

## 1 Help for DESQview/X

### Using the Mouse

You can use the mouse and keyboard interchangeably. You can perform part of a command using the mouse and part using the keyboard—whichever you find easier.

In DESQview/X the pointer cursor appears as an arrow most of the time. You control where the pointer cursor is by moving your mouse.

**Note to DESQview users:** DESQview/X defines mouse buttons differently than DESQview. In DESQview Button 2 is the right button on a two-button mouse or the right button on a three-button mouse; Button 3 (the DESQ button) requires that you hold both buttons down on a two-button mouse and is the center button on a three-button mouse. You may reconfigure the DESQview/X mouse to act like the DESQview mouse, if you wish, using DESQview/X Setup.
