Matrices Of Genre

Justin Marc Smith

Matrices Of Genre:

The Genre of Acts and Collected Biography Sean A. Adams, 2013-10-17 It is widely accepted by New Testament scholars that the Gospel of Luke and the Acts of the Apostles probably originated as two parts of one work by a single author. In spite of this the books have been assigned to very different genres. Luke is traditionally viewed as a biography of Jesus and Acts as a history of the early church. Comparing in detail the structure and content of Acts with the formal features of history, novel, epic, and biography, Sean A. Adams challenges this division. Applying both ancient and modern genre theory, he argues that the best genre parallel for the Acts of the Apostles is in fact collected biography. Offering a nuanced and sophisticated understanding of genre theory along with an insightful argument regarding the composition and purpose of Acts, this book will be of interest to those studying the New Testament, Acts, genre theory, and ancient literature.

Matrices of Genre

Mary Depew, Dirk Obbink, 2000-12-30 The literary genres given shape by the writers of classical antiquity are central to our own thinking about the various forms literature takes. Examining those genres, the essays collected here focus on the concept and role of the author and the emergence of authorship out of performance in Greece and Rome. In a fruitful variety of ways the contributors to this volume address the questions: what generic rules were recognized and observed by the Greeks and Romans over the centuries? what competing schemes were there for classifying genres and accounting for literary change? and what role did authors play in maintaining and developing generic contexts? Their essays look at tragedy, epigram, hymns, rhapsodic poetry, history, comedy, bucolic poetry, prophecy, Augustan poetry, commentaries, didactic poetry, and works that mix genres. The contributors bring to this analysis a wide range of expertise; they are in addition to the editors Glenn W. Most, Joseph Day, Ian Rutherford, Deborah Boedeker, Eric Csapo, Marco Fantuzzi, Stephanie West, Alessandro Barchiesi, Ineke Sluiter, Don Fowler, and Stephen Hinds. The essays are drawn from a colloquium at Harvard's Center for Hellenic Studies.

Why

Bíos? On the Relationship Between Gospel Genre and Implied Audience Justin Marc Smith, 2015-02-26 Justin Marc Smith argues that the gospels were intended to be addressed to a wide and varied audience. He does this by considering them to be works of ancient biography, comparative to the Greco-Roman biography. The earliest Christian interpreters of the Gospels did not understand their works to be sectarian documents. Rather, the wider context of Jesus literature in the second and third centuries points toward the broader Christian practice of writing and disseminating literary presentations of Jesus and Jesus traditions as widely as possible. Smith addresses the difficulty in reconstructing the various gospel communities that might lie behind the gospel texts and suggests that the all nations motif present in all four of the canonical gospels suggests an ideal secondary audience beyond those who could be identified as Christian.

Gospels or Biographies? The

Gospels as Folk Literature Ryder Wishart, 2024-03-11 Challenging the widely accepted classification of the canonical gospels as biographies or historiographies, the author argues that they should be classified as collections of folk literature from early Christianity. Drawing on comparative register analysis and re-introducing literary and sociolinguistic insights from

the twentieth century form critics this insightful study challenges readers to rethink the significance of gospels for understanding Jesus's historical context and relevance for modern readers The gospels are not merely designed to inform readers about the life of Jesus but also to push readers into accepting or rejecting his teaching It is a must read for anyone seeking a deeper understanding of the gospel genre and the intentions of the evangelists who compiled them

The Genres of Late Antique Christian Poetry Fotini Hadjittofi, Anna Lefteratou, 2020-10-12 Classicizing Christian poetry has largely been neglected by literary scholars but has recently been receiving growing attention especially the poetry written in Latin One of the objectives of this volume is to redress the balance by allowing more space to discussions of Greek Christian poetry The contributions collected here ask how Christian poets engage with and are conscious of the double reliance of their poetry on two separate systems on the one hand the classical poetic models and on the other the various genres and sub genres of Christian prose Keeping in mind the different settings of the Greek speaking East and the Latin speaking West the contributions seek to understand the impact of historical setting on genre the influence of the paideia shared by authors and audiences and the continued relevance of traditional categories of literary genre While our immediate focus is genre most of the contributions also engage with the ideological ramifications of the transposition of Christian themes into classicizing literature This volume offers important and original case studies on the reception and appropriation of the classical past and its literary forms by Christian poetry

Reading Poetry, Writing Genre Silvio Bär, Emily Hauser, 2018-12-27 This ground breaking volume connects the situatedness of genre in English poetry with developments in classical scholarship exploring how an emphasis on the interaction between English literary criticism and Classics changes sharpens or perhaps even obstructs views on genre in English poetry Genre has classical roots both in the etymology of the word and in the history of genre criticism which begins with Aristotle In a similar vein recent developments in genre studies have suggested that literary genres are not given or fixed entities but subjective and unstable as well as historically situated and that the reception of genre by both writers and scholars feeds back into the way genre is articulated in specific literary works Classical scholarship literary criticism and genre form a triangle of key concepts for the volume approached in different ways and with different productive results by contributors from across the disciplines of Classics and English literature Covering topics from the establishment of genre in the Middle Ages to the invention of female epic and the epyllion and bringing together the works of English poets from Milton to Tennyson to Josephine Balmer the essays collected here argue that the reception and criticism of classical texts play a crucial part in generic formation in English poetry *The Cambridge Companion to Greek Lyric* Felix Budelmann, 2009-04-30 Introduction to this wide ranging body of poetry which includes work by such famous poets as Sappho and Pindar **Greek and Latin Poetry of Late Antiquity** Berenice Verhelst, Tine Scheijnen, 2022-06-30 Promotes a bilingual Latin Greek focus to shed new light on the poetics and aesthetics of late antique poetry
