Renewing Fast Track Legislation Policy Analyses In International Economics No 50:

The Controversial Pivot Robert A. Pastor, Rafael Fernanz De Castro, 2011-10-01 In 1994 two political events occurred that would have been inconceivable just five years before the North American Free Trade Agreement NAFTA was launched and Republicans took control of the U S Congress for the first time in 40 years NAFTA aimed to bind the three North American economies after more than a century in which Mexico and Canada had struggled to keep their distance from the United States Ironically at the very moment that Canada and Mexico risked a closer embrace a new inward looking U S Congress took office less sensitive to neighbors or international obligations Concerned Mexicans and Canadians asked Was it possible to advance NAFTA s goals if the U S Congress stepped on the brakes This book looks at the NAFTA integration process by focusing on the U S Congress More independent and influential than the Canadian Parliament or Mexican legislature the U S Congress seeks to shape the river banks within which North American integration runs its course but often it just dams the river The book presents the work of scholars from Mexico Canada and the United States who propose changes in congressional policymaking in order to facilitate a smoother and deeper process of integration within North America The chapter authors are I M Destler Neil Nevitte Kim Richard Nossal Miguel Basa ez Norman J Ornstein and George W Grayson *The Domestic Sources of American Foreign Policy* James M. McCormick, 2012-06-18 The new edition of this leading reader for courses in American foreign policy offers students an up to date highly accessible introduction to the broad array of domestic factors influencing U S policymakers Editor James M McCormick has carefully selected two dozen current insightful and sometimes controversial essays by a distinguished group of leading experts scholars journalists and public officials including 11 new and 7 updated contributions In his introduction McCormick evaluates the challenges facing U S foreign policy makers in recent years and assesses the Obama Administration s successes and failures in its efforts to pursue a new direction in American foreign policy The volume is then divided into three major parts with an opening essay by the editor to place each part in context and then a selection of essays that analyzes the topic in that part in more detail Part I The Societal Environment contains a series of articles on the position of interest groups the impact of military experience the effect of public opinion and the role of elections and political parties on foreign policy Part II The Institutional Setting examines how various political institutions such as Congress the presidency and various bureaucracies e g the National Security Council the intelligence community shape American foreign policy Part III Decision makers and Their Policymaking Positions provides various case analyses over several administrations to illustrate how individuals and bureaucracies affect the foreign policy decision making at the highest levels of government **Case Studies in US Trade Negotiation:**

Making the rules Charan Devereaux, Robert Z. Lawrence, Michael Watkins, 2006 Volume 1 of this series presents five cases on trade negotiations that have had important effects on trade policy rulemaking and an analytic framework for evaluating these negotiations Jacket *U.S. Trade and Investment Policy* Andrew H. History Has Made Us Friends Donald E. Abelson, Stephen Brooks, 2024-06-15 Separated by the world's longest land border and engaging in over three billion dollars in trade daily Canada and the United States share security concerns cultural interests and a history spanning more than 250 years Alan Rock former Canadian ambassador to the United States has said that this special relationship represents a bond that is beyond practical It borders on mystical The rise of nativist sentiment however has raised concerns over preserving this relationship History Has Made Us Friends illuminates the nature and dynamics of Canada US relations examining their history attributed meaning and conceptualization Contributors consider many angles and perspectives including the impact of geopolitical change to determine whether the relationship warrants the moniker special They explore whether shared values and demographic similarities continue to cement the relationship and if it still matters whether presidents and prime ministers get along While things look different today from when President Kennedy declared What unites us is far greater than what divides us History Has Made Us Friends argues that the Canada US relationship often narrowly understood or dismissed as a relic of the past continues to be unique and resilient

American Trade Politics, 4th Edition , In this comprehensive revision of the most influential widely read analysis of the US trade policymaking system Destler addresses how globalization has reshaped trade politics weakening traditional protectionism but intensifying concern about trade's societal impacts Entirely new chapters treat the deepening of partisan divisions and the rise of trade and issues especially labor and the environment The author concludes with a comprehensive economic and political strategy to cope with globalization and maximize its benefits The original edition of American Trade Politics won the Gladys Kammerer Award of the American Political Science Association for the best book on US national policy

