

Power Of Ideology

Chris Barker

Power Of Ideology:

The Ideology of Power and the Power of Ideology Göran Therborn, 1999-07-17 Few concepts have been so intensively discussed or so widely sponsored as that of ideology Whether read as the expression of social classes or attributed a material independence and efficacy whether devalued as false and non scientific or asserted as the necessary element of social practice ideology has become an ineluctable conceptual reference across a range of works dealing with subjects as varied as science and politics gender and cultural production In this book G ran Therborn makes a decisive contribution to the contemporary debate Beginning with some critical reflections on Louis Althusser s influential writings in the late sixties Therborn develops a theory of the formation of human subjects He then goes on to consider the material matrix of ideologies and the problem of ideological change the ideological constitution of classes and the characteristics of the discursive order that regulates it Turning to questions of state power and political struggle Therborn provides a remarkable account of ideological domination that displaces traditional categories and a fascinating analysis of the process of political mobilization Brief yet wide ranging probing yet succinct *The Ideology of Power and the Power of Ideology* is a work of theoretical exploration that establishes new bearings for the current discussion of ideology *The Power of Ideology* Meszaros

Istvan, 2002 **The Power of Comics** Randy Duncan, Matthew J. Smith, 2009-07-01 Offers undergraduate students with an understanding of the comics medium and its communication potential This book deals with comic books and graphic novels It focuses on comic books because in their longer form they have the potential for complexity of expression **Ritual, History and Power** Maurice Bloch, 2020-12-16 This volume provides a collection of some of Maurice Bloch s most important work including influential essays on power hierarchy death and fertility The Power of Negative Thinking Benjamin

Schreier, 2009-04-20 Benjamin Schreier is suspicious of a simple equation of cynicism with quietism nihilism selfishness or false consciousness and he rejects the notion that modern cynicism represents something categorically different from the classical outlook of Diogenes He proposes instead that cynicism names the difficult position of not being able to recognize the relevance of democratic social norms in the future and yet being nonetheless invested in the power of these norms to determine cultural identity and to regulate social practices In his readings of Henry Adams s *Education* Willa Cather s *The Professor s House* F Scott Fitzgerald s *The Great Gatsby* and Nathanael West s *Miss Lonelyhearts* the author affirms that cynicism is an important and under appreciated current in mainstream modern American literature He finds that far from the simple selfishness or apathy for which it is so often dismissed the cynicism in these texts is suffused by a desire for the certainty promised by norms such as national teleology ethnic identity and civic participation But without faith in the relevance of these regulating terms cynics lack ready accounts of America and of their place in it Schreier s focus is not only on the cynical characters in the texts but also on the textual and epistemological strategies used to render normative narratives recognizably legitimate in the first place In his refusal to historicize cynicism away with generalized claims about

American society Schreier argues instead that cynicism stages an unanswerable challenge to the specific expectations through which normative accounts of history become visible The Power of Negative Thinking makes a vital and wide ranging contribution to our understanding of American literature intellectual and cultural history philosophy ethics and politics Schreier s close reading and his vigorous theoretical examination of analytical first principles combine to make a book that is valuable not only to the study of methodology but also to the scrutiny of the very assumptions the humanities bring to the exploration of the way we think *Revolution and Power: Ideology's Reign* Pasquale De Marco,2025-03-08 In a world grappling with profound change and inequality *Revolution and Power Ideology s Reign* offers a timely and thought provoking exploration of the intricate relationship between revolution and ideology This book delves into the ways in which ideologies shape revolutionary movements and the profound impact revolutions have on ideological landscapes Drawing upon historical case studies theoretical frameworks and contemporary examples this book provides a comprehensive analysis of the complex interplay between ideology and revolution It examines how ideologies inspire and legitimize revolutions providing a clear sense of purpose and direction to those who participate in them At the same time it explores how revolutions can test and challenge ideologies forcing them to adapt and evolve in response to the realities of power and the complexities of social change Through a captivating narrative the book takes readers on a journey through the annals of history examining iconic revolutions such as the French Revolution the Russian Revolution and the Chinese Revolution It analyzes the ideologies that fueled these revolutions the impact they had on societies and the enduring legacy of their ideas This book is not only a historical exploration but also a reflection on the present and a glimpse into the future It examines contemporary revolutionary movements and the role of ideology in shaping their goals strategies and outcomes It also explores the potential for revolutions in the digital age where information and communication technologies are transforming the landscape of political and social change *Revolution and Power Ideology s Reign* is a must read for anyone seeking to understand the complex relationship between revolution and ideology It offers a deeper appreciation of the forces that drive social change and the profound impact they have on societies cultures and individuals If you like this book write a review

