Children today grow up so fast How often we hear those words uttered both in frustrated good humor and in dumbfounded astonishment Every day the American people hear about kids doing things both good and bad that were once thought to be well beyond their scope flying airplanes running companies committing mass murder Creatures of the information age today s children sometimes seem to know more than their parents They surf the Internet rather than read books they watch South Park instead of The Cosby Show they wear form fitting capri pants and tank tops instead of sundresses in short they are sophisticated beyond their years These facts lead us to wonder Is childhood becoming extinct In *Ready or Not* Kay S Hymowitz offers a startling new interpretation of what makes our children tick and where the moral anomie of today s children comes from She reveals how our ideas about childrearing itself have been transformed perniciously in reponse to the theories of various experts educators psychologists lawyers media executives who have encouraged us to view children as small adults autonomous actors who know what is best for themselves and who have no need for adult instruction or supervision Today s children and teenagers have been encouraged by their parents and teachers to function as individuals to such an extent that they make practically every decision on their own what to wear what to study and even what values they will adhere to The idea of childhood as a time of limited competence in which adults prepare the young for maturity has fallen into disrepute independence has become not the reward of time but rather something that our children have come to expect and demand at increasingly younger ages One of the great ironies of turning our children into small adults is that American society has become less successful at producing truly mature men and women When sophisticated children do grow up they often find themselves unable to accept real adult responsibilities Thus we see more people in their twenties and thirties living like children unwilling to embark on careers or to start families Until we recognize that children are different from grownups and need to be nurtured as such Hymowitz argues our society will be hollow at its core Redefining the Situation Peter McHugh,2019-05-15 Peter McHugh 1929 2010 was an internationally known

sociologist within the field of anti positivist social theory As the only collection of McHugh s sole authored writings *Redefining the Situation* presents a comprehensive yet surprising view of this key theorist s influence in his field *Redefining the Situation* is a compendium of McHugh s published and unpublished short form writings along with three new essays on McHugh s work one by his long time collaborator and friend Alan Blum The collection contributes to the project of reinventing social theory by providing a new perspective from which to imaginatively rethink the development of sociology over the last fifty years It locates McHugh s work not only within the modern and postmodern sociological tradition but also within contemporary social theory broadly including hermeneutics critical theory deconstruction and Hannah Arendt s political theory The essays in this volume show the development of a method to analyze everyday behaviour in light of fundamental questions exploring conflicts and connections between socialization and recidivism fragmentation and ethnic cleansing justice and affirmative action teaching and university politics and intimacy and aesthetics This book moves beyond contemporary debates about big data postmodernism and along the way it identifies convergences in Anglo American and Continental thought By tracing the development of Analysis the tradition of social inquiry from its beginnings until today *Redefining the Situation* re establishes a prominent sociologist as one of the leading intellectuals in the field of interpretive social theory

The Whole Child Seamus Carey,2003 *The Whole Child* is a beautifully written book combining classic philosophical themes like wonder and happiness with modern parenting virtues like courage compassion integrity and discipline Seamus Carey uses anecdotes from his own experience as a parent some amusing and some poignant to illustrate philosophical concepts The result is a rare work as valuable to the serious student of philosophy as it is to Carey s fellow parents Carey argues that parents need to rediscover the sense of wonder the ontological depth with which children experience life and offers suggestions for how this recovery might take place In so doing Carey uncovers standards and ideas for raising children that reach beyond those typically considered by the modern family

Imaginative Structure of the City Alan Blum,2003-05-07 Blum s distinctive form of theoretical inquiry pushes the reader to move beyond conventional ways of thinking about familiar urban issues in answering such fundamental questions as How does a city exist How do its inhabitants define their relationship to it Who is entitled to speak for it What is its symbolic nature In what way does the city function as a focus of attempts to resolve social problems such as alienation participation and community In what ways do night and nighttime affect our relationship to it How is it possible to speak of a city as both exciting and alienating

A Great Place to Raise Kids Kieran Bonner,1999 Popular wisdom and many rural centres make the claim that the country is a great place to raise kids But is it To answer this question Kieran Bonner explores the epistemological political and ethical issues involved in the claim

Home Sweat Home Elizabeth Patton,Mimi Choi,2014-01-23 Coeditors Elizabeth Patton and Mimi Choi argue that an in depth examination of media images of housework from the mid nineteenth century to the early twenty first century is long overdue Modern depictions often imply that certain concerns can be resolved through excessive domesticity reflecting some of the complicated and unfinished issues of second wave feminism **Home Sweat Home Perspectives on Housework and Modern Relationships** reveals how widespread the cultural image of perfect housewives and the invisibility of household labor were in the past and remain today In this collection of essays contributors explore the construction of women as homemakers and the erasure of household labor from the middle class home in popular representations of housework They concentrate on such matters as the impact of second wave feminism on families and gender relations of popular culture especially in film television magazines and advertising on our views of what constitutes home life and gender relations and of changing views of sexuality and masculinity within the domestic sphere **Home Sweat Home** will interest students and scholars of gender cultural media and communication studies sociology and American history and appeal to anyone curious about housework gender relations and popular culture **The Canadian Journal of Irish Studies** ,2004 American Book Publishing Record ,1997
