Power Postcolonialism And International Relations Reading Race Gender And Class:

Power, Postcolonialism and International Relations Chowdhry Geeta, Sheila Nair, 2003-09-02 Chowdhry and Nair along with the authors of this volume make a timely vital and deeply necessary intervention in international relations one that informs theoretically enriches our knowledge of the world through its narratives and forces us to confront the differentiated wholeness of our humanity Readers will want to emulate the skills and sensibilities they offer Naeem Inayatullah Ithaca College This work uses postcolonial theory to examine the implications of race class and gender relations for the structuring of world politics It addresses further themes central to postcolonial theory such as the impact of representation on power relations the relationship between global capital and power and the space for resistance and agency in the context of global power asymmetries *Decolonizing International Relations* Branwen Gruffydd Jones, 2006-09-20 The discipline of International Relations IR is concerned with the powerful states and actors in the global political economy and dominated by North American and European scholars This book exposes the ways in which IR has consistently ignored questions of colonialism imperialism race slavery and dispossession in the non European world **Race, Gender, and Culture in International Relations** Randolph B. Persaud, Alina Sajed, 2018-03-05 International relations theory has broadened out considerably since the end of the Cold War Topics and issues once deemed irrelevant to the discipline have been systematically drawn into the debate and great strides have been made in the areas of culture identity race and gender in the discipline However despite these major developments over the last two decades currently there are no comprehensive textbooks that deal with race gender and culture in IR from a postcolonial perspective This textbook fills this important gap Persaud and Sajed have drawn together an outstanding lineup of scholars with each chapter illustrating the ways these specific lenses race gender culture condition or alter our assumptions about world politics This book covers a wide range of topics including war global inequality postcolonialism nation nationalism indigeneity sexuality celebrity humanitarianism and religion follows a clear structure with each chapter situating the topic within IR reviewing the main approaches and debates surrounding the topic and illustrating the subject matter through case studies features pedagogical tools and resources in every chapter boxes to highlight major points illustrative narratives and a list of suggested readings Drawing together prominent scholars in critical International Relations this work shows why and how race gender and culture matter and will be essential reading for all students of global politics and International Relations theory **Men, Militarism, and UN Peacekeeping** Sandra Whitworth, 2004 In this important controversial and at times troubling book Sandra Whitworth looks behind the rhetoric to investigate from a feminist perspective some of the realities of military intervention under the UN flag Whitworth contends that there is a fundamental contradiction between portrayals of peacekeeping as altruistic and benign and the militarized masculinity that underpins the group identity of soldiers Examining evidence from Cambodia and Somalia she argues that sexual and other crimes can be seen as expressions of a violent hypermasculinity that is congruent with

militarized identities but entirely incongruent with missions aimed at maintaining peace She also asserts that recent efforts within the UN to address gender issues in peacekeeping operations have failed because they fail to challenge traditional understandings of military conflict and women This unsettling critique of UN operations which also investigates the interplay between gender and racial stereotyping in peacekeeping has the power to change conventional perceptions with considerable policy implications

Hosli, Joren Selleslaghs, 2019-11-22 This volume offers a comprehensive evaluation of the concept of global order with a particular emphasis on the role of regional organisations within global governance institutions such as the United Nations Building from a solid theoretical base it draws upon the expertise of numerous leading international scholars offering a broad array of timely and relevant case studies These all take into consideration the historical setting before analysing the contemporary situation and offering suggestions for potential realignments and readjustments that may be witnessed in the future The volume adopts an interdisciplinary approach when addressing some of the most pressing issues of global governance which our global community must tackle This presents the readers an opportunity to understand related topics such as political economy international law institutions of global governance in conjunction with the academic field of International Relations IR It further helps students and interested readers understand the theoretical and practical foundations to the changing nature of global affairs

The Ashgate Research Companion to Ethics and International Relations Patrick Hayden, 2016-04-01 While skepticism about the role of moral considerations in international politics has been influential within the discipline of international relations IR those writing on topics such as war peace rights and trade up until the twentieth century took seriously the importance of ethical values and moral debates The 1990s and 2000s have seen a substantial growth of attention to the ways in which IR conceives and analyzes themes of an ethical nature and how issues problems and policies involving ethics are addressed by a variety of actors within the international system This indispensable research companion widens the perspective from ethics and international relations to ethics in international relations redressing the mis perception that ethical concepts principles norms and rules are not in part constitutive of the international system and the agents acting within that system Necessarily cross disciplinary expertise is drawn from IR and also philosophy political theory religious studies history and law making this an ideal volume for any library reference collection

