Supercharge Your Memory! Corinne L. Gediman, Francis M. Crinella, 2008. Contains over one hundred exercises designed to help people combat the effects of aging on the brain and includes an answer key. Mind Flight Tom Lombardo, Jeanne Belisle Lombardo, 2011-09-06. With great honesty and both drama and romance, *Mind Flight* weaves together personal narrative and intellectual odyssey, taking readers along on the author's pursuit of wisdom and enlightenment, his search for love, and his quest for an inspiring vision of the future. Encyclopedic in scope, the book pulls together Plato, Freud, Spinoza, Nietzsche, and other epochal historical figures with Pink Floyd, the Hippies, the Sexual Revolution, *A Clockwork Orange*, the Yin Yang, the madhouse world of mental health, and the fantastical visions of science fiction. What results in this grand saga is not only a chronicle of one man's journey from industrial middle-class America, where weightlifting and fist fighting define virtue and value, to the philosophical life in the mystical expanse of the Southwest, but a profound exploration of the archetypal themes of order and chaos, good and evil, truth and beauty, passion and reason, and science and God. *Mind Flight* draws the reader into the vast wonders and possibilities of the future and is a stunning example of living the examined life.
