LSAmagazine University of Michigan. College of Literature, Science, and the Arts,1988 The chief Periods of European history Edward Augustus Freeman,1886 *The Chief Periods of European History* Freeman,1886 **The Making of the Modern Greek Family** Paul Sant Cassia,Constantina Bada,1992 This 1991 study deals with a specific set of institutions in nineteenth century Athens Relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in Athens in the nineteenth century These forms then became a feature of wider Greek society which continued into the twentieth century Greece was the first post colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city As Athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state Such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character This is a persuasive piece of detective work which has advanced our knowledge of modern Greece It is a model for scholarship on the development of family and other intimate ideologies where nation states encroach upon local consciousness *Dance and the Body Politic in Northern Greece* Jane K. Cowan,2016-09-29 Valued for their sensual and social intensity Greek dance events are often also problematical for participants giving rise to struggles over position prestige and reputation Here Jane Cowan explores how the politics of gender is articulated through the body at these culturally central yet until now ethnographically neglected celebrations in a class divided northern Greek town Portraying the dance event as both a highly structured and dynamic social arena she approaches the human body not only as a sign to be deciphered but as a site of experience and an agent of practice In describing the multiple ideologies of person gender and community that townspeople embody and explore as they dance Cowan presents three different settings the traditional wedding procession the Europeanized formal evening dance of local civic associations and the private party She examines the practices of eating drinking talking gifting and dancing and the verbal discourse through which celebrants make sense of each other s actions Paying particular attention to points of tension and moments of misunderstanding she analyzes in what ways these social situations pose different problems for men and women The Greek Crisis and Its Cultural Origins Manussos

Marangudakis,2019-05-16 This original analysis of modern Greece s political culture attempts to present a total social fact a coherent and complex representation of Greek socio political culture to identify the cultural causes of Greece s recent disastrous economic crisis Using a culturalist frame inspired by the Yale Strong Program Marangudakis argues that the core cultural orientations of Greece have determined its politics Greek secular culture flows out of the religion of Eastern Orthodoxy with its mysticism icons and general otherworldly nesses This theoretical discussion bringing together Eisenstadt Michael Mann Banfield and Taylor is complemented by an innovative use of survey data processed by political scientist and statistician Theodore Chadjipadelis The carefully deployed quantitative data demonstrate that the culture previously described is actually shared by people living in Greece today In his sweeping conclusion to this thorough cultural analysis Marangudakis reflects on the prospects of Greek cultural recovery through the construction of a non populist civil religion

The Sword of Islam, Or Suffering Armenia John Castell Hopkins,1896 **Byzantium and the Modern Greek**

Identity David Ricks,Paul Magdalino,2016-12-05 Perhaps because of the fact that modern Greece is through the Orthodox Church inextricably linked with the Byzantine heritage the precise meaning of this heritage in its various aspects has hitherto been surprisingly little discussed by scholars This collection of specially commissioned essays aims to present an overview of some of the different and often conflicting tendencies manifested by modern Greek attitudes to Byzantium since the late eighteenth century Enlightenment The aim is to show just how formative views of Byzantium have been for modern Greek life and letters for historiography and imaginative literature on the one hand and on the other for language law and the definition of a culture All Greek has been translated and the volume is aimed at Byzantinists and Neohellenists alike Rightward

Movement in a Comparative Perspective Gert Webelhuth,Manfred Sailer,Heike Walker,2013-07-16 This book represents the state of the art on rightward movement in one thematically coherent volume It documents the growing importance of the combination of empirical and theoretical work in linguistic analysis Several contributions argue that rightward movement is a means of reducing phonological or structural complexity The inclusion of corpus data and psycholinguistic results confirms the Right Roof Constraint as a characteristic property of extraposition and argues for a reduced role of subsentential bounding nodes The contributions also show that the phenomenon cannot be looked at from one module of grammar alone but calls for an interaction of syntax semantics phonology and discourse The discussion of different languages such as English German Dutch Italian Italian Sign Language Modern Greek Uyghur and Khalkha enhances our understanding of the complexity of the phenomenon Finally the analytic options of different frameworks are explored The volume is of interest to students and researchers of syntax semantics psycholinguistics and corpus linguistics **Tales of Superhuman Powers**

The Transformation of Ottoman Crete Pinar Senisik, 2011-07-30 The island of Crete under Ottoman rule in the nineteenth century saw successive revolts from its majority Christian population who were set on union with the newly independent Greece This book offers an original perspective on the social political and ideological transformation of Ottoman Crete within the nationalist context of the late nineteenth century It focuses on the Cretan revolts of 1896 and 1897 and examines the establishment of the autonomous Cretan State and the withdrawal of Ottoman troops from the island in 1898 Based on Ottoman British and American archival sources the author demonstrates that contrary to the standard view that the uprisings were merely an expression of discontent at

Ottoman rule Cretan Christians in fact aimed to radically change the socio economic and political structure of Cretan society and to actually overthrow and expel the Ottoman administration This book provides a deeper understanding of the Cretan experience and of the wider politics of the Eastern Mediterranean in the late nineteenth century