The Rhetorical Power of Popular Culture Deanna D. Sellnow,Thomas G. Endres,2023-12-18 Can television shows like *Stranger Things* popular music by performers like Taylor Swift advertisements for products like Samuel Adams beer and films such as *The Hunger Games* help us understand rhetorical theory and criticism The Fourth Edition of *The Rhetorical Power of Popular Culture* offers students a step by step introduction to rhetorical theory and criticism by focusing on the powerful role popular culture plays in persuading us as to what to believe and how to behave In every chapter students are introduced to rhetorical theories presented with current examples from popular culture that relate to the theory and guided through demonstrations about how to describe interpret and evaluate popular culture texts through rhetorical analysis Authors Deanna Sellnow and Thomas Endres provide sample student essays in every chapter to demonstrate rhetorical

criticism in practice This edition s easy to understand approach and range of popular culture examples help students apply rhetorical theory and criticism to their own lives and assigned work

Literature and Power Zhu Guohua,2023-11-28 With reference to the theoretical framework of Michel Foucault and Pierre Bourdieu this book offers a critical investigation into such epic issues as the end of art and the inherent laws of literature s evolution while conflating the two into one major argumentation The book proceeds from Hegel s claim of the end of art to tackle the universal yet essential problem of literature its legitimacy in a sociological sense It invests Bourdieu s sociological terms power capital habitus field and so forth into the study of literature and art while taking on other theoretical enquiries particularly the Marxist exploration into ideology as well as aspects of economics and communication studies This book will be a valuable resource for students and scholars of the sociology of literature cultural studies and those with specific interests in Chinese literature literary and art theory

The Power of Narrative Raul P. Lejano,Shondel J. Nero,2020-09-18 There is an ideological war of words waging in America one that speaks to a new fundamentalism rising not just within the American public but across other ideologically torn nations around the globe as well At its heart is climate skepticism an ideological watershed that has become a core belief for millions of people despite a large scientific consensus supporting the science of anthropogenic climate change While many scholars have examined the role of lobbyists and conservative think tanks in fueling the climate skepticism movement there has not yet been a systematic analysis of why the narrative itself has resonated so powerfully with the public Pulling from science and technology studies narrative and discourse theory and public policy The Power of Narrative examines the strength of climate skepticism as a story offering a thoughtful analysis and comparison of anti climate science narratives over time and across geographic boundaries This book provides fresh insight into the rhetorical and semantic properties on both sides of the climate change debate that preclude dialogue around climate science and proposes a means for moving beyond ideological entrenchment through language mediation further ethnographic study and research informed teaching The Power of Narrative culminates in the revelation of a parallel between narratives about climate skepticism and those in other issue areas e g gun rights immigration health crises exposing a genetic meta narrative of public distrust and isolation Ultimately The Power of Narrative is not a book about climate change in itself it is instead a book about how our society understands and interacts with science how a social narrative becomes ideology and how we can move beyond personal and political dogma to arrive at a sense of collective rapprochement

Theorizing Power Jonathan S. Hearn,2017-09-16 If we re interested in why society changes and develops and if we want to identify the forces that influence our personal beliefs and choices then we must have an understanding of the nature and scope of human power This distinctively clear text critically evaluates how power is defined conceptualized and theorized Spanning 500 years of thinking in the field the book examines ideas from classical and contemporary thinkers from Machiavelli to Michael Mann Theories are firmly rooted in their historical context alongside real life examples to explain their relevance to our lives today

Theorizing Power highlights the significance of power across all areas of social life including gender religion morality and identity It is the ideal text to stimulate thinking and debate on the subject of power for all students of sociology and politics

The Power of Tautology Allen Thiher,1997 Historicism occupies a central position in recent developments of literary theory exemplified by Heidegger and Foucault They are respectively right and left wing examples of the desire to define whatever occurs in history as a product of history Heidegger and Foucault also represent versions of the widespread belief that history should be viewed as a form of conspiracy Another example studied is the structuralism that has developed from Saussure through Roland Barthes Structuralism has defined all products of the human mind to be systems that can be reduced to the system of language

The Power of the Powerless Vaclav Havel,John Keane,2016-09-16 Books of great political insight and novelty always outlive their time of birth and this reissued work initially published in 1985 is no exception Written shortly after the formation of Charter 77 the essays in this collection are among the most original and compelling pieces of political writing to have emerged from central and Eastern Europe during the whole of the post war period V clav Havel s essay provides the title for the book It was read by all the contributors who in turn responded to the many questions which Havel raises about the potential power of the powerless The essays explain the anti democratic features and limits of Soviet type totalitarian systems of power They discuss such concepts as ideology democracy civil liberty law and the state from a perspective which is radically different from that of people living in liberal western democracies The authors also discuss the prospects for democratic change under totalitarian conditions Steven Lukes introduction provides an invaluable political and historical context for these writings The authors represent a very broad spectrum of democratic opinion including liberal conservative and socialist

