Power And Politics In Early Medieval Britain And Ireland:

Power and Politics in Early Medieval Britain and Ireland Stephen T. Driscoll, Margaret R. Nieve, 1988 Image and Power in the Archaeology of Early Medieval Britain Helena Hamerow, Arthur MacGregor, 2017-02-28 Rosemary Cramp's influence on the archaeology of early Medieval Britain is nowhere more apparent than in these essays in her honor by her former students. Monastic sites Lindisfarne and Whithorn are the inspiration for Deirdre O'Sullivan's and Peter Hill's papers. Chris Loveluck discusses the implications of the findings from the newly discovered settlement at Flixborough in Lincolnshire. Nancy Edwards describes the early monumental sculpture from St David's in South Wales. Martin Carver reviews the politics of monumental sculpture and monumentality and Catherine Hills reassesses the significance of imported ivory found in graves. Richard Bailey, Christopher Morris and Derek Craig top and tail the book with tributes to Rosemary Cramp and a bibliography of her work.

The Iron Age in Northern Britain Dennis W. Harding, 2017-02-24 *The Iron Age in Northern Britain* examines the archaeological evidence for earlier Iron Age communities from the southern Pennines to the Northern and Western Isles and the impact of Roman expansion on local populations through to the emergence of historically recorded communities in the post-Roman period. The text has been comprehensively revised and expanded to include new discoveries and to take account of advanced techniques with many new and updated illustrations. The volume presents a comprehensive picture of the long Iron Age allowing readers to appreciate how perceptions of Iron Age societies have changed significantly in recent years. New material in this second edition also addresses the key issues of social reconstruction, gender and identity as well as assessing the impact of developer-funded archaeology on the discipline. Drawing on recent excavation and research and interpreting evidence from key studies across Scotland and northern England, *The Iron Age in Northern Britain* continues to be an accessible and authoritative study of later prehistory in the region.

Wales and the Britons, 350-1064 T. M. Charles-Edwards, 2013 The most detailed history of the Welsh from Late Roman Britain to the eve of the Norman Conquest. Integrates the history of religion, language and literature with the history of events.

Political Space Yale H. Ferguson, R. J. Barry Jones, 2012-02-01 This collection brings together an unusually distinguished and diverse group of theorists of global politics, political geography and international political economy who reflect on the concept of political space. Already familiar to political geographers, the concept of political space has lately received increased attention arising out of the need for new ways of thinking about and describing the actors, structures and processes that shape politics and patterns of governance in today's complex post-Cold War world. The essays explore the frontiers of the field of global politics and each deals imaginatively with some aspect of political space. Although the participants may be loosely classified as realists, neo-realists, constructivists and post-internationalists, the essays are not fitted to the usual theoretical pigeonholes. What they do share is a continued faith in empirical research and a collective sense of discovery.

Saint Patrick David N. Dumville,D. N. Dumville,1999-04-29 Extremely scholarly and contains many important studies impossible to do justice to the depth of scholarship which is on display here BRITANNIA Anyone working on Britain and Ireland in the fifth century should pay close attention MEDIEVAL ARCHAEOLOGY A fascinating work which sheds light on a number of dark corners EARLY MEDIEVAL EUROPE St Patrick's place in Irish history is celebrated but is also the subject of intense controversy even as to his death Although the 1500th anniversary of that event was originally celebrated in 1961 there is every reason to think the death date of 461 unsustainable This collection of essays commemorates a different date 17 March 493 and takes stock of other difficult issues which require reassessment These include Patrick's own account of his career his impassioned *apologia pro uita sua* and the later Irish sources which may not reveal much about Patrick but possibly contain material about Palladius sent from Rome in AD 431 as first bishop for Irish Christians the invention of two Patricks seems to belong at the latest to the 8th century and may be a reflex of a 7th century conflation of the careers of Palladius and

Europe after Rome Julia M. H. Smith, 2005-09-08 This is the first single author study in over fifty years to offer an integrated appraisal of the early Middle Ages as a dynamic and formative period in European history Written in an attractive and accessible style it makes extensive use of original sources to introduce early medieval men and women at all levels of society from slave to emperor and allows them to speak to the reader in their own words It overturns traditional narratives and instead offers an entirely fresh approach to the centuries from c 500 to c 1000 Rejecting any notion of a dominant uniform early medieval culture it argues that the fundamental characteristic of the early middle ages is diversity of experience To explain how the men and women who lived in this period ordered their world in cultural social and political terms it employs an innovative methodology combining cultural history regional studies and gender history Ranging comparatively from Ireland to Hungary and from Scotland and Scandinavia to Spain and Italy the analysis highlights three themes regional variation power and the legacy of Rome The book s eight chapters examine the following subjects Speaking and Writing Living and Dying Friends and Relations Men and Women Labour and Lordship Getting and Giving Kingship and Christianity Rome and the Peoples of Europe Collectively they establish the complex cultural realities which distinguished Europe in the period between the end of the central institutions of the western Roman empire in the fifth century and the emergence of a Rome centred papal monarchy from the late eleventh century onwards In the context of debates about the social religious and cultural meaning of Europe in the early twenty first century this books seeks the origins of European cultural pluralism and diversity in the early Middle Ages

