Realities Erhan Simsek,2019-02-20 Business is woven into the very fabric of American life yet rarely surfaces in the nation s literary history Even in novels about business it proves an elusive motif that fails to mirror actual business organizations This book argues that literary representations of business remain ineffable because business serves potential aesthetic functions subtly yet meaningfully impacting readers Exploring the complex representation of business in realist naturalist and modernist works Erhan Simsek reveals these functions by analyzing how the motif intertwines with social developments literary movements and author biographies He thus illuminates the motif itself while highlighting the utility of a focus on the changing functions of literature The Responsibilities of the Novelists Frank Norris,2016-10-15 The late Frank Norris s

literary essays marshaled handsomely between covers under the title *The Responsibilities of the Novelist* impress one on the first browsing with a sense of vague regret Here is something that should not have been yet one knows not at first exactly what nor why But as you read the feeling grows that this book would never have appeared had the author lived to decide the question for himself The essays are good amazingly good some of them their sanity never fails their simplicity and force lack nothing they are fresh leisurely progressive healthy But they are young and uneven Norris was a man who grew fast There are five years between some of these essays written according to the bibliography in the back of the volume only a few months apart The book s entire contents was dashed off within two years and in that time Norris grew ten We venture the prediction that none of the essays in the present volume would have passed muster of this growing author for admission to his ranks of books Already had he lived till now would the best and latest of them have seemed trivial and partial in his eyes

And yet considered apart from the personality and rapid development of their writer these essays are profitable If they solve no problems if they open no new fields if they add nothing to the sum or the statement of truth they at least restate familiar facts and conditions with singular clearness and force delightful freshness unerring selection and complete sanity And not the least of the pleasure they give is the melancholy contemplation of a mind that had it survived would inevitably have been in front of the literary movement the beginnings of which are already in the opinion of many at hand We quote as an example of Frank Norris s character and quality as a man of letters the final paragraphs of his essay on the responsibilities of the novelist The Pulpit the Press and the Novel these indisputably are the great moulders of public morals to day But the Pulpit speaks but once a week the Press is read with lightning haste and the morning news is waste paper by noon But the Novel goes into the home to stay It is read word for word is talked about discussed its influence penetrates every chink and corner of the family Yet novelists are not found wanting who write for money I do not think this is an unfounded accusation I do not think it asking too much of credulity This would not matter if they wrote the Truth But these gentlemen who are in literature for their own pocket every time have discovered that for the moment the People have confounded the Wrong with the Right and prefer that which is a lie to that which is true Very well then say these gentlemen If they want a lie they shall have it and they give the People a lie in return for royalties The Book Buyer A Monthly Review of American and Foreign Literature Volume 27 *Peripheral Immunity in Parkinson's Disease: Emerging Role and Novel Target for Therapeutics* Cristoforo
