Snyder, 2010-05-11 Why do some people lead positive hope filled lives while others wallow in pessimism In The Psychology of Hope a professor of psychology reveals the specific character traits that produce highly hopeful individuals He offers a test to measure one s level of optimism and gives specific advice on how to become a more hopeful person Cancer Saved My Life Lois Berry, 2000-11 This book is the result of my desire to share what I learned from the experience of surviving breast cancer that metastasized to the bone The changes I made in my life as the result of this illness have led to a happier healthier and more productive life in so many ways I have attained an inner peace that I never had before I made lifestyle changes such as diet but more importantly I learned how to deal with stress and my spiritual life continues to grow I can truly say that cancer enriched my life Over the years I have counseled with many patients as they struggle with this dreaded disease My hope is that by putting my thoughts in book form it will be helpful to a wider audience All of us need help on our journey through life It can be one of anger bitterness despair and self pity or it can be a life of joy forgiveness of reaching out to others with love and gratitude for our blessings The Doctor Who Dared to Be Different Lois Berry, 2001-06-17 This book is the story of a remarkable doctor Glenn Warner He was a pioneer in the use of immunotherapy to treat his cancer patients and the absolute conviction that wellness is achieved by treating the whole person It was a concept unacceptable to some in the medical community and they carried on a relentless campaign to deny him his license to practice medicine More and more what he believed is being accepted by both patients and doctors Eventually I believe he will be completely vindicated The Power Within Wendy Williams, 1990 Williams traveled across the country to meet patients who refused to accept their prognoses She presents the inspirational true stories of how they fought back and tapped into the mind body connection to live fuller lives The Power Within Robert Williams, Wendy Williams, 1991-03-18 A Decade of Change and Continuity in Midlife Gaylene Carpenter, Jean Stockard, 2020-06-23 Each year for ten uninterrupted years a group of middle aged adults told researchers about their wants and desires their life stresses and strains their sources of happiness and joy and their perspectives on how their lives were or were not changing This book summarizes the results of this unique and unprecedented study Using extensive statistical analyses and qualitative case studies it documents change and consistency in participants core values and perceptions of leisure It describes the vast range of experiences people had each year in areas ranging from changing social relationships to employment and health and examines how these experiences affected their lives and their views of their life structure looking at both variations over time for individual participants and differences from one participant to
