Power Relations And State Formation:

Power and State Formation in West Africa ,2011-12-15 Looks at the political and social history of the Gold Coast in West Africa from the early 16th century to the second half of the 18th The book examines how political entities in Nzema were structured territorially as well as the formation of ruling groups and aspects of their political economic and military actions

Hybrid Rule and State Formation Shelley Hurt,Ronnie Lipschutz,2015-06-26 Neoliberalism has been the reigning ideology of our era For the past four decades almost every real world event of any consequence has been traced to the supposedly omnipresent influence of neoliberalism Instead this book argues that states across the world have actually grown in scope and reach The authors in this volume contest the view that the past three decades have been marked by the diminution of the state in the face of neoliberalism They argue instead that we are witnessing a new phase of state formation which revolves around hybrid rule that is a more expansive form of state formation that works through privatization and seeks pacification and depoliticization as instrumental to enhancing state power Contributors argue that that the process of hybridization and hybrid rule point towards a convergence on a more authoritarian capitalist regime type possibly but not necessarily more closely aligned with the Beijing model one toward which even the United States with its penchant for surveillance and discipline appears to be moving This volume will shed new light on evolving public private relations and the changing nature of power and political authority in the 21st century and will be of interest to students and scholars of IPE international relations and political theory

State Formation and the Structure of Politics in Mamluk Syro-Egypt, 648-741 A.H./1250-1340 C.E. Winslow Williams Clifford,2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained fo a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans

Power Relations of Development Tamer M.A. Abd Elkreem ,2018 This book provides wide

ranging theoretical perspectives and rich ethnographic material to analyze the state society development nexus in Sudan Overall it provides a rare insight into the planning phases of the Kajbar Dam in the home areas of the Mahas Nubian people The book s chapters provide convincing analysis of how relationships evolved throughout decades of planning between Sudanese state actors and local people and among the locals as they positioned themselves for or against the dam Certainly an important contribution to the proud tradition of Sudanese anthropology Prof Leif Manger Bergen University State and Society John Gledhill,Barbara Bender,Mogens Trolle Larsen,1995 The traditional Eurocentric view of state formation and the rise of civilization is challenged in this broad ranging book Bringing archaeological research into contact with the work of ethno historians and anthropologists it generates a discussion of fundamental concepts rather than a search for modern analogies for processes that occurred in the past **State Formations** John L. Brooke,Julia C. Strauss,Greg Anderson,2018-03-29 Featuring a sweeping array of essays from scholars of state formation and development this book presents an overview of approaches to studying the history of the state Focusing on the question of state formation this volume takes a particular look at the beginnings structures and constant reforming of state power Not only do the contributors draw upon both modernist and postmodernist theoretical perspectives they also address the topic from a global standpoint examining states from all areas of the world In their diverse and thorough exploration of state building the authors cross the theoretical geographic and chronological boundaries that traditionally shape this field in order to rethink the customary macro and micro approaches to the study of state building and make the case for global histories of both pre modern and modern state formations *Power Relations and State Formation* Thomas Carl Patterson,1992 **Fields of Power, Forests of Discontent** Nora Haenn,2022-08-30 Enduring differences between protected areas and local people have produced few happy compromises but at the Calakmul Biosphere Reserve in the southern Mexican state of Campeche government agents and thousands of local people collaborated on an expansive program to alleviate these tensions a conservation development agenda that aimed to improve local people s standard of living while preserving natural resources Calakmul is home to numerous endangered species and raises a common question How can environmental managers and citizens reconcile competing ecological desires For a brief time in the 1990s collaborations at Calakmul were heralded as a vital example of melding local management forest conservation and economic development In *Fields of Power Forests of Discontent* Nora Haenn questions the rise and fall of this conservation program to examine conservation at the intersection of national international agendas and local political economic interests While other assessments of such programs have typically focused on why they do or do not succeed Haenn instead considers conservation s encounter with people s everyday lives and how those experiences affect environmental management Haenn explores conservation and development from two perspectives first regionally to look at how people used conservation to create a new governing entity on a tropical frontier once weakly under national rule then locally focusing on personal histories and aspects of community life that shape people s

