The New Encyclopedia of Southern Culture John T. Edge,2014-02-01 When the original Encyclopedia of Southern Culture was published in 1989 the topic of foodways was relatively new as a field of scholarly inquiry Food has always been central to southern culture but the past twenty years have brought an explosion in interest in foodways particularly in the South This volume marks the first encyclopedia of the food culture of the American South surveying the vast diversity of foodways within the region and the collective qualities that make them distinctively southern Articles in this volume explore the richness of southern foodways examining not only what southerners eat but also why they eat it The volume contains 149 articles almost all of them new to this edition of the Encyclopedia Longer essays address the historical development of southern cuisine and ethnic contributions to the region s foodways Topical essays explore iconic southern foods such as MoonPies and fried catfish prominent restaurants and personalities and the food cultures of subregions and individual cities The volume is destined to earn a spot on kitchen shelves as well as in libraries **The Larder** John T. Edge,Elizabeth S. D. Engelhardt,Ted Ownby,2013-10-15 The sixteen essays in *The Larder* argue that the study of food does not simply help us understand more about what we eat and the foodways we embrace The methods and strategies herein help scholars use food and foodways as lenses to examine human experience The resulting conversations provoke a deeper understanding of our overlapping historically situated and evolving cultures and societies *The Larder* presents some of the most influential scholars in the discipline today from established authorities such as Psyche Williams Forson to emerging thinkers such as Rien T Fertel writing on subjects as varied as hunting farming and marketing as well as examining restaurants iconic dishes and cookbooks Editors John T Edge Elizabeth Engelhardt and Ted Ownby bring together essays that demonstrate that food studies scholarship as practiced in the American South sets methodological standards for the discipline The essayists ask questions about gender race and ethnicity as they explore issues of identity and authenticity And they offer new ways to think about material culture technology and the business of food *The Larder* is not driven by nostalgia Reading such a collection of essays may not encourage food metaphors It s not a feast not a gumbo certainly not a home cooked meal Ted Ownby argues in his closing essay Instead it s a healthy step in the right direction taken by the leading scholars in the field *An Outdoor Journal* Jimmy Carter,1994-08-01 *An Outdoor Journal* first published in 1988 is President Carter s memoir of hunting and fishing and the meaning of nature revealing much about a man who embodies so much of what Americans claim to admire self reliance honesty humor modesty intelligence the stuff of heroes *The New York Times Book Review* *The new encyclopedia of southern culture* ,2006 **DNR Outdoor Report** , *The New Encyclopedia of Southern Culture* Charles Reagan Wilson,James G.
