Power Surge Sex Violence And Pornography:

Power Surge Susan G. Cole, 1995 Collection of author's papers and articles **Gay Male Pornography** Christopher N. Kendall, 2004 The 2000 case of *Little Sisters Book and Art Emporium v Customs Canada* provided Canada's highest court with its first opportunity to consider whether the analysis set out in *R v Butler* in which the Supreme Court identified pornography as an issue of sex discrimination applies to pornography intended for a lesbian or gay male audience. The Court held that it did, finding that like heterosexual pornography, same sex pornography also violates the sex equality interests of all Canadians. Christopher Kendall supports this finding, arguing that gay male pornography reinforces those social attitudes that create systemic inequality on the basis of sex and sexual orientation: misogyny and homophobia alike, by sexually conditioning gay men to those attitudes and practices. The author contends that as a result of litigation efforts like those brought by lesbian and gay activists in the *Little Sisters* case, the notion of empowerment and the rejection of those values that daily result in all that is anti-gay have been replaced with a misguided community ethic and identity politics that encourages inequality. This is best exemplified in the gay male pornography defended in *Little Sisters* as liberation and central to sexual freedom. Gay Male Pornography rejects the equality claims of gay male pro-pornography advocates and argues that there is little to be gained from sexualized conformity. To date, no one has taken the position that gay male pornography violates the legal right to sex equality. This book does that, and as such, it will be of value to scholars of law, sociology, and gender studies, as well as to all who have an interest in equality and justice.

Penetrating Language Georg Marko, 2008-04-23 The study presented in this book is a corpus based Critical Discourse Analysis of pornography In its critical spirit it focuses on the socially contested question whether pornography makes its consumers objectify humans and in particular women in their thinking Objectification is divided into fragmentation reducing people to their body parts physicalization and visualization conceptualizing people primarily in terms of physical and visual features desubjectification ignoring some people's perspectives and passivization thinking of people as passive participants in events To study objectification the study in its discourse analytical orientation qualitatively and quantitatively analyses a corpus of pornographic short stories partly in comparison with a corpus of erotica It concentrates on linguistic details supposed to contribute to the creation and maintenance of the four conceptualizations mentioned e g the frequencies and lexical variation of lexemes for body parts fragmentation and of adjectival and nominal descriptors physicalization and visualization thematic elements desubjectification or semantic role patterns in verbs for intercourse passivization The conclusion of the analyses is that pornography can be considered to objectify women in the sense of fragmenting passivizing and physicalizing and visualizing them Apart from passivization the differences between women and men however are not extreme suggesting that objectification extends to men even though in a patriarchal culture the discriminatory social effects will apply more severely to women than to men As for desubjectification denying women their subjectivity does not seem to be an essential component of pornography's objectification The study does not only add a valuable perspective to the ongoing debate on the effects of pornography but in combining the usually qualitatively oriented views of Critical Discourse Analysis with the quantitative methods of corpus analysis it also takes an innovative methodological path highlighting the great benefits but also the risks and limitations of such an approach From the contents