Cosmopolitan Elites Kira Huju, 2023-11-13 *Cosmopolitan Elites* narrates the birth everyday life and fracturing of a Western dominated global order from its margins It offers a critical sociological examination of the elite Indian Foreign Service and its members many of whom were present at the founding of this order Kira Huju explores how these diplomats set out to remake the service in the name of a radically anti colonial global subaltern but often ended up seeking status within its hierarchies through social mimicry of its most powerful actors This is a book about the struggles of belonging it revisits what it takes to be a recognized member of international society and asks what the experience of historically marginalized actors inside the diplomatic club can tell us about the evident woes of global

order today In interrogating how Indian diplomats learned to live under a Westernized world order it also offers a sociologically grounded reading of what might happen in spaces like India as the world transitions past Western domination An awkward balancing act animates the order making of India's cosmopolitan diplomats despite a genuine desire to strive toward a postcolonial world founded on diversity difference and the symbolic representation of a global subaltern there is a strong sense of a lingering caricature like notion of a white European dominated homogenous club to which Indian diplomats feel a deep rooted and colonially embedded desire to belong Cosmopolitanism operates inside this balancing act not as an international ethic upholding an equal tolerant or liberal global order but rather as an elite aesthetic which presumes cultural compliance diplomatic accommodation and social assimilation into Western mores Based on 85 interviews with Indian diplomats politicians and foreign policy experts as well as archival work in New Delhi the book asks what the experience of historically marginalized actors inside the diplomatic club tells us about the social hierarchies of race class religion gender and caste under global order

Postcolonial Governmentalities Terri-Anne Teo,, Elisa Wynne-Hughes, 2020-02-18 This edited volume asks how governmentality and postcolonial approaches can be brought together to help us better understand specific sites and practices of contemporary postcolonial governance The framework approach was inspired by the recent use of governmentality approaches that emphasize how governance functions not solely through states but through multiple tactics and means that regulate the conduct of individuals and institutions through both freedom and

constraint A postcolonial approach to governance exposes the role of postcolonial sites and practices in shaping governance and the inequalities embedded within it insofar as standards of conduct determine which subjects are privileged and excluded Postcolonial perspectives show how governance can be both productive and repressive functioning to impose a fixed code of conduct that objectifies gendered racialized sexualized others as part of its project of improvement In discussing governance we must also consider how power is negotiated and challenged through forms of resistance and counter conduct This volume argues that we need to incorporate postcolonial theories and carefully examine postcolonial practices and sites to understand how contemporary governance shapes various transnational inequalities and social divisions The authors in this edited volume illustrate the value of postcolonial governance as a conceptual framework through empirical examples from Asia Australia Africa and Europe These cases unpack practices of governance operating within complex political landscapes

Gender, UN Peacebuilding, and the Politics of Space Laura J. Shepherd, 2017 The United Nations Peacebuilding Commission UNPBC was established in December 2005 to develop outlines of best practice in post conflict reconstruction and to secure the political and material resources necessary to assist states in transition from conflict to peacetime Currently the organization is involved in reconstruction and peacebuilding activities in six countries Yet a 2010 review by permanent representatives to the United Nations found that the hopes of the UN peacebuilding architecture despite committed and dedicated efforts had yet to be realized Two of these hopes relate to gender and power specifically that peacebuilding efforts integrate a gender perspective and that the Commission consult with civil society NGOs and women s organizations This book is the first to offer an extensive and dedicated analysis of the activities of the UN Peacebuilding Commission with regard to both gender politics broadly conceived and the gendered dynamics of civil society participation in peacebuilding activities Laura J Shepherd draws upon original fieldwork that she conducted at the UN to argue that the gendered and spatial politics of peacebuilding not only feminizes civil society organizations but also perpetuates hierarchies that privilege the international over the domestic realms The book argues that the dominant representations of women gender and civil society in UN peacebuilding discourse produce spatial hierarchies that paradoxically undermine the contemporary emphasis on bottom up governance of peacebuilding activities