The SAGE Dictionary of Cultural Studies Chris Barker,2004-06-09 Contains over 200 entries on key concepts and theorists of cultural studies

Power of Articulation Matti Kortesoja,2023-06-12 This open access book is the first book that attempts to treat the notion of articulation as an important concept to be added to the lexicon of communication studies and social science It constitutes the first comprehensive and systematic discussion of articulation in English providing an introduction of its usages and what has occurred on its travels from one theoretical realm to another in political philosophy structural linguistics new economic anthropology cultural studies and post Marxist discourse theory The proposed research takes a relational approach to society and social action in a way that recognises their relative autonomy It entails an introduction of the discursive turn in the imagery of society and social change thereby proving that the relational concept of articulation Gliederung has potential to consider society as both a structured complex whole and a product of human interaction

Kingdom of Power, Power of Kingdom Rob Starner,2011-01-01 Mark s Gospel is much maligned for its redundancy and stylistic sloppiness But is this indignity justified The answer to this question hangs not only on the genre of this work but also on the life setting of its target audience Rather than unwitting slip ups of an inept writer Mark s narrative repetitions and temporal dislocations are better

understood as rhetorical strategies for a didactic oral performance There is method to Mark s madness and the method maps his meaning In recent decades some scholars have become enamored with what they see as a generic affinity between Mark s Gospel and fictive literature particularly ancient romance novels Could this be the method behind Mark s madness This book offers readers an exciting and profitable journey into two story worlds that likely share a common historical cultural setting Mark s Gospel and Chariton s passion of love Analyzing these works from the vantage point of narrative sequence Starner identifies two contrasting worldviews for Chariton the world is controlled by the goddess Aphrodite who serves as a powerbroker distributing political economic and sociological power to agents who use that power for self serving ends for Mark the world is governed by an All Powerful God who shockingly operates from a posture of powerlessness inviting not coercing humans to accept his lordship and urging them to adopt the self sacrificial service oriented program of living that finds its quintessential expression in the historical Jesus of the Gospels

Political Theory and Power

Joseph,2023-08-07 United States-Soviet Union-China, the Great Power Triangle United States. Congress. House. Committee on International Relations. Subcommittee on Future Foreign Policy Research and Development,1976 The Ideology of Power and the Power of Ideology Göran Therborn,1981-06-01 Global Perspectives on the Psychology of Terrorism Chitadze, Nika,2022-09-16 The constant threat of terror leads to the destabilization of the political economic and social situation in the state Lack of confidence in personal safety contributes to the growth of anxiety fears and mental stress which negatively affects psychological health leading to the development of various psychosomatic disorders among the population Global Perspectives on the Psychology of Terrorism discusses the psychological aspects of terrorism including the determination of the main types of terrorism and the psychological characteristics of terrorists and terrorist groups It further speaks on the negative impact of terrorism on the mass consciousness as well as the ways to deal with stress in people exposed to the impact of terrorist attacks features of human behavior in extreme situations and methods of psychological support in times of crisis Covering topics such as state terrorism international security and cyberterrorism this premier reference source is an excellent resource for government officials sociologists representatives of mass media non governmental organizations politicians psychologists students and faculty of higher education librarians researchers and academicians *States of Injury* Wendy Brown,1995-07-23 Whether in characterizing Catharine MacKinnon s theory of gender as itself pornographic or in identifying liberalism as unable to make good on its promises Wendy Brown pursues a central question how does a sense of woundedness become the basis for a sense of identity Brown argues that efforts to outlaw hate speech and pornography powerfully legitimize the state such apparently well intentioned attempts harm victims further by portraying them as so helpless as to be in continuing need of governmental protection Whether one is dealing with the state the Mafia parents pimps police or husbands writes Brown the heavy price of institutionalized protection is always a measure of dependence and agreement to abide by the protector s rules True democracy she insists requires sharing power

not regulation by it freedom not protection Refusing any facile identification with one political position or another Brown applies her argument to a panoply of topics from the basis of litigiousness in political life to the appearance on the academic Left of themes of revenge and a thwarted will to power These and other provocations in contemporary political thought and political life provide an occasion for rethinking the value of several of the last two centuries most compelling theoretical critiques of modern political life including the positions of Nietzsche Marx Weber and Foucault

Decoding **Power Of Ideology**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