Open Access Mickey Abel, 2011-12-08 Open Access Contextualizing the Archivolted Portals of Northern Spain and Western France within the Theology and Politics of Entry explores the history development and accrued connotations of a distinctive entry configuration comprised of a set of concentrically stepped archivolts surrounding a deliberate tympanum free portal opening These archivolted portals adorned many of the small rural ecclesiastical structures dotting the countryside of western France and northern Spain in the twelfth century Seeking to re contextualize this configuration within monastic meditational practices this book argues that the ornamented archivolts were likely composed following medieval prescriptions for the rhetorical ornamentation of poetry and employed the techniques of mnemonic recollection and imaginative visualization Read in this light it becomes clear that the architectural form underlying these semi circular configurations served to open the possibilities for meaning by making the sculptural imagery physically and philosophically accessible to both the monastic

community and the lay parishioner Pointing to an Iberian heritage in which both light and space had long been manipulated in the conveyance of theological and political ideologies Abel suggests that the portal s architectural form grew out of a physical and social matrix characterized by pilgrimage crusade and processions where the elements of motion integral to the Quadrivium sciences of Math Geometry Astronomy and Music were enhanced by a proximity to and cultural interaction with the Islamic courts of Spain It was however within the politics of the Peace of God movement with its emphasis on relic processions that often encompassed all the parishes of the monastic domain that the archivolted portal with its elevated porch like space are shown to be the most effective

Archaeologies of Rules and Regulation Barbara Hausmair, Ben Jervis, Ruth Nugent, Eleanor Williams, 2018-01-29 How can we study the impact of rules on the lives of past people using archaeological evidence To answer this question Archaeologies of Rules and Regulation presents case studies drawn from across Europe and the United States Covering areas as diverse as the use of space in a nineteenth century U S Army camp the deposition of waste in medieval towns the experiences of Swedish migrants to North America the relationship between people and animals in Anglo Saxon England these case studies explore the use of archaeological evidence in understanding the relationship between rules lived experience and social identity

Worlds of Arthur Guy Halsall, 2013-02-14 King Arthur is probably the most famous and certainly the most legendary medieval king From the early ninth century through the middle ages to the Arthurian romances of Victorian times the tales of this legendary figure have blossomed and multiplied And in more recent times there has been a continuous stream of books claiming to have discovered the facts about or to unlock the secret or truth behind the once and future king Broadly speaking there are two Arthurs On the one hand is the traditional historical Arthur waging a doomed struggle to save Roman civilization against the relentless Anglo Saxon tide during the darkest years of the Dark Ages On the other is the Arthur of myth and legend accompanied by a host of equally legendary people places and stories Lancelot Guinevere Galahad and Gawain Merlin Excalibur the Lady in the Lake the Sword in the Stone Camelot the Round Table The big problem with all this is that King Arthur might well never have existed And if he did exist it is next to impossible to say anything at all about him As this challenging new look at the Arthur legend makes clear all books claiming to reveal the truth behind King Arthur can safely be ignored Not only the red herrings in the abundant pseudo historical accounts even the historical Arthur is largely a figment of the imagination the evidence that we have whether written or archaeological is simply incapable of telling us anything detailed about the Britain in which he is supposed to have lived fought and died The truth as Guy Halsall reveals in this fascinating investigation is both radically different and also a good deal more intriguing

Early Medieval Munster Michael A. Monk, John Sheehan, 1998 A major contribution to the study and understanding of Early Medieval Ireland which offers radical interpretations of new evidence

Archaeology, History and Science Marcos Martinon-Torres, Thilo Rehren, 2016-09-16 Using a combination of historical archaeological and scientific data is not an uncommon research practice Rarely found however is a more overt critical consideration of how

these sources of information relate to each other or explicit attempts at developing successful strategies for interdisciplinary work The authors in this volume provide such critical perspectives examining materials from a wide range of cultures and time periods to demonstrate the added value of combining in their research seemingly incompatible or even contradictory sources Case studies include explorations of the symbolism of flint knives in ancient Egypt the meaning of cuneiform glass texts medieval metallurgical traditions and urban archaeology at industrial sites This volume is noteworthy as it offers novel contributions to specific topics as well as fundamental reflections on the problems and potentials of the interdisciplinary study of the human past Cemeteries and Society in Merovingian Gaul Guy Halsall, 2010 Bundeling van de zeven belangrijkste essays over de sociale interpretatie van de Merovingische begraafplaatsen archeologie
