Power And Politics In The City:

Conflict, Power and Politics in the City Kevin R. Cox, 1973 **Power and Politics in the City** Janice Caulfield, John Wanna, 1995 This study of community power in Brisbane analyses the challenges posed by growth and the shifting of the balance of power from the country to the city Consists of a series of case studies focusing on discrete policy issues and key areas and exploring topics such as relations between state and city governments and between public and private sectors and their impact on the Brisbane community Caulfield is a lecturer in public administration at the University of Queensland and Wanna is a senior lecturer in politics and public policy at Griffith University Property, Power and Politics Jean-Philippe Robé, 2020-10-05 Globalization is an extraordinary phenomenon affecting virtually everything in our lives And it is imperative that we understand the operation of economic power in a globalized world if we are to address the most challenging issues our world is facing today from climate change to world hunger and poverty This revolutionary work rethinks globalization as a power system feeding from and in competition with the state system Cutting across disciplines of law politics and economics it explores how multinational enterprises morphed into world political organisations with global reach and power but without the corresponding responsibilities In illuminating how the concentration of property rights within corporations has led to the rejection of democracy as an ineffective system of government and to the rise in inequality Rob offers a clear pathway to a fairer and more sustainable power system **Football, Power, and Politics in Argentina** Eugenio Paradiso, 2024-04-10 This book examines the interplay between football politics violence passion and morality in Argentina Drawing on original ethnographic research it considers the role of fans club officials politicians and others in the spread and perpetuation of corruption and violence within football and in wider Argentinian society Argentina's triumph in the 2022 World Cup brought millions onto the streets of Buenos Aires in celebration but this book argues that beneath the veneer of sporting success lie networks of power and practices that have naturalized corruption and violence within Argentinian football and by extension in Argentinian society as a whole It shows how the actions of club officials politicians barras groups of organized violent fans and the police which together represent a system of clientelism exemplify in the world of football the system of organized chaos that habitually defines Argentinian politics With the barras given licence to engage in violent behaviours linked not only to sporting passion but also to economic and political interests this book argues that football politics and violence have become entangled in a web of social relations that illustrate Argentina's struggle to break the vicious cycle of corruption and impunity Shining new light on the significance of sport in wider society and the centrality of football in one of the world's greatest footballing nations this book is essential reading for anybody with an interest in the anthropology sociology politics or history of sport or in political science corruption or Latin American studies Women, Power, and Politics Lori Cox Han, Caroline Heldman, 2018 This textbook provides a comprehensive assessment of women in American politics as participants candidates and office holders as well as important public policies that affect women in their

Power and City Governance Alan DiGaetano, 1999 **Transport, Transgression and Politics in African Cities** Daniel Agbibo, 2018-09-03

This collection of field-based case studies examines the role and contributions of Africa's informal public transport, also referred to as paratransit, to the production of city forms and urban economies, as well as the voices, experiences, and survival tactics of its poor and stigmatised workforce. With attention to the question of what a micro-level analysis of the organisation and politics of informal public transport in urbanizing Africa might tell us about the precarious existence and agency of its informal workforce, it explores the political and socio-economic conditions of contemporary African cities spanning from Nairobi and Dar es Salaam to Harare, Cape Town, Kinshasa, and Lagos. Mapping, analysing, and comparing the everyday experiences of informal transport operators across the continent, this book sheds light on the multiple challenges facing Africa's informal transport workers today as they negotiate the contours of city life, expand their horizons of possibility, and make the most of their time. It thus offers directions for more effective policy response to urban public transport, which is changing fundamentally and rapidly in light of neoliberal urban planning strategies and World Class city ambitions.

Power and Party in an English City David G. Green, 2013-06-17

Power and Party in an English City provides an account of how decisions are taken by the state at the level of locality. More specifically, it is an account of the private policy-making activities of a ruling Labour group of councillors in the major English city of Newcastle Upon Tyne. Despite the fact that local government in most of the towns and cities of England is one-party government, very little is known about the private behaviour of ruling party groups. In this book, David Green provides a penetrating empirical study of the realities of local government. The author seeks to examine and analyse the importance of party discipline, the relationship between the Labour group of councillors and the party outside the council, the power of the committee chairmen, the role of

local patronage and the openness of the local policy making process The government of Newcastle is perhaps the most closely association in the public mind with T Dan Smith the corrupt local politician In fact Smith had left local politics in Newcastle in teh mid 1960s How was the city being run a decade or so later This study is however much more than an inside view of the affairs of a single authority The last part of the book is devoted to a discussion of aspects of some traditional and modern theories of democracy and specifically to what author sees as the inadequate advocacy of participatory democracy in recent years Green makes a major contribution to our thinking about the kind of democracy that is possible in modern large scale societies explores weaknesses of moder theories and puts forward some original modifications to modern democratic theory in the light of a theory of knowledge which is seen as more appropriate for modern natural and social scientific activity This book was first published in 1981

City Power Richard Schragger,2016-09-01 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard Schragger challenges this conventional wisdom arguing that cities can and should pursue aims other

than making themselves attractive to global capital Using the municipal living wage movement as an example Schragger explains why cities are well positioned to address issues like income equality and how our institutions can be designed to allow them to do so People and Politics in Urban America, Second Edition Robert W.
