## **Power Sharing:**

*Power-Sharing* Allison McCulloch, John McGarry, 2017-04-21 Power sharing is an important political strategy for managing protracted conflicts and it can also facilitate the democratic accommodation of difference. Despite these benefits it has been much criticised with claims that it is unable to produce peace and stability is ineffective and inefficient and obstructs other peacebuilding values including gender equality. This edited collection aims to enhance our understanding of the utility of power sharing in deeply divided places by subjecting power sharing theory and practice to empirical and normative analysis and critique. Its overarching questions are: Do power sharing arrangements enhance stability, peace and cooperation in divided societies? Do they do so in ways that promote effective governance? Do they do so in ways that promote justice, fairness and democracy? Utilising a broad range of global empirical case studies it provides a space for dialogue between leading and emerging scholars on the normative questions surrounding power sharing. Distinctively it asks proponents of power sharing to think critically about its weaknesses. This text will be of interest to students, scholars and practitioners of power sharing, ethnic politics, democracy and democratization, peacebuilding, comparative constitutional design and more broadly Comparative Politics, International Relations and Constitutional and Comparative Law. *Religion, Violence, and Local Power-Sharing in Nigeria* Laura Thaut Vinson, 2017-10-26 Why does religion become a fault line of communal violence in some pluralistic countries and not others? Under what conditions will religious identity as opposed to other salient ethnic cleavages become the spark that ignites communal violence? Contemporary world politics since 9/11 is increasingly marked by intra-state communal clashes in which religious identity is the main fault line. Yet violence erupts only in some religiously pluralistic countries and only in some parts of those countries. This study argues that prominent theories in the study of civil conflict cannot adequately account for the variation in subnational identity-based violence. Examining this variation in the context of Nigeria's pluralistic north-central region, this book finds support for a new theory of power sharing. It finds that communities are less likely to fall prey to a divisive narrative of religious difference where local leaders informally agreed to abide by an inclusive local government power sharing arrangement. **Power Sharing in Deeply**

**Divided Places** Joanne McEvoy, Brendan O'Leary, 2013-04-22 Power sharing may be broadly defined as any set of arrangements that prevents one political agency or collective from monopolizing power, whether temporarily or permanently. Ideally such measures promote inclusiveness or at least the coexistence of divergent cultures within a state. In places deeply divided by national, ethnic, linguistic or religious conflict, power sharing is the standard prescription for reconciling antagonistic groups, particularly where genocide, expulsion or coerced assimilation threaten the lives and rights of minority peoples. In recent history the success record of this measure is mixed. *Power Sharing in Deeply Divided Places* features fifteen analytical studies of power sharing systems past and present as well as critical evaluations of the role of electoral systems and courts in their implementation. Interdisciplinary and international in formation and execution, the chapters encompass

divided cities such as Belfast Jerusalem Kirkuk and Sarajevo and divided places such as Belgium Israel Palestine Northern Ireland and South Africa as well as the Holy Roman Empire the Saffavid Empire Aceh in Indonesia and the European Union Equally suitable for specialists teachers and students Power Sharing in Deeply Divided Places considers the merits and defects of an array of variant systems and provides explanations of their emergence maintenance and failings some essays offer lucid proposals targeted at particular places While this volume does not presume that power sharing is a panacea for social reconciliation it does suggest how it can help foster peace and democracy in conflict torn countries Contributors Liam Anderson Florian Bieber Scott A Bollens Benjamin Braude Ed Cairns Randall Collins Kris Deschouwer Bernard Grofman Colin Irwin Samuel Issacharoff Allison McCulloch Joanne McEvoy Brendan O Leary Philippe van Parijs Alfred Stepan Ronald Wintrobe