daily lives farming practices and immersion in development programs even though those programs ultimately fail to resolve economic frustrations She identifies how key political actors social movements and identity politics contributed to the instability of the Calakmul alliance Drawing on extensive interviews with Reserve staff including its director she connects regional trends to village life through accounts of disputes at ejido meetings and the failure of ejido development projects In the face of continued difficulty in creating a popular conservation in Calakmul Haenn uses lessons from people s lives history livelihood village organization expectations to argue for a sustaining conservation one that integrates social justice and local political norms with a new more robust definition of conservation In this way *Fields of Power Forests of Discontent* goes beyond local ethnography to encourage creative discussion of conservation s impact on both land and people State Power Bob Jessop,2013-04-26 Bob Jessop presents an up to date account of his distinctive approach to the dialectics of structure and strategy in the exercise of state power While his earlier work critically surveys other state theories this book focuses on the development of his own strategic relational approach It introduces its main sources outlines its development applies this approach to four case studies and sketches a strategic relational research agenda Thus the book presents a comprehensive theoretical statement of the approach and guidelines for its application Key features of the book include an account of the authors theoretical development a review of recent developments in state theory and the cultural turn in political economy critical strategic relational re readings of major state theorists Marx on political representation Gramsci on the spatiality of state power Poulantzas on the state as a social relation and the later Foucault on statecraft applications of the strategic relational approach to important issues concerning the contemporary state its gendered selectivity the future of the national state the states temporal sovereignty and the relevance of multi scalar meta governance in Europe for the more general future of the state The book concludes with recommendations for future strategic relational research in political economy and state theory **Normative State Power in International Relations** Marjo Koivisto,2012-09-27 Normative State Power in International Relations offers a new theory of the role of scientific and moral cultures in state transformations in 20th century global politics Breaking down methodological nationalism and basing its case study findings in historical analysis it encompasses International Relations politics and political sociology *Michel Foucault, the State and the Social Sciences* Arnault Skornicki,2025-09-01 This book proposes an original reading of Foucault s political thought Far from setting aside the question of the State to focus on the relationships of power from below the Foucauldian approach offers a radical anti substantialist theory of the State Concepts such as biopolitics discipline pastoral power and governmentality serve as tools for understanding the statization of power relations Contrary to some of Foucault s own statements Skornicki highlights the elective affinities between genealogy and sociology which enable an in depth dialogue with Marxism Max Weber Norbert Elias Edward P Thompson among others Unexpectedly the analytics of power appears thereby as a corrosive and productive science of the State The author meticulously reconstructs drawing on Foucault s extensive body of work how

his famous microphysics of power fits into a broader genealogy of the modern State namely the processes of political monopolization that have shaped the so called Leviathan from the Middle Ages to the present The State thus emerges not as the coldest of all cold monsters nor simply as a vast apparatus of repression but rather as both the product and the agent of multiple governmentalities diverse rationalities and various religious tendencies ranging from the modern rule of law to totalitarianism and neoliberal bureaucracy This is not just a new book about Foucault It is a book about the State and the enduring possibility of theorizing it immersed once more in the caustic waters of genealogy

Everyday Practices of State Building in Ethiopia Davide Chinigò, 2022 This book revisits key debates about state formation and the role of state policies in shaping state society relations in Africa It provides a systematic discussion of the political events that led to the institutionalisation of the developmental state in Ethiopia in the course of the 2000s and 2010s

Novel Relations Ruth Perry, 2004-08-05 Ruth Perry describes the transformation of the English family as a function of several major social changes taking place in the eighteenth century including the development of a market economy and waged labor enclosure and the redistribution of land urbanization the rise of the middle class and the development of print culture In particular Perry traces the shift from a kinship orientation based on blood relations to a kinship axis constituted by conjugal ties as it is revealed in popular literature of the second half of the eighteenth century Perry focuses particularly on the effect these changes had on women's position in families She uses social history literary analysis and anthropological kinship theory to examine texts by Samuel Richardson Charlotte Lennox Henry MacKenzie Frances Burney Jane Austen and many others This important study by a leading eighteenth century scholar will be of interest to social and literary historians

