Lucas, Lucas, 2000-07 The leading text in public speaking *The Art of Public Speaking* is successful

because it works well for both students and instructors. For students, the book brings the art of public speaking to life by providing a steady stream of vivid and illustrative examples and by patiently teaching the theory and practice of rhetoric by well-chosen examples.

Using Advertising and Promotion to Build Brands with Powerweb Tom Duncan, 2001-09 This is an applied text with a strong brand message. Most texts on the market teach functions but neglect integration and organization, which should be the very foundation of Marketing. This text answers the questions of when to use, how to use, and who should be involved in the interrelated functions of Marketing today. This text also teaches the cost effectiveness of developing brand relationships, managing the ongoing dialogue between buyer and seller, and how to truly integrate the consumer into Business-to-business marketing vs. Business-to-consumer marketing (B2B and B2C).

Balance David Wall Rice, 2008-01-01 Scholarly research and depictions within popular culture present black males largely on the basis of their being caricatures—entities that extend not far beyond stereotypical celluloid televised explanations, print articles, and selective hip-hop commentary. Even within institutions and among individuals that are assumed to have the best interest of the black male at center, there is often an inability to consider them past a faux orbit of one dimensionality. *Balance* is unique in that it approaches Black males from a well-rooted personality perspective within context and utilizes discourse analysis in attempts at advancing identity theory.

Samsung, Media Empire and Family Chunhyo Kim, 2016-02-26 This book analyses media conglomerates owning multiple media holdings under centralized ownership within and across media markets. It argues that Asian capitalists utilize both a market-oriented ideology and family connections to build their media empires, thereby creating cultural conglomerates that exercise corporate censorship over media markets. It focuses on family-controlled media conglomerates in Korea, specifically the international business giant Samsung and its related media companies Cheil Jedang and JoongAng Ilbo, all of which are controlled by the single Lee family. Utilizing the theoretical approach of political economy of communication, the book examines how and why the Lee family exercises corporate censorship over Korean society. Offering an essential take on Asia's political economy of communication in order to understand the workings of Asian media empires, this book will appeal to students and scholars of Korean Studies, Korean Business, and Mass Communications.

Understanding Korean Public Administration Kwang-Kook Park,Wonhee Lee,Seok-Hwan Lee,2016-06-17 Although much has been written about the Korean public administration the international academic community has little knowledge about it as most of the literature has been written in Korean This book aims to provide more accessible knowledge internationally by filling that gap covering both the history and the current status of the Korean public administration This book is a collaboration of many Korean public administration scholars and would appeal to those interested in the secrets of Korea s rapid development in such a short span of time Each chapter covers historical contexts key to understanding its public administration and an important aspect as Korea is a fast changing society The book takes on a more pragmatic approach rather than to put the Korean experiences into the western theory Each chapter therefore provides an extensive discussion on the lessons learned and practical implications