**Power-Sharing and Political Stability in Deeply Divided Societies** Allison McCulloch, 2014-06-05 Nearly all the peace accords signed in the last two decades have included power sharing in one form or another The notion of both majority and minority segments co operating for the purposes of political stability has informed both international policy prescriptions for post conflict zones and home grown power sharing pacts across the globe This book examines the effect of power sharing forms of governance in bringing about political stability amid deep divisions It is the first major comparison of two power sharing designs consociationalism and centripetalism and it assesses a number of cases central to the debate including Nigeria Sri Lanka Fiji Bosnia and Herzegovina Burundi and Northern Ireland Drawing on information from a variety of sources such as political party manifestoes and websites media coverage think tank reports and election results the author reaches significant conclusions about power sharing as an invaluable conflict management device This text will be of key interest to students and scholars of ethnic conflict management power sharing ethnic politics democracy and democratization comparative constitutional design comparative politics intervention and peace building

**Power-Sharing in Conflict-Ridden Societies** Nils A. Butenschøn, Øyvind Stiansen, Kåre Volla, 2016-03-03 Based on a

unique comparative study of Burundi Rwanda Ethiopia Lebanon Bosnia Herzegovina Nepal Myanmar the Philippines and Fiji this book analyses the formal and informal arrangements defining the post conflict political order in these countries and evaluates whether these systems strengthened or weakened the chances of establishing sustainable peace and lasting democracy What can be learned from these cases Each country has its unique history but they are faced with comparable challenges and dilemmas in building a democratic future Which solutions seem to contribute to democratic stability and which do not These questions are discussed in light of theoretical literature case studies and field interviews with the authors concluding that systems based on proportional representation offered the best prospects for including diverse and conflicting identities and building unified political systems The book is of particular interest to students of democracy and peace building academics as well as decision makers and practitioners in the field

*India's Living Constitution* Zoya Hasan, Eswaran Sridharan, R. Sudarshan, 2005 India became independent in 1947 and after nearly three years of debate in the Constituent Assembly adopted a Constitution that came into effect on 26 January 1950 This Constitution has lasted until the present with its basic structure unaltered a remarkable achievement given that the generally accepted prerequisites for democratic stability did not exist and do not exist even today Half a century of constitutional democracy is something that political scientists and legal scholars need to analyze and explain This volume examines the career of constitutional political ideas implicitly of Western origin in the text of the Indian Constitution or implicit within it as well as in actual political practice in the country over the past half century

Consociational Power-Sharing in Northern Ireland Timofey Agarin, Rupert Taylor, 2025-09-12 Consociational Power Sharing in Northern Ireland from leading scholars in the field explores the evolution and challenges of consociational power sharing in Northern Ireland for politics and societal relations Contributors to this book highlight that scholarship on consociational democracy anticipates political stability and continuous integration in post conflict societies However over 25 years on from the Good Friday Agreement concerns remain about the adequacy of consociational power sharing to ensure a fully functional form of government capable of providing stability and of addressing deeper political and social issues While violence is absent ethno national identities remain in a state of a fragile equilibrium and aspirations for significant progress on key issues like truth justice mutual respect and socio political inclusion have not been met The reasons as to why this is so and what can be done to rectify it are central to the arguments that animate this timely book Consociational Power Sharing in Northern Ireland will be of great interest to students and scholars in political science law and constitutionalism nationalism and ethnicity and those interested in related topics in sociology and criminology It will also appeal to practitioner communities related to power sharing political representation and constitutional politics

Power Sharing and Democracy in Post-Civil War States Caroline A. Hartzell, Matthew Hoddie, 2020-06-11 Power Sharing and Democracy in Post Civil War States examines the challenge of promoting democracy in the aftermath of civil war Hartzell and Hoddie argue that minimalist democracy is the most realistic form of democracy to

which states emerging from civil war violence can aspire The adoption of power sharing institutions within civil war settlements helps mitigate insecurity and facilitate democracy s emergence Power sharing promotes democratization from above by limiting the capacity of the state to engage in predatory behavior and democratization from below by empowering citizens to participate in politics Drawing on cross national and case study evidence Hartzell and Hoddie find that post civil war countries that adopt extensive power sharing are ultimately more successful in transitioning to minimalist democracy than countries that do not Power Sharing and Democracy in Post Civil War States presents a new and hopeful understanding of what democracy can look like and how it can be fostered

**Encyclopedia of Governance** Mark Bevir, 2007      **Lawyering Peace** Paul R.
