PPG-2266 Nikolaï Mikhaïlovich Amosov, 1975 Front line war diaries of the world famous heart surgeon **Women and War in the Twentieth Century** Nicole A. Dombrowski, 2004-11-23 First published in 2005 This volume documents women's 20th century wartime experiences from World War I through the recent conflicts in Bosnia The articles cross national boundaries including France China Peru Guatemala Germany Bosnia the U S and Great Britain The contributors of these original essays trace the evolution of women's roles as victims of war while also showing how they have been increasingly incorporated into battle as actors and perpetrators These comparative studies analyze war's disruptions of daily life its effects on children rape as a war crime access to equal opportunity and women's resistance to violence Russian/Soviet Military Psychiatry, 1904-1945 Paul Wanke, 2005 Psychiatry like most professional fields in Russia gained its legitimacy from its ability to serve the Tsar and later the Bolshevik party The militarised nature of these governments meant that psychiatry would have to prove its worth to the military This study will cover Russian Soviet military psychiatry from its first practical experience during the Russo Japanese war to its greatest test during the Great Patriotic War 1941-45 Throughout this study the continuity between Russian and Soviet military psychiatry will be emphasised For example psychiatry's materialist school dominated throughout this period and that Russia's acceptance that psychiatric casualties will occur allowed them to focus their resources on treatment rather than prevention **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 Navy Medicine, 2007 **Fighting the Russians in Winter** Allen F. Chew, 1982 This paper contains three case studies about winter warfare drawn from twentieth century experience It provides several valuable perspectives about this well known but sometimes little understood subject Our attention is directed to the distinctive aspects of warfare in subarctic climes the characteristics of this harsh environment and the climatic impact upon a broad range of military operations These case studies also provide examples of how several armies adapted or failed to adapt to the demands of winter warfare Finally they demonstrate that even military forces indigenous to subarctic regions with experienced soldiers can have difficulty in conducting winter operations **Russia at a Crossroads** Nurit Schleifman, 2013-12-16 The meaning of Russia's past is in a process of continuous deconstruction reshaping and negotiation by various social and political groupings Of the deluge of group memories which have broken loose this collection focuses on several new voices which have never been heard in Russia in this way before women Tatars Cossacks as well as the voices of religious and provincial populations In addition the volume sheds light on the creation of a multi party system which paved the way for the expression of particular views and interests and generated much of memory's concepts and language The Soviet Army, 1939-1980 Myron J.
