The Power of Religion Amanda Porterfield, 1998 Genuinely accessible to undergraduates and general readers it shows how various forms of these traditions are lived out in practice experience and community presenting religions as conceivable ways of living and demonstrating how religious beliefs are integrally related to other aspects of life Many chapters open with a description of a particular religious event or act that one might encounter today in the United States where virtually all of the world's religions are now being practiced The author discusses several of the historical developments each religion has undergone and considers how each of the religions has changed in response to the climate of religious exchange and religious pluralism that exists in the United States today Prince, Pen, and Sword: Eurasian Perspectives Maaïke van Berckel, Jeroen Duindam, 2018-01-22 Prince Pen and Sword offers a synoptic interpretation of rulers and elites in Eurasia from the fourteenth to the eighteenth century Four core chapters zoom in on the tensions and connections at court on the nexus between rulers and religious authority on the status function and self-perceptions of military and administrative elites respectively Two additional concise chapters provide a focused analysis of the construction of specific dynasties the Golden Horde and the Habsburgs and narratives of kingship found in fiction throughout Eurasia The contributors and editors

Digital Hinduism Murali Balaji, 2017-11-01 This edited volume seeks to build a scholarly discourse about how Hinduism is being defined, reformed, and rearticulated in the digital era and how these changes are impacting the way Hindus view their own religious identities. It seeks to interrogate how digital Hinduism has been shaped in response to the dominant framing of the religion, which has often relied on postcolonial narratives devoid of context and an overemphasis on the geopolitics of the Indian subcontinent post partition. From this perspective, this volume challenges previous frameworks of how Hinduism has been studied, particularly in the West, where Marxist and Orientalist approaches are often ill-fitting paradigms to understanding Hinduism. This volume engages with and critiques some of these approaches while also enriching existing models of research within media studies, ethnography, cultural studies, and religion.

**European Family Law Volume I** Jens M. Scherpe, 2016-01-29 *The Impact of Institutions and Organisations on European Family Law* looks at the impact that institutions and organisations have had and continue to have on European family law. In many ways, the chapters in this volume provide the easiest explanation for the existence of a European family law. While there is no European body that could actually legislate definitively on family law, even the European Union has no such mandate; there are still some obvious institutions that have a very direct impact on European family law. These can be divided into two groups: namely, those that have a direct impact, such as the European Court of Human Rights and the European Union, and those that have an indirect impact, such as the Commission on European Family Law (CEFL), the Council of Europe, and the International Commission on Civil Status (ICCL/CIEC), as well as the private international law instruments of the Hague Conference (HCCH) and the EU. Together with religion, all of these institutions are contributing to the creation of a European family law. This book and the others in the set will serve as an invaluable resource for anyone interested in family law. It will be of particular use to students and scholars of comparative and international family law, as well as family law practitioners.