The Real and the Ideal Anthony Lake, David Ochmanek, 2001-08-28 A teacher scholar practitioner and publicist Richard Ullman has been a unique and influential figure in US foreign and security policy over the past forty years This volume created on the initiative of some of Ullman's most accomplished former students is less a summing up of his work than a sort of intellectual kaleidoscope held up to his ideas The result is a spirited and highly readable set of essays on themes relating to US foreign and defense policy in a period of nearly unprecedented dynamism in the international system The volume includes contributions by David Gompert I M Destler Michael Doyle Michael O Hanlon and eight other distinguished scholars and practitioners of international relations Major issues addressed in The Real and the Ideal include Changing international conceptions of state sovereignty governmental legitimacy and ethics and their relationship to national influence and power New roles played by military

power including an exploration of emerging guidelines for the use of force in the defense of norms and values that go beyond traditional definitions of national interest The domestic context for the setting of U S foreign and defense policy including an analysis of recent and heretofore unpublished polling data regarding the public s propensity to support international engagement Assessments of the effects of alliance relationships on interstate relations including case studies of trans Atlantic relations in the post Cold War period the foreign policy of the unified Germany and relations among China Japan and Taiwan A highly original revisionist assessment of U S foreign policy of liberal isolationism in the 1920s along with lessons for U S statesmen and policy makers today A Council on Foreign Relations book **American Trade Politics** I. M. Destler, 2005-06-08 In this comprehensive revision of the most influential widely read analysis of the US trade policymaking system Destler addresses how globalization has reshaped trade politics weakening traditional protectionism but intensifying concern about trade s societal impacts Entirely new chapters treat the deepening of partisan divisions and the rise of trade and issues especially labor and the environment The author concludes with a comprehensive economic and political strategy to cope with globalization and maximize its benefits The original edition of American Trade Politics won the Gladys Kammerer Award of the American Political Science Association for the best book on US national policy **C. Fred Bergsten and the World Economy** Michael Mussa, 2006 This engaging and informative book covers the range of issues on which C Fred Bergsten and the Peterson Institute have distinguished themselves over the last 25 years including trade liberalization exchange rate regimes international financial architecture debt economic sanctions and the impact of technology and globalization Most of the Institute s senior research staff have contributed chapters which are both retrospective and prescriptive **Capitalizing on the Morocco-US Free Trade Agreement: A Road Map for Success**, 2009 Latin American Trade Strategy at Century's End Carol Wise, 1999 **Feasibility and Economic Effects of a Korea-U.S. FTA** Junkyu Lee, 2005 The New Protectionists Marcus Noland, 1999 For half a century the US Congress effectively evaded its constitutional duty by allowing the US President to take the lead in the formulation of trade policy The result was a system which avoided the danger of log rolling exercises when setting tariffs It facilitated the growth of trade and thus encouraged economic growth and rising living standards For some however the system has shown signs of fragmentation arising from new pressures and challenges and is producing policy outcomes that lack coherence and rationale New pressures include demands for trade protection arising from America s mounting trade deficit as well as jolts to the system caused by the struggle to create a North America Free Trade Agreement More recently new demands largely unrelated to trade have perversely affected the policy as non governmental organisations have demanded a role in its formulation including those concerned with environmental social and labour issues To a significant extent they have effectively privatised the policy process Moreover the US government has increasingly used trade policy for non trade purposes principally as a tool of foreign and security policy The pro liberalisation forces within Congress and the

administration have been comprehensively outplayed In the absence of political leadership and a greater public awareness of the issues at stake the stage is set for the still greater abuse of trade policy by narrow special interest groups in pursuit of particularist ends In the circumstances the best that can be hoped for may be a series of international agreements which could constrain the abuse of US domestic policy formulation But even this will require greater courage and resolve by the advocates of free trade than has recently been shown

Trading Blows James Shoch,2003-01-14 For the past two decades trade policy has been high on the American political agenda thanks to the growing integration of the United States into the global economy and the wealth of debate this development has sparked Although scholars have explored many aspects of U S trade policy there has been little study of the role played by party politics With *Trading Blows* James Shoch fills that gap Shoch offers detailed case studies of almost all of the major trade issues of the Reagan Bush and Clinton eras including administrative and legislative efforts to curb auto steel and other imports and to open up markets in Japan and elsewhere as well as free trade initiatives such as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT treaty that concluded the Uruguay Round of international trade talks the extension of presidential fast track trade negotiating authority and the approval of permanent normal trade relations with China In so doing he explains the complex patterns of party competition over U S trade policy since 1980 and demonstrates the significant impact that party politics has had on the nation s recent trade policy decisions

Congress Reconsidered Lawrence C. Dodd,Bruce Ian Oppenheimer,2005 Dodd U of Florida and Oppenheimer Vanderbilt U present a collection of 18 essays 13 are new to this edition that explore cutting edge research on the development of the modern Congress covering the patterns and dynamics of congressional change analysis of elections and constituencies and the dynamics of parties and committees Important
