Power And The Nation In European History:

Power and the Nation in European History Len Scales, Oliver Zimmer, 2005-06-09 Few would doubt the central importance of the nation in the making and unmaking of modern political communities The long history of the nation as a concept and as a name for various sorts of imagined community likewise commands such acceptance But when did the nation first become a fundamental political factor This is a question which has been and continues to be far more sharply contested A deep rift still separates modernist perspectives which view the political nation as a phenomenon limited to modern industrialised societies from the views of scholars concerned with the pre industrial world who insist often vehemently that nations were central to pre modern political life also This book engages with these questions by drawing on the expertise of leading medieval early modern and modern historians

Power and the Nation in European History Len Scales, Oliver Zimmer, 2005 Few would doubt the central importance of the nation in the making and unmaking of modern political communities But when did the nation first become a fundamental political factor This book breathes new life into the scholarly debate surrounding the formation of nations and nationalism in European history *Power and the Nation in European History* Len Scales, Oliver Zimmer, 2005 Few would doubt the central importance of the nation in the making and unmaking of modern political communities But when did the nation first become a fundamental political factor This book breathes new life into the scholarly debate surrounding the formation of nations and nationalism in European history

Nations Azar Gat, Alexander Yakobson, 2013 A groundbreaking study of the foundations of nationalism exposing its antiquity strong links with ethnicity and roots in human nature East Asian International Relations in History Kyu-hyun Jo, 2024-08-28 This book provides a sweeping overview of East Asian international relations in history from the nineteenth century onwards with a focus on Korea and its relationship with East Asia and the USA In contrast with many books which concentrate exclusively on the twentieth century this book offers a long term perspective on modernity and modernization in East Asia It addresses the tributary system the Meiji Restoration Japanese imperialism in East Asia and the Cold War in East Asia It also incorporates the First and Second Indochina Wars from Vietnam s perspective and expands the geographical scope of East Asia beyond the traditional framework of Korea Japan and China The book begins with the tributary system as a starting point of East Asian modernity in contrast to the old view that the tributary system was not a modern system It rejects the idea that Japan was modernizing while Korea remained stagnant and shows why Japanese colonialism continues to be controversial and problematic Through the book s emphasis on Vietnam s perspective of the Indochina Wars it places much value on nationalism anti imperialism and decolonization as forces of modernity and modernization Relevant to scholars and students in history international relations and East Asian studies more broadly the book brings with it a novel fresh and innovative approach to East Asian history *War in European History* Michael Howard, 2009 An updated edition of Michael Howard s classic history of war in European history from medieval times to the 21st century showing how the changing face

of war has shaped the wider course of the continent's history over the last millennium

Soft Power Beyond the Nation Sylvia Dummer Scheel, Charlotte Faucher, Camila Gatica Mizala, 2024 This edited volume takes a distinct approach to the study of soft power in history moving beyond the framework of the nation state The editors of this volume use soft power as a broad label to refer to the processes through which persuasion the search for influence and power and public opinion as an actor in foreign affairs converge in the international arena The book has been organized around three central themes the circulation of knowledge and strategies across borders collaboration of intermediary actors who have their own agencies and interests and non national identities such as gender and race The book also broadens the typical temporal and geographic understanding of soft power starting in the nineteenth century and including cases from the Global South It argues that the pursuit of soft power has been a global phenomenon including regions that have been neglected in the general debates on the subject such as Africa Asia and Latin America These arguments and themes are explored through ten chapters that offer a powerful new interdisciplinary perspective on soft power for scholars and students of history and international relations

Sea Power Charles Hall (H.), 1916

Europe as the Would-be World Power Giandomenico Majone, 2009-07-23 For fifty years European integration has been pursued according to an operational code based on rules which have never been publicly discussed This book demonstrates the far reaching consequences of the prioritisation of integration over competing values *fait accompli* and other implicit rules of action The willingness to sacrifice democracy on the altar of integration is demonstrated by the monopoly of legislative initiative granted to the non elected Commission Monetary union preceding rather than following political integration is a striking example of *fait accompli* and the reason behind many holes in the EU system of economic governance Until now academics have avoided radical criticism Giandomenico Majone argues that only an open acknowledgement of the obsolescence of the traditional methods can stem the rising tide of Euro scepticism

Movements in European History D. H. Lawrence,2020-05-21 The celebrated novelist and poet presents a vivid history of Europe from Ancient Rome to the early 20thcentury in this restored authoritative edition Though D H Lawrence was one of the great writers of the twentieth century his works were severely corrupted by the stringent house styling of printers and the intrusive editing of timid publishers A team of scholars at

Cambridge University Press has worked for more than thirty years to restore the definitive texts of D H Lawrence in The Cambridge Editions In 1918 a publisher at Oxford University Press approached D H Lawrence with the proposition of writing a textbook on European history A great lover of history Lawrence presents a lively narrative of European civilizations from the fall of Ancient Rome to the unification of Germany in the early twentieth century This edition restores Lawrence s original text which had been censored before publication It also identifies and analyzes Lawrence s methods of using the sourcebooks on which his writing was based

States and Nations, Power and Civility Francesco G. Duina,2019-01-01 Civility in national and international politics is under siege In this volume twelve distinguished sociologists and historians from North America Europe and China reflect on the nature and preservation of civility in and between nation states and empires in a set of geographically and historically wide ranging chapters Civility protects individual self determination and expression promotes productive economic activity and wealth and is central to political stability and peace within and across political communities Yet power always concentrated and endemic in nation states and imperial settings poses great risks to civility Guided by the perspective of John A Hall who has done more to identify and investigate the intricate relationships between states nations the power they hold and civility than any other contemporary social scientist States and Nations Power and Civility offers a set of crisp in depth investigations regarding the specific mechanisms of civility and how it may be protected
