Powers Of The Secular Modern Talal Asad And His Interlocutors:

Powers of the Secular Modern David Scott, Charles Hirschkind, 2006 This book presents a set of critical engagements by writers from a variety of disciplines with the work of noted anthropologist Talal Asad **Revisiting Secularism in Theory and Practice** Seda Ünsar, Özgür Ünal Eriş, 2020-02-21 This book offers a philosophical and macro historical analysis of secularism supported by an investigation of various contemporary cases Starting with an in depth theoretical discussion of the meaning of secularism it subsequently presents a historical study on the secularization of norms and identities in Europe The respective case studies cover topics such as the epistemologies of secularism liberalization and embedded secularism the relationship between modernity and secularism the socio anthropology of secularism Turkish modernization as a cultural revolution the political economy of secularism in Turkey and the secular rationale of the EU neighborhood policy The Politics of Secularism in International Relations Elizabeth Shakman Hurd, 2009-01-10 Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences **Secularism in the Arab World** al-Azmeh Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al Azmeh s seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992 Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based

on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the theme from the vantage point of social political and intellectual issues of relevance today

Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology

Rethinking the Secular Origins of the Novel Kevin Seidel, 2021-03-25 Challenging concepts of religion and secularism this book shows the English novel rising with the English Bible not after it

Pious Practice and Secular Constraints Jeanette S Jouili, 2023-05-25 This chronicle of observant Muslim women s daily challenges in secular settings is a welcome contribution that can be useful in many disciplines Journal of Church and State The visible increase in religious practice among young European born Muslims has provoked public anxiety Now government regulations seek not only to restrict Islamic practices within the public sphere but also to shape Muslims and especially women s personal conduct Pious Practice and Secular Constraints chronicles the everyday ethical struggles of women active in orthodox and socially conservative Islamic revival circles as they are torn between their quest for a pious lifestyle and their aspirations to counter negative representations of Muslims within the mainstream society Jeanette S Jouili

conducted fieldwork in France and Germany to investigate how pious Muslim women grapple with religious expression for example when to wear a headscarf where to pray throughout the day and how to maintain modest interactions between men and women Her analysis stresses the various ethical dilemmas the women confronted in negotiating these religious duties within a secular public sphere In conversation with Islamic and Western thinkers Jouili teases out the important ethical political implications of these struggles ultimately arguing that Muslim moral agency surprisingly reinvigorated rather than hampered by the increasingly hostile climate in Europe encourages us to think about the contribution of non secular civic virtues for shaping a pluralist society Jeanette Jouili s book will be of great interest to scholars working on theories of modernity orthodoxy citizenship gender space and ethics It will be a superlative teaching aid for classes in anthropology sociology women s and gender studies urban studies philosophy comparative religion and more American Ethnologist

The Mercenary Mediterranean Hussein Fancy, 2016-03-22 Sometime in April 1285 five Muslim horsemen crossed from the Islamic kingdom of Granada into the realms of the Christian Crown of Aragon to meet with the king of Aragon who showered them with gifts including sumptuous cloth and decorative saddles for agreeing to enter the Crown s service They were not the first or only Muslim soldiers to do so Over the course of the thirteenth and fourteenth centuries the Christian kings of Aragon recruited thousands of foreign Muslim soldiers to serve in their armies and as members of their royal courts Based on extensive research in Arabic Latin and Romance sources *The Mercenary Mediterranean* explores this little known and misunderstood history Far from marking the triumph of toleration Hussein Fancy argues the alliance of Christian kings and Muslim soldiers depended on and reproduced ideas of religious difference Their shared history represents a unique opportunity to reconsider the relation of medieval religion to politics and to demonstrate how modern assumptions about this relationship have impeded our understanding of both past and present *Modern Egyptian Women, Fashion and Faith*

Amany Abdelrazek-Alsiefy, 2023-11-03 This book discusses Egyptian Muslim women s dress as the social political and ideological signifier of the changing attitudes towards Western modernity It employs women s clothing styles as a feminist act that provides rich insights into the power and limits of legal regulations and hegemonic discourses in constructing gendered and cultural borders in the modern Egyptian public sphere Furthermore through highlighting marginalized but significant models and historical moments of cultural exchange between Muslim and Western cultures through female dress the book tells a third story beyond the binary model of an assumed modest oppressed traditional Muslim woman vis vis consumer emancipated modern Western woman in mainstream Western discourse and literary representation *The Islamic Secular* Sherman A. Jackson, 2024 This book argues that the meaning of secular in the West and in Islam differ fundamentally Though the Islamic secular is a liberation from Islam s sacred law shari ah it is neither outside religion nor a rival to it it seeks neither to discipline nor displace religion nor expand its own jurisdiction at religion s expense The Islamic Secular is in Sherman Jackson s view a complement to religion in effect a religious secular In this book Jackson makes the

case for the Islamic Secular on the basis of Islam's own pre-modern juristic tradition and shows how the Islamic Secular impacts the relationship between Islam and the modern state including the Islamic State

Political Economy of Power Sharing in Developing Countries Akietuwopiribie Opuene Hart, 2025-08-07 Political Economy of Power Sharing in Developing Countries is an in-depth examination of factors that trigger the clamor for power sharing zoning and rotation in mostly developing countries. These provocations include geographical, ethnic, and religious identity factors that can influence the political process in varying degrees from country to country. The impact goes a long way in determining the stability and instability of the political process in various countries. The reasons for these differences and the impacts are a combination of the endogenous variables in the first instance, which are the primary prompters. Other elements, which are the exogenous factors, are secondary prompters. When these converge, they produce a peculiar impact in a given society based on the characteristic variables and the resulting outcome. The new paradigm shifts in the agitation in developing countries is demonstrated by an elitist instrument of marginalization and self-aggrandizement. The masses are hoodwinked, sensitized, and manipulated through primal sentiment to support the elites in acquiring political power, which in turn enables the acquisition of economic power.