Petitioning and Power Relations in Pre-Modern Eurasia David Zaret, 2025-08-05 Petitioning was the main route by which the agency of subjects engaged the authority of rulers Most studies explore it as a practice for sending requests to central and local representatives of state power in empires kingdoms and city states Yet the practice occurs in other fields of power for example in medieval papal governance seigneurial regimes and other types of lordship e g queenship Petition and response was the inverse twin to command and obey and just as inherent and indispensable for managing pre modern power relations Requests by petitioners were endlessly diverse Petitions were the universal request form for subjects who sought assistance with every conceivable problem or opportunity In addition to resolving conflicts with other subjects or officials there were requests for appointments promotions to higher positions or social ranks exemptions pardons privileges pensions salary increases charitable relief and more Some petitioners were docile and ingenuous others were ingenious even predatory petitioners whose initiatives reveal high levels of agency This is the first truly comparative analysis of pre modern petitioning across Eurasia Across a wide range of historical case studies and cutting against the grain of the dominant one dimensional social science perspective on pre modern power relations David Zaret shows petitioning in pre modern Eurasia to have been a dynamic tool of state and not as is often assumed merely an instrument of protest or imitation of religious prayer

Comparative study shows the practice to have been remarkably uniform and one whose ubiquity and prominence are astounding for its diverse socio cultural contexts there are Sumerian Akkadian and Aramaic petitions in ancient Mesopotamia demotic petitions in Egypt when Pharaohs ruled then Greek ones after imposition of Ptolemaic rule Other contexts for the practice include Zoroastrian Persia Hellenic and Roman cultures of benefaction Christianity Islam Daoism Confucianism and the syncretic mix of Shinto and Buddhism in Japan In so doing Zaret bridges literatures of two fields and makes important contributions to both historical research on petitioning which is often confined to case studies and theories of power relations arguably the most heavily plowed field in social theory to offer revisionist perspectives on the fluid nature of power and politics in the pre modern world The Routledge Handbook of the State in Premodern India Hermann Kulke, Bhairabi Prasad Sahu, 2022-01-13 This handbook presents a multilayered and multidimensional history of state formation in premodern India It explores dense and rich local and subregional historiography from the mid first millennium BC to the eighteenth century in South Asia Shifting the focus away from economic and political factors this handbook revises the conventional understanding of states and empires and locates them in their quotidian conduct and activity on socio cultural and concomitant factors Comprehensive in scope this handbook addresses a range of themes connected with the idea of state formation in the subcontinent It includes discussions and debates on ritual practices and the Brahmanical order in early India the Delhi Sultanate and role of Sultans among the Hindu kings the cosmopolitan Islamicate cultural influences on Puranic Hinduism cultural background of the Mughal state The handbook examines new questions and ideologies of state formation such as facets of violence and resistance the significance of the autonomous spaces and forests regional elites including Little kings tribal background of some famous cults trade and maritime commerce royal patronage courtly manners lineage formation imperial architecture monuments and temple among others Featuring case studies from different part of the India subcontinent and with contributions by renowned historians this authoritative handbook will be an indispensable reading for teachers scholars and students of early India medieval India premodern India South Asian history Asian history historiography economic history historical sociology and South Asia studies **State Formation** Christian Krohn-Hansen, Knut G. Nustad, 2005-09-20 What is the state and how can we best study it This book investigates new ways of analysing the state The contributors argue that the state is not a fixed and definite object Our perceptions of it are constantly changing and differ from person to person What is your idea of the state if you are a refugee Or if you are living in post apartheid South Africa Our perceptions are formed and sustained by evolving discourses and techniques these come from institutions such as government but are also made by communities and individuals The contributors examine how state structures are viewed from the inside by official state bodies composed of bureaucrats and politicians and how these state manifestations are supported reproduced or transformed at a local level An outline of theoretical approaches is followed by nine case studies ranging from South Africa to Peru to Norway With a good range of contributors including Cris Shore Clifton

Crais Ana Alonso and Bruce Kapferer this is a comprehensive critical analysis of anthropological approaches to the study of state formation

Social Theory and Regional Studies in the Global Age Saïd Amir Arjomand, 2014-05-21 A pioneering approach to social theory that rectifies overreliance on Western historical experience of development and modernization In this pioneering volume leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age Social Theory and Regional Studies in the Global Age moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities Different patterns of modernization are compared within the framework of global local compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory

Mesoamerican Plazas Kenichiro Tsukamoto, Takeshi Inomata, 2014-04-10 This is the first book to examine the roles of plazas in ancient Mesoamerica It argues persuasively that physical interactions among people in communal events were not the outcomes of political machinations held behind the scenes but were the actual political processes through which people created negotiated and subverted social realities
