Power to the West! Mario Gomez-Zimmerman,1997-01-01 **The Publishers' Trade List Annual** ,1998 **Right, Power, and Faquanism** Zhiwei Tong,2018-08-13 In Right Power and Faquanism Tong Zhiwei proposes that right and power are ultimately a unified entity which can be named faquan and that the purpose of law should be to establish a balanced faquan structure and to promote its preservation and proliferation Faquan is thus a jurisprudential category reflecting the understanding of the unity of right and power It has interest protected by the law and property with defined ownership as its content and manifests itself as the external forms of jural right freedom liberty jural power public function authority competence privilege and immunity etc Faquanism relies mainly on six basic concepts faquan right power quan residual quan and duty to analyze the content of interests and property in all legal phenomena Forthcoming Books Rose Arny,1994-04
Books in Print ,1994 From Rechtsstaat to Universal Law-State Åke Frändberg,2014-07-03 In this book the author investigates what is common to the German idea of the Rechtsstaat and the Anglo American idea of the Rule of Law He argues that although dressed up in rather different garb these two concepts are in fact based on the same fundamental idea and stand for the same values the law state values all ideas that are in the European tradition older than their British and German variants The fundamental idea is that the individual shall enjoy legal protection against infringements brought about by the exercise of power on the part of the state In the book basic concepts such as legality legal equality legal certainty legal accessibility and legal security are investigated Also explored are their mutual relations in particular conflicts between them Furthermore the book offers practical advice on realising and sustaining these values in practice Finally it is argued that the characteristic law state values can only be justified by reference to an even more fundamental humanistic idea namely what the author calls a life of human dignity *History of the Jews: From the Roman Empire to the early medieval period* Simon Dubnow,1967 **history of the jews** Paul Johnson,1987 **History of the Jews** Simon Dubnov,Moshe Spiegel,1980-12-31

Neoliberalism 2.0: Regulating and Financing Globalizing Markets L. Nijs, 2016-01-26 In today s increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2 0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimation of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and

the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2 0 demonstrates the ability to design a paradigm changing alternative to the current tax infrastructure while taking into account a low economic growth environment of the future the implications of globalization and the changing relationship between citizens and their state Scandinavian Journal of Development Alternatives ,1992