Culture Still Matters: Notes From the Field Daniel Varisco, 2018-10-16 Varisco's Culture Still Matters: Notes from the Field is on the relationship between ethnographic fieldwork and the culture concept in the ongoing debate over the future of anthropology, drawing on the history of both concepts. Despite being the major social science that offers a methodology and tools to understand diverse cultures worldwide, scholars within and outside anthropology have attacked this field for all manner of sins, including fostering colonialism and essentializing others. This book revitalizes constructive debate of this vibrant field's history, methods, and contributions, drawing on the author's ethnographic experience in Yemen. It covers complicated theoretical concepts about culture and their critiques in readable prose accessible to students and interested social scientists in other fields. With forewords from Bryan S. Turner and Anouar Majid.

Edward Said's Rhetoric of the Secular Mathieu Courville, 2010-02-10 Contends that Said's interpretation of the secular is not the utter opposite of religion in the modern globalized world.

Asia and the Secular Pascal Bourdeaux, Eddy Dufourmont, André Laliberté, Rémy Madinier, 2022-09-20 This volume looks at the secular state in the context of contemporary Asia and investigates whether there existed before modernity antecedents to the condition of secularity understood as the differentiation of the sphere of the religious from other spheres of social life. The chapters presented in this book examine this issue in national contexts by looking at the historical formation of lexicons that defined the secular, the secular state, and secularism. This approach requires paying attention to modern vernacular languages and their precedents in written traditions with often a very long tradition. This book presents three interpretive frameworks: multiple modernities, variety of secularisms, and typologies of post-colonial secular states.

Confronting Secularism in Europe and India Brian Black, Gavin Hyman, Graham M. Smith, 2014-06-19 Can secularism continue to provide a foundation for political legitimacy? It

is often claimed that one of the cultural achievements of the West has been its establishment of secular democracy wherein religious belief is respected but confined to the sphere of private belief In more recent times however political secularism has been increasingly called into question Religious believers in numerous traditions have protested against the distortion and confinement that secularism imposes on their faith Others have become uneasily aware of the way in which secularism no longer commands universal assent in the way it once did Confronting Secularism in Europe and India adds to this debate by staging a creative encounter between European and Indian conceptions of secularism with a view to continuing new and distinctive trajectories of thought about the place and role of secularism in contemporary times Looking at political secularism the relationship between secularism and religion and religious and secular violence this book considers whether there are viable alternatives to secularism in Europe and in India Working with A Secular Age Florian Zemmin,Colin Jager,Guido Vanheeswijck,2016-03-21 Charles Taylor s monumental book A Secular Age has been extensively discussed criticized and worked on This volume by contrast explores ways of working with Taylor s book especially its potentials and limits for individual research projects Due to its wide reception it has initiated a truly interdisciplinary object of study with essays drawn from various research fields this volume fosters substantial conversation across disciplines Morphogenesis and the Crisis of Normativity Margaret S. Archer,2016-05-24 This volume explores the development and consequences of morphogenesis on normative regulation It starts out by describing the great normative transformations from morphostasis as the precondition of a harmonious relationship between legal validity and normative consensus in society to morphogenesis which tends to strongly undermine existing laws norms rules rights and obligations because of the new variety it introduces Next it studies the decline of normative consensus resulting from the changes in the social contexts that made previous forms of normativity based upon habits habitus and routine action unhelpfully misleading because they no longer constituted relevant guidelines to action It shows how this led to the Reflexive Imperative with subjects having to work out their own purposeful actions in relation to their objective social circumstances and their personal concerns if they were to be active rather than passive agents Finally the book analyses what makes for chance in normativity and what will underwrite future social regulation It discusses whether it is possible to establish a new corpus of laws norms and rules given that intense morphogenesis denies the durability of any new stable context **The Origins of the Bible and Early Modern Political Thought** Travis DeCook,2021-03-18 Explores the cultural functions played in the sixteenth and seventeenth centuries by accounts of the Bible s origins Varieties of Secularism in a Secular Age Michael Warner,Jonathan VanAntwerpen,Craig J. Calhoun,2013-03-04 What does it mean to say that we live in a secular age This apparently simple question opens into the massive provocative and complex A Secular Age where Charles Taylor positions secularism as a defining feature of the modern world not the mere absence of religion and casts light on the experience of transcendence that scientistic explanations of the world tend to neglect In Varieties of Secularism in a Secular Age a prominent and varied group of

scholars chart the conversations in which *A Secular Age* intervenes and address wider questions of secularism and secularity. The distinguished contributors include Robert Bellah, José Casanova, Nilfer Göle, William E. Connolly, Wendy Brown, Simon During, Colin Jäger, Jon Butler, Jonathan Sheehan, Akeel Bilgrami, John Milbank, and Saba Mahmood. *Varieties of Secularism in a Secular Age* succeeds in conveying to readers the complexity of secularism while serving as an invaluable guide to a landmark book.
