## **Power Of Passion:**

Shakespeare's Tragic Heroes Slaves of Passion Lily Bess Campbell,1930      The Mechanics of Passion Alain Ehrenberg,2020-09-23 Cognitive neuroscience once a specialized area of psychology and biology has enjoyed increased worldwide legitimacy in the last thirty years not only in psychiatry and mental health but also in fields as diverse as education economics marketing and law How can this surge in popularity be explained Has the new science of human behaviour now become the barometer of our conduct and our lives taking the place previously occupied by psychoanalysis Rather than asking if neuronal man will replace social man or how to surmount the opposition between the biological and the social The Mechanics of Passions uncovers hidden relationships between global social ideals and specialized concepts of neuroscience and cognitive science Proposing a historical sociology situated in the dual contexts of the history of sciences and the history of self representation Alain Ehrenberg describes the conditions through which cognitive neuroscience has developed and acquired a strong moral authority in our individualistic society permeated by ideas values and norms of autonomy Cognitive neuroscience offers the promise of turning personal limitations into assets by exploring an individual s hidden potential The Mechanics of Passions identifies this as the echo of social ideals of autonomy affirming that the moral authority of cognitive neuroscience stems as much from cultural norms as from any results of scientific or medical experimentation      **An Essay on the Expression of Passion in Oratory** Henry Philip Tappan,1848      **The Psychology of Passion** Dr Robert J. Vallerand,2015-05-01 Winner of the 2017 APA William James Book Award The concept of passion is one we regularly use to describe our interests and yet there is no broad theory that can explain the development and consequences of passion for activities across people s lives In The Psychology of Passion Robert J Vallerand presents the first such theory providing a complete presentation of the Dualistic Model of Passion and the empirical evidence that supports it Vallerand conceives of two types of passion harmonious passion which remains under the person s control and obsessive passion which controls the person While the first typically leads to adaptive behaviors the obsessive form of passion leads to less adaptive and at times maladaptive behaviors Vallerand highlights the effects of these two types of passion on a number of psychological phenomena such as cognition emotions performance relationships aggression and violence He also discusses the development of passion and reviews a range of literature on passion for activities      A Woman of Passion Julia Briggs,2000-11-07 In A Woman of Passion Julia Briggs chronicles the life of author Edith Nesbit who is credited with being the first modern writer for children and the creator of the children s adventure story Nesbit recorded her life with varying degrees of honesty in verse and prose and while she seldom wrote entirely openly of her own experiences she seldom wrote convincingly of anything else In this fascinating read Julia Briggs attempts to fill in the gaps of Nesbit s autobiographical material painting an intriguing portrait of the famous author      **Trials of Passion** Lisa Appignanesi,2015-07-15 A journey into the heart of dark passions and the crimes they impel When passion is in the picture what is criminal what is sane what is

mad or simply bad Through court and asylum records letters and newspaper accounts this book brings to life some sensational trials between 1870 and 1914 a period when the psychiatric professions were consolidating their hold on our understanding of what is human Outside fiction individual emotions and the inner life had rarely been publicly discussed now in an increasingly popular press and its courtroom reports people avidly consumed accounts of transgressive sexuality savage jealousy and forbidden desires These stood revealed as aspects not only of those labelled mad but potentially of everyone With great story telling flair and a wealth of historical detail Lisa Appignanesi teases out the vagaries of passion and the clashes between the law and the clinic as they stumble towards a sometimes reviled collaboration Sexual etiquette and class roles attitudes to love madness and gender notions of respectability and honor insanity and lunacy all are at play in that vital forum in which public opinion is shaped the theater of the courtroom
